1.0 APPLICATION SUMMARY

Applicant:	Mike Schlechter	
FLU Category:	R-1	
Service Area:	Rural	
Site Acreage:	5.4 +/-	
Community Plan Area:	East Rural NA	
Overlay:	None	

Introduction Summary:

The applicant is requesting to rezone the property from the existing AR (Agricultural Rural) district to the proposed CI (Commercial, Intensive) district with restrictions to the use, setbacks, and hours of operation to accommodate additional inventory and storage of equipment. The property is located on the corner of Rain Frog Land and W state Road 60.

5.0 IMPLEMENTATION RECOMMENDATIONS**5.1 Compatibility**

The immediate adjacent properties are zoned AR to the south, west, east, and AS -1 to the north separated by W State Road 60. From the west the parcel is separated from residential parcels by Rain Frog Road. As the road is less than 50 feet in width a required 20-foot buffer with type B screening is required in accordance with LDC Sec. 6.06.06. The northern most adjacent parcel to the east of the subject parcel is zoned CI, owned by the applicant with the use of sales, rental and service of new or used farm, garden and turf equipment. Furthermore, the site is bordered by a mixture of residential uses. To mitigate compatibility issues with the residential properties the applicant has proposed restrictions on the use, setbacks, and hours of operation. Additionally, the subject site is surrounded by R – 1, AR, and OC-20 Future Land Use (FLU) categories which permits residential, community & neighborhood commercial, office, farms, ranches, and multi-purpose uses.

5.2 Recommendation

Based on the above considerations and proposed restrictions, staff finds the proposed CI zoning district is compatible with the existing zoning districts and development pattern in the area. Therefore, staff finds the request Approvable.

6.0 PROPOSED RESTRICTIONS

1. Hours of operation for the subject parcel will be limited to: Monday thru Friday from 8 am to 5 pm and Saturday from 8 am to 12 pm. The business will be closed on Sundays
2. The proposed building will be placed along the eastern side of the property with a minimum of 140-foot distance from the residential properties west of Rain Frog Lane.
3. Use shall be restricted to "sales, rental and service of new or used farm, garden and turf equipment"

Additionally, the subject site is surrounded by R – 1, AR, and OC-20 Future Land Use (FLU) categories which permits residential, community & neighborhood commercial, office, farms, ranches, and multi-purpose uses.

5.2 Recommendation

Based on the above considerations and proposed restrictions, staff finds the proposed CI zoning district is compatible with the existing zoning districts and development pattern in the area. Therefore, staff finds the request Approvable.

SUMMARY OF HEARING

THIS CAUSE came on for hearing before the Hillsborough County Land Use Hearing Officer on September 18, 2023. Ms. Michelle Heinrich of the Hillsborough County Development Services Department introduced the petition.

Ms. Linda Stewart 6997 Professional Parkway, Sarasota testified as a land use planner for the applicant. Ms. Stewart showed a PowerPoint presentation and stated that the property is located at 2903 West Highway 60 and is 5.4 acres in size. The property is zoned Agricultural Rural and designated RES-1. It is located in the Rural Service area. Ms. Stewart described the surrounding area and stated that the proposed Restrictions to the Commercial Intensive zoning district will restrict the use to sales, rental and service of new or used farm, garden and turf equipment only. She added that the hours of operation will be limited to Monday through Friday 8am to 5pm, Saturday 8am to Noon and closed on Sunday. Ms. Stewart testified that the proposed buildings will be placed on the eastern side of the property with a minimum of 140 feet from the existing residential properties to the west of Rain Frog Lane. The parcel will be accessed through the existing Everglades Farm Equipment property. Ms. Stewart stated that she met with FDOT regarding access to State Road 60 and agreed that the access will be from the existing property to the east. She stated that the prior use of the property was a neighborhood commercial use in the form of a berry farm and nursery. Ms. Stewart concluded her presentation by stating that the request serves as an expansion of the existing adjacent Everglades Farm

Equipment business located at 2805 Highway 60 and that staff supports the request.

Hearing Master Finch asked Ms. Stewart if the adjacent business is a John Deere dealership and if the subject property was being used for the storage of equipment which necessitates the rezoning to make the storage a permitted use. Ms. Stewart replied that was correct. Hearing Master Finch asked Ms. Stewart if the property was under Code Enforcement violation. Ms. Stewart replied no.

Ms. Carolanne Peddle, Development Services staff, testified regarding the County's staff report. Ms. Peddle stated that the applicant is requesting a rezoning to CI with Restrictions. She described the surrounding area and Future Land Use categories and stated that staff finds the request approvable with the proposed Restrictions.

Ms. Jillian Massey, Planning Commission staff testified regarding the Planning Commission staff report. Ms. Massey stated that the subject property is within the Residential-1 Future Land Use classification and the Rural Service Area. Ms. Massey described the surrounding land use categories and stated that the request is consistent with Objective 16 regarding the protection of existing neighborhoods and Objective 17 regarding compatibility with the existing development pattern. Ms. Massey stated that the request does not meet commercial locational criteria but does not require a waiver as agricultural related commercial within the Rural Service Area is not subject to locational criteria. She concluded her presentation by stating that the proposed Restrictions address the staff's compatibility concerns and that the Planning Commission finds the proposed rezoning consistent with the Future of Hillsborough Comprehensive Plan.

Hearing Master Finch asked for members of the audience in support of the application. No one replied.

Hearing Master Finch asked for members of the audience in opposition to the application.

Ms. Mollie Usher 5513 Rain Frog Lane Plant City testified in opposition and detailed her background and research in microbiology and cell science. Ms. Usher discussed the impact of development on protected species. She added that the parcel was previously the subject of a rezoning application and that it is disrespectful and a waste of resources to reopen the case.

Mr. Jonathan Hoke 5513 Rain Frog Lane testified in opposition and stated that he is the Vice President of Rain Frog Ranch. He stated that he lives adjacent to the subject property and testified in opposition to the prior rezoning application. He added that agencies previously opposed a rezoning. Mr. Hoke stated that Everglades Equipment on its existing property was grandfathered in the

community however, the recent acquisition of the adjacent property has raised significant concerns. He believes that the most concerning fact is that Everglades Equipment had utter and blatant disdain for the law. They moved their 12-foot 7,000 volt fence to the edge of the subject property without asking neighbors how they felt about it. Mr. Hoke testified that a precedent will be set regarding the disregard for zoning regulations. He described issues pertaining to the high voltage fence and noise from burglar alarms in addition to deliveries that block State Road 60. Mr. Hoke concluded his remarks by stating that the rezoning would have a long lasting impact on the community.

Ms. Gretchen Genrich Hoke 5513 Rain Frog Lane testified in opposition. Ms. Hoke stated that she is the founder of Rain Frog Ranch which is a 503© non-profit organization for equine therapy and a certified wildlife habitat. She discussed issues regarding the future environmental wellbeing and her families history on-site. She stated that the Florida Panther has been confirmed in the vicinity of Medard Park and that the Everglades Equipment property owners should be held accountable for their disrespect and bullying behavior.

Ms. Mollie Genrich 5521 Rain Frog Lane testified in opposition. She stated that she has lived there for over five decades and attended a land use meeting three years ago that denied a request for CG zoning. She expressed concerns regarding the preservation of the rural character, property values and community input.

Ms. Margaret Thompson 5507 Rain Frog Lane testified in opposition and stated that the rezoning will affect the environment with the businesses bright light and late night deliveries. She discussed the 7,000 volt fence and the children that live the neighborhood. Ms. Thompson stated that a rezoning has previously been denied and that the Everglades rezoning after the fact should not be at the expense of the environment and the neighborhood.

Mr. Charles Genrich 5521 Rain Frog Lane testified in opposition and stated that Everglades moved on to the property illegally and stored equipment which is prohibited on the existing AR zoning district. He added that the property should remain zoned AR.

Ms. Heinrich of the Development Services Department testified that the prior rezoning request to CG was withdrawn by the applicant.

Hearing Master Finch asked Ms. Heinrich if the prior rezoning request went before the Board of County Commissioners. Ms. Heinrich replied that it did not.

Ms. Heinrich testified that the revised County staff report was due to a typographical error regarding the Community Planning Area which the subject property is not located within one.

Ms. Stewart testified during the rebuttal period that there has not been a protected species survey done on the property which is normally done during the development permitting stage. She stated that if there are protected species, the appropriate permits will be obtained. Ms. Stewart stated that the property was previously a farm and nursey. The County requested a 20-foot wide Type B buffer to be placed along Rain Frog Lane which will be installed. She described the property retention area and stated that it will be in accordance with all SWFWMD regulations. Ms. Stewart concluded her testimony by stating that she would speak with the applicant about the deliveries and alarms and that the proposed Restrictions will limit the use to one specific use, with limits on the hours of operation and a building setback of 140 feet from Rain Frog Lane.

The hearing was then concluded.

EVIDENCE SUBMITTED

Ms. Heinrich submitted a copy of the revised County staff report into the record. Mr. Hoke submitted a copy of a prior rezoning application on the subject property and photos of the subject property and surrounding area into the record. Ms. Hoke submitted a study regarding the Florida Panther and photos of wildlife in the area into the record.

PREFACE

All matters that precede the Summary of Hearing section of this Decision are hereby incorporated into and shall constitute a part of the ensuing Findings of Fact and Conclusions of Law.

FINDINGS OF FACT

1. The subject property is 5.45 acres in size and is currently Agricultural Rural (AR) and is designated Residential-1 (RES-1) by the Comprehensive Plan. The property is located within the Rural Service Area.
2. The applicant is requesting a rezoning to the Commercial Intensive-Restricted (CI-R) zoning district. The applicant has proposed to restrict the use of the parcel to permit the sales, rental and service of new or used farm, garden and turf equipment only. The applicant is also proposing to limit the hours of operation to Monday through Friday 8am to 5pm and Saturday from 8am to 12pm. The business will be closed on Sunday. A third Restriction is proposed to require the building to be placed along the n side of the property with a minimum setback of 140 feet from the residential properties west of Rain Frog Lane.

3. The Planning Commission staff supports the rezoning request. The Planning Commission found that the request is consistent with Objective 16 regarding the protection of existing neighborhoods and Objective 17 regarding compatibility with the existing development pattern. Staff testified that the request does not meet commercial locational criteria but does not require a waiver as agricultural related commercial within the Rural Service Area is not subject to locational criteria. The Planning Commission found that the proposed Restrictions address compatibility and that the application consistent with the Comprehensive Plan.
4. The subject property fronts State Road 60 and is adjacent to a parcel zoned CI to the east. The eastern parcel is an existing John Deere dealership. According to the applicant's representative, the subject property is intended to be used in association with the John Deere dealership and will not have direct access to State Road 60 but will instead be accessed through the existing John Deere dealership parcel.
5. Testimony in opposition was provided at the Zoning Hearing Master hearing by some residents who live along Rain Frog Lane. The concerns expressed focused on the possible environmental impact to the surrounding area and existing wildlife, a high voltage fence that borders the John Deere property, lighting, commercial equipment deliveries and the possible negative impact on property values. Residents also questioned the filing of the rezoning as a prior application for Commercial General (CG) was turned down.

In response to the neighbor's testimony, County staff testified that the prior rezoning request to CG was withdrawn by the applicant and not heard by the Board of County Commissioners.

The applicant's representative testified that a protected species survey had not yet been conducted but that if there are protected species, the appropriate permits will be obtained. The representative also stated that the County requested a 20-foot wide Type B buffer to be placed along Rain Frog Lane which will be installed in addition to the building setback of 140 feet from Rain Frog Lane. The representative testified that the proposed Restrictions limit the land use to one specific use and the hours of operation ensure compatibility with the residential homes.

6. The prior rezoning application (RZ STD 20-0868) which was withdrawn requested the full range of Commercial General (CG) zoning permitted uses and is not analogous to the subject Restricted rezoning application which is a limited use associated with the CI zoned parcel to the east.
7. The development of the subject property for a limited Commercial Intensive land use associated with the neighboring John Deere dealership which provides access to the parcel is a compatible use of the property given the frontage along State Road 60.
8. The applicant's commitment to a significant 140 foot building setback from the residential parcels along Rain Frog Lane and the limited hours of operation increases compatibility.
9. The proposed rezoning to CI-R is therefore consistent with the Land Development Code, Comprehensive Plan and compatible with the surrounding area.

FINDINGS OF COMPLIANCE/NON-COMPLIANCE WITH THE HILLSBOROUGH COUNTY COMPREHENSIVE PLAN

The rezoning request is in compliance with and does further the intent of the Goals, Objectives and the Policies of the Future of Hillsborough Comprehensive Plan.

CONCLUSIONS OF LAW

Based on the Findings of Fact cited above, there is substantial competent evidence to demonstrate that the requested rezoning is in conformance with the applicable requirements of the Land Development Code and with applicable zoning and established principles of zoning law.

SUMMARY

The applicant is requesting a rezoning to the CI-R zoning district. The property is 5.45 acres in size and is currently zoned AR and designated RES-1 by the Comprehensive Plan. The parcel is located within the Rural Service Area.

The applicant has proposed to restrict the use of the parcel to permit the sales, rental and service of new or used farm, garden and turf equipment only. The applicant is also proposing to limit the hours of operation to Monday through Friday 8am to 5pm and Saturday from 8am to 12pm. The business will be closed on Sunday. A third Restriction is proposed to require the building to be placed

along the n side of the property with a minimum setback of 140 feet from the residential properties west of Rain Frog Lane.

The Planning Commission supports the request and found it compatible with the surrounding development given the proposed Restrictions.

Testimony in opposition was provided at the Zoning Hearing Master hearing by some residents who live along Rain Frog Lane. The concerns expressed focused on the possible environmental impact to the surrounding area and existing wildlife, a high voltage fence that borders the John Deere property, lighting, commercial equipment deliveries and the possible negative impact on property values. Residents also questioned the filing of the rezoning as a prior application for Commercial General (CG) was turned down.

In response to the neighbor's testimony, County staff testified that the prior rezoning request to CG was withdrawn by the applicant and not heard by the Board of County Commissioners. The applicant's representative testified that a protected species survey had not yet been conducted but that if there are protected species, the appropriate permits will be obtained. The representative also stated that the County requested a 20-foot wide Type B buffer to be placed along Rain Frog Lane which will be installed in addition to the building setback of 140 feet from Rain Frog Lane. The representative testified that the proposed Restrictions limit the land use to one specific use and the hours of operation ensure compatibility with the residential homes.

The applicant's commitment to a significant 140 foot building setback from the residential parcels along Rain Frog Lane and the limited hours of operation increase compatibility. The proposed rezoning to CI-R is therefore consistent with the Land Development Code, Comprehensive Plan and compatible with the surrounding area.

RECOMMENDATION

Based on the foregoing, this recommendation is for **APPROVAL** of the CI-R rezoning request as indicated by the Findings of Fact and Conclusions of Law stated above.

Unincorporated Hillsborough County Rezoning	
Hearing Date: September 18, 2023 Report Prepared: September 6, 2023	Petition: RZ 23-0552 2903 West State Road 60 <i>Southeast Corner of West State Road 60 and Rain Frog Lane</i>
Summary Data:	
Comprehensive Plan Finding	CONSISTENT
Adopted Future Land Use	Residential-1 (1 du/ga; 0.25 FAR)
Service Area	Rural Area
Community Plan	N/A
Request	Rezoning from Agricultural Rural (AR) to Commercial Intensive (CI) to allow for the sales, rental, and service of new or used farm, garden, and turf related equipment.
Parcel Size	5.45 ± acres (237,402 sq. ft.)
Street Functional Classification	West State Road 60 - State Principal Arterial Rain Frog Lane - Local Haynesworth Drive – Local
Locational Criteria	Does not meet; waiver request submitted.
Evacuation Zone	None

Context

- The 5.45 ± acre subject property is located on the southeast corner of West State Road 60 and Rain Frog Lane.
- The site is located within the Rural Area and is not located within the limits of a community plan.
- The subject property is located within the Residential-1 (RES-1) Future Land Use category, which can be considered for a maximum density of up to 1 dwelling unit per gross acre and a maximum consideration of up to 0.25 Floor Area Ratio (FAR). The RES-1 Future Land Use category designates areas for rural residential uses. Typical uses within RES-1 include but are not limited to, farms, ranches, residential uses, rural scale neighborhood commercial uses, offices, and multi-purpose projects. Commercial, office, and multi-purpose uses shall meet locational criteria for specific land use projects.
- The subject site has a Future Land Use category designation of Residential-1 (RES-1). The area directly west and north of the property is also designated as RES-1. Directly east, there are the Office Commercial-20 (OC-20) and Agricultural/Rural-1/5 (AR-1/5) Future Land Use categories. To the south, there is Public/Quasi Public (P/QP). Further southeast is Agricultural/Mining-1/20 (AM-1/20).
- The subject site is currently vacant. To the east there are additional vacant uses accompanied by heavy commercial uses. The areas directly west of the site have a single-family residential land use designation, there is additional single family residential and vacant uses north past West State Road 60. South of the subject site are public/quasi-public institutional uses.
- The site is currently zoned as Agricultural Rural (AR). The AR zoning district extends to the east, south, and west. Also to the east of the subject site is Commercial Intensive (CI) zoning. North of the site is Agricultural, Single-Family-1 (AS-1).
- The applicant is requesting a rezoning of Agricultural Rural (AR) to Commercial Intensive (CI) to allow for the sales, rental, and service of new or used farm, garden, and turf related equipment.

Compliance with Comprehensive Plan:

The following Goals, Objectives, and Policies apply to this rezoning request and are used as a basis for a consistency finding.

FUTURE LAND USE ELEMENT

Rural Area

Rural areas will typically carry land use densities of 1 du/5 ga or lesser intense designations. The One Water Chapter outlines relevant language related to water, wastewater and septic in the Rural Area. Within the rural area there are existing developments that are characterized as suburban enclaves or rural communities. These are residential developments which have a more dense development pattern and character, usually 1 or 2 du/ga. These enclaves are recognized through the placement of land use categories that permit densities higher than 1 du/5 acres. New development of a character similar to the established community will be permitted to infill in a

limited manner, but not be permitted to expand into areas designated with lower land use densities. Rural communities, such as Lutz, Keystone and Thonotosassa will specifically be addressed through community-based planning efforts. These communities, and others like them, have historically served as centers for community activities within the rural environment.

Objective 4: The Rural Area will provide areas for long term, agricultural uses and large lot, low density rural residential uses which can exist without the threat of urban or suburban encroachment, with the goal that no more than 20% of all population growth within the County will occur in the Rural Area.

Policy 4.1: Rural Area Densities Within rural areas, densities shown on the Future Land Use Map will be no higher than 1 du/5 ga unless located within an area identified with a higher density land use category on the Future Land Use Map as a suburban enclave, planned village, a Planned Development pursuant to the PEC ½ category, or rural community which will carry higher densities.

Relationship To Land Development Regulations

Objective 9: All existing and future land development regulations shall be made consistent with the Comprehensive Plan, and all development approvals shall be consistent with those development regulations as per the timeframe provided for within Chapter 163, Florida Statutes. Whenever feasible and consistent with Comprehensive Plan policies, land development regulations shall be designed to provide flexible, alternative solutions to problems.

Policy 9.1: Each land use plan category shall have a set of zoning districts that may be permitted within that land use plan category, and development shall not be approved for zoning that is inconsistent with the plan.

Policy 9.2: Developments must meet or exceed the requirements of all land development regulations as established and adopted by Hillsborough County, the state of Florida and the federal government unless such requirements have been previously waived by those governmental bodies.

Neighborhood/Community Development

Objective 16: Neighborhood Protection The neighborhood is a functional unit of community development. There is a need to protect existing neighborhoods and communities and those that will emerge in the future. To preserve, protect and enhance neighborhoods and communities, all new development must conform to the following policies.

Policy 16.1: Established and planned neighborhoods and communities shall be protected by restricting incompatible land uses through mechanisms such as: a) locational criteria for the placement of non-residential uses as identified in this Plan, b) limiting commercial development in residential land use categories to neighborhood scale; c) requiring buffer areas and screening devices between unlike land uses.

Policy 16.2: Gradual transitions of intensities between different land uses shall be provided for as new development is proposed and approved, through the use of professional site planning, buffering and screening techniques and control of specific land uses.

Policy 16.3: Development and redevelopment shall be integrated with the adjacent land uses through:

- a) the creation of like uses; or
- b) creation of complementary uses; or
- c) mitigation of adverse impacts; and
- d) transportation/pedestrian connections

Policy 16.5: Development of higher intensity non-residential land uses that are adjacent to established neighborhoods shall be restricted to collectors and arterials and to locations external to established and developing neighborhoods.

Neighborhood and Community Serving Uses

Objective 17: Certain non-residential land uses, including but not limited to residential support uses and public facilities, shall be allowed within residential neighborhoods to directly serve the population. These uses shall be located and designed in a manner to be compatible to the surrounding residential development pattern.

Commercial Locational Criteria

Objective 22: To avoid strip commercial development, locational criteria for neighborhood serving commercial uses shall be implemented to scale new commercial development consistent with the character of the areas and to the availability of public facilities and the market.

Policy 22.1: The locational criteria for neighborhood serving non-residential uses in specified land uses categories will:

- provide a means of ensuring appropriate neighborhood serving commercial development without requiring that all neighborhood commercial sites be designated on the Future Land Use Map;
- establish a maximum square footage for each proposed neighborhood serving commercial intersection node to ensure that the scale of neighborhood serving commercial development defined as convenience, neighborhood, and general types of commercial uses, is generally consistent with surrounding residential character; and
- establish maximum frontages for neighborhood serving commercial uses at intersections ensuring that adequate access exists or can be provided.

Policy 22.2: The maximum amount of neighborhood-serving commercial uses permitted in an area shall be consistent with the locational criteria outlined in the table and diagram below. The table identifies the intersection nodes that may be considered for non-residential uses. The locational criteria is based on the land use category of the property and the classification of the intersection of roadways as shown on the adopted Highway Cost Affordable Long Range Transportation Plan. The maximums stated in the table/diagram may not always be achieved, subject to FAR limitations and short-range roadway improvements as well as other factors such as land use compatibility and environmental features of the site. In the review of development applications consideration shall also be given to the present and short-range configuration of the roadways involved. The five-year transportation Capital Improvement Program, MPO Transportation Improvement Program or Long Range Transportation Needs Plan shall be used as a guide to phase the development to coincide with the ultimate roadway size as shown on the adopted Long Range Transportation Plan.

Policy 22.7: *Neighborhood commercial activities that serve the daily needs of residents in areas designated for residential development in the Future Land Use Element shall be considered provided that these activities are compatible with surrounding existing and planned residential development and are developed in accordance with applicable development regulations, including phasing to coincide with long range transportation improvements. The locational criteria outlined in Policy 22.2 are not the only factors to be considered for approval of a neighborhood commercial or office use in a proposed activity center. Considerations involving land use compatibility, adequacy and availability of public services, environmental impacts, adopted service levels of effected roadways and other policies of the Comprehensive Plan and zoning regulations would carry more weight than the locational criteria in the approval of the potential neighborhood commercial use in an activity center. The locational criteria would only designate locations that could be considered, and they in no way guarantee the approval of a particular neighborhood commercial or office use in a possible activity center.*

Policy 22.8: *The Board of County Commissioners may grant a waiver to the intersection criteria for the location of commercial uses outlined in Policy 22.2. The waiver would be based on the compatibility of the use with the surrounding area and would require a recommendation by the Planning Commission staff. Unique circumstances and specific findings should be identified by the staff or the Board of County Commissioners which would support granting a waiver to this section of the Plan. The Board of County Commissioners may reverse or affirm the Planning Commission staff's recommendation through their normal review of rezoning petitions. The waiver can only be related to the location of the neighborhood serving commercial or agriculturally oriented community serving commercial zoning or development. The square footage requirement of the plan cannot be waived.*

Agriculture-Retention

Objective 30: *Recognizing that the continued existence of agricultural activities is beneficial, the county will develop, in coordination with appropriate entities, economic incentives to encourage and expand agricultural activities.*

Policy 30.5: *Agriculture related commercial uses more intensive or heavy than neighborhood serving commercial, may be considered in the rural land use categories, provided it meets applicable policies of the comprehensive plan. These uses are not subject to the locational criteria for neighborhood serving commercial uses.*

4.1 RURAL RESIDENTIAL CHARACTER

Goal 7: *Preserve existing rural uses as viable residential alternatives to urban and suburban areas.*

Objective 7-1: *Support existing agricultural uses for their importance as a historical component of the community, their economic importance to the County and for the open space they provide.*

4.3 COMMERCIAL CHARACTER

Goal 9: *Evaluate the creation of commercial design standards in a scale and design that complements the character of the community.*

Community Design Component

5.0 NEIGHBORHOOD LEVEL DESIGN

5.1 COMPATIBILITY

GOAL 12: *Design neighborhoods which are related to the predominant character of the surroundings.*

OBJECTIVE 12-1: *New developments should recognize the existing community and be designed in a way that is compatible (as defined in FLUE policy 1.4) with the established character of the surrounding neighborhood.*

Staff Analysis of Goals, Objectives, and Policies:

The 5.45 ± acre subject property is located on the southeast corner of West State Road 60 and Rain Frog Lane. The site is located within the Rural Area and is not located within the limits of a Community Plan. The subject site's Future Land Use category on the Future Land Use Map (FLUM) is Residential-1 (RES-1). The applicant is requesting a rezoning from Agricultural Rural (AR) to Commercial intensive (CI) to allow for the sales, rental, and service of new or used farm, garden, and turf related equipment.

The Future Land Use Element permits new development within the Rural Area that is similar in character to the existing community. Objective 4 of the Future Land Use Element (FLUE) of the Comprehensive Plan notes that 20% of the growth in the region will occur within the Rural Service Area without the threat of urban or suburban encroachment. FLUE Policy 4.1 characterizes the Rural Area as low-density, large lot residential. The subject site is within the Rural Area and the proposed rezoning of the parcel from AR to CI is similar in character to the surrounding area as there is existing CI zoning to the east of the subject site.

The applicant is the owner of the adjacent property to the subject site, which is a John Deere dealership. The intention of the rezoning is to rezone the subject site for commercial uses that are similar to those already in use adjacent to the site. Objective 9 of the FLUE states that all existing and future land development regulations shall be made consistent with the Comprehensive Plan. Policies 9.1 and 9.2 allow for approving zoning that is consistent with the Comprehensive Plan and developments that meet the regulations established by Hillsborough County.

FLUE Objective 16 emphasizes the need for new developments to preserve, protect, and enhance existing neighborhoods and communities. Policy 16.1 restricts incompatible land uses through mechanisms such as locational criteria for non-residential uses and limiting development in residential land use categories to neighborhood scale. This Policy also requires buffer areas between unlike land uses. Policy 16.5 addresses the restriction of higher intensity non-residential land uses adjacent to established neighborhoods, to collectors and arterials, and to locations external to established and developing neighborhoods. The subject site is situated directly adjacent to single-family residential uses, and is located on West State Road 60, an arterial roadway. Objective 17 of the FLUE allows for certain non-residential land uses to be located and designed in a manner that is compatible to the surrounding residential development pattern. The proposed rezoning reflects a development pattern that is consistent with the surrounding area.

FLUE Objective 22 establishes Commercial Locational Criteria (CLC) for neighborhood serving commercial uses. Policy 22.1 states that non-residential uses provide a means to ensure appropriate neighborhood serving commercial development be consistent with the

surrounding residential character. It also emphasizes the need for a maximum square footage for each proposed neighborhood serving commercial intersection node to ensure that the scale of neighborhood serving commercial development, defined as convenience, neighborhood, and general types of commercial uses, is consistent with the surrounding residential uses. Policy 22.2 asserts that the maximum amount of neighborhood serving commercial uses permitted in an area shall be consistent with the locational criteria outlined in the table and diagram located in the FLUE. Policy 22.7 states that neighborhood commercial activities that serve the daily needs of residents in areas designated for residential development must be compatible with surrounding existing development. The proposed rezoning is consistent with this policy direction. The subject site is in the RES-1 FLU category and it does not meet locational criteria. It is located nearly 1900 feet from the nearest qualifying intersection node of West State Road 60 and Mud Lake Road and therefore does not meet Commercial Locational Criteria (CLC). Therefore, per FLUE Policy 22.8, the applicant is required to submit a waiver request.

The applicant submitted a waiver request into Optix on July 28, 2023. The applicant states that the proposed use is neighborhood-serving. FLUE Objective 30 states that the county will recognize the continued existence of agricultural activities as beneficial and will encourage and expand agricultural activities in coordination with appropriate entities. Policy 30.5 argues that agricultural related commercial activities uses may be more intensive than traditional neighborhood serving commercial uses. Thus, proposed uses may be considered in the rural area as long as they meet applicable policies of the comprehensive plan. Agricultural related commercial uses within the rural area are not subject to the locational criteria for neighborhood serving commercial uses. Therefore, a CLC waiver request was not needed. Planning Commission staff's main concern with the proposed rezoning was compatibility as it may be too intense to be adjacent to existing single-family residential uses. However, after various discussions with County staff, the applicant submitted a Conditions of Approval (COA) into Optix on September 1, 2023, in which the applicant agreed to limited hours of operation. The proposed site would be open Monday thru Friday from 8 am to 5 pm, and on Saturdays from 8 am to 12 pm. The business will be closed on Sundays. The applicant also agreed to restrict the proposed use to solely "sales, rental and service of new or used farm, garden and turf equipment". Planning Commission staff believes that the applicant has sufficiently addressed our concerns.

Overall, the proposed rezoning would allow for development that is consistent with the Goals, Objectives, and Policies of the Unincorporated Hillsborough County Comprehensive Plan.

Recommendation

Based upon the above considerations, the Planning Commission staff finds the proposed rezoning **CONSISTENT** with the *Unincorporated Hillsborough County Comprehensive Plan*.

AGENCY COMMENTS

< THIS PAGE WAS INTENTIONALLY LEFT BLANK >

< THIS PAGE WAS INTENTIONALLY LEFT BLANK >

AGENCY REVIEW COMMENT SHEET

TO: ZONING TECHNICIAN, Development Services Department

DATE: 9/07/2023

REVIEWER: Richard Perez, AICP

AGENCY/DEPT: Transportation

PLANNING AREA/SECTOR: EAST RURAL

PETITION NO: RZ 23-0552

- ☐ This agency has no comments.
- ☒ This agency has no objection.
- ☐ This agency objects for the reasons set forth below.

PROJECT SUMMARY AND ANALYSIS

The applicant is requesting to rezone the +/- 4.45-acre subject parcel from Agricultural Rural (AR) to Commercial Intensive (CI) with the use restricted to “sales, rental and service of new or used farm, garden and turf equipment”. The applicant is proposing additional restrictions on hours of operation and building placement. The future land use designation is Residential 1 (R-1).

Since the proposed applicant seeks a Euclidean zoning district, no transportation analysis is required to process this request per the development review procedures manual.

SITE ACCESS

Generally, for projects with a Euclidean zoning designation, a project’s potential transportation impacts, site access requirements, substandard road issues, site layout and design, other issues related to project access, and compliance with other applicable Hillsborough County Comprehensive Plan, Hillsborough County Land Development Code (LDC) and Hillsborough County Transportation Technical Manual (TTM) requirements are evaluated at the time of plat/site/construction plan review. Given the limited information available as is typical of all Euclidean zoned properties and/or non-regulatory nature of any conceptual plans provided, Transportation Review Section staff did review the proposed rezoning to determine (to the best of our ability) whether the zoning is generally consistent with applicable policies of the Hillsborough County Comprehensive Plan, LDC and TTM (e.g. to ensure that the proposed rezoning would not result in a violation of the requirement whereby access to commercial properties cannot be taken through residentially or agriculturally zoned properties), and/or whether, in staff’s opinion, some reasonable level of development under the proposed zoning designation could be supported based on current access management standards (e.g. to ensure that a project was not seeking an intensification of a parcel which cannot meet minimum access spacing requirements).

Transportation Section staff did not identify any concerns that would require a more detailed staff report be filed. Staff notes that, regardless of this review, the developer/property owner will be required to comply with all Comprehensive Plan, LDC, TTM and other applicable rules and regulations at the time of plat/site/construction plan review. As such, staff has no objection to this request.

Staff notes that any plans or graphics presented as a part of a Euclidean zoning case is non-binding and will have no regulatory value at the time of plat/site/construction plan review.

Vacant Commercial Development Pre App Meeting

2903 W SR 60, Plant City

SR 60

10 110 000

MP 17.504

Class 3 @ 60 MPH

Connection/signal spacing – 660'/2640'

Directional/full median opening spacing – 1320'/2640'

Folio # 093093-0352

RE: Pre-Application Meeting

THIS DOCUMENT IS NOT A PERMIT APPROVAL

THE COMMENTS AND FINDINGS FROM THIS PRE-APPLICATION MEETING MAY BE SUBJECT TO CHANGE AND
MAY NOT BE USED AS A BASIS OF APPROVAL AFTER 2/8/2024

Attendees:

Guests: Matt Morris, Linda Stewart

FDOT: Mecale' Roth, Allison Carroll, William Gregory, Nancy Porter, Genesis Zambrano, Leanna Schail, Caroline Cation-Smith, Lindsey Mineer, Antonius Lebrun, and Ahmad Chehab

Proposed Conditions:

The applicant proposes to use the vacant parcel to expand storage facilities for the adjoining agricultural equipment business, and proposes to utilize the same driveway to the facility.

The project also proposes to modify the existing median opening to **SR 60**, a **class 3** roadway with a posted speed limit of **60 MPH**. Florida Administrative Code, Rule Chapter 14-97, requires **660'** driveway spacing, **1320'** directional, **2640'** full median opening spacing, and **2640'** signal spacing requirements.

Florida Department of Transportation

RON DESANTIS
GOVERNOR

Tampa, FL 33612-6456

JARED W. PERDUE, P.E.
SECRETARY

FDOT Recommendations:

1. The proposed access connection to the state roadway does not meet spacing standards and would be considered non-conforming. Since the eastern adjacent property, under contiguous ownership, has access that can be used via internal connectivity, the proposed additional access to SR 60 will not be permitted.
2. As the proposed changes in land use constitute "Significant Change", the Department will require the provision of an access permit to document the changes to the vacant parcel.
3. Please provide pre and post site plans, existing and proposed trip generations, and narrative explaining the proposed scope of work.
4. Please clarify if the vacant parcel portion of the property will be fenced in the proposed conditions.
5. If the County was amenable, and proper upgrades were done, access could be taken via Rain Frog Lane.
6. Any proposed improvements to Rain Frog Lane will be required to be submitted to the Department for review.
 - a. Hillsborough County would need to apply for a permit for the upgraded changes to Rain Frog Lane where it connects to SR 60.
7. As the existing median openings do not meet the minimum spacing standards per Florida Administrative Code 14-97 the Department will not permit the full median opening to remain. Impacts to the existing full median will require the development to bring the median into compliance with current standards.
 - a. This would be done under a separate construction agreement permit.
8. The provision of pedestrian facilities will be required in the event the additional parcel is not fenced in.
9. Proposing to keep the existing drainage pattern that drains away from the state ROW,
 - a. This would be done under a drainage exemption.
10. Show drainage outfall on plans.
11. Provide existing and proposed drainage maps.
12. Please note there are existing FDOT Projects in design for this section of SR 60. Please reach out to the FDOT Project Manager directly to obtain the most recent information on these projects.
 - a. FPID 446051-1 Michael Ojo, Michael.Ojo@dot.state.fl.us, 813-975-6266
 - b. FPID 435750-2 Kevin Lee, Kevin.Lee@dot.state.fl.us, 813-975-6426
13. If a utility permit is needed, please refer to the Utility Accommodation Manual (UAM) or contact William Gregory at william.gregory@dot.state.fl.us or 813-612-3200.

SECRETARY

14. Contact Leanna Schail or Tammer Al-Turk for any traffic or access related questions at leanna.schail@dot.state.fl.us, tammer.alturk@dot.state.fl.us, or at 813-975-6000.
15. Contact Nancy Porter or Mecale' (makayla) Roth for permit, pre app, or general questions at nancy.porter@dot.state.fl.us, mecale.roth@dot.state.fl.us, or 813-612-3200.

Summary:

After reviewing and discussing the information presented in this meeting, the Department has determined we are

- ☒ in favor (considering the conditions stated above)
- ☐ not in favor
- ☐ willing to revisit a revised plan

The access, as proposed in this meeting, would be considered

- ☐ conforming
- ☐ non-conforming
- ☒ N/A (no access proposed)

in accordance with the rule chapters 1996/97 for connection spacing. The following state permits will need to be applied for by visiting our One Stop Permitting website (osp.fdot.gov):

- ☒ access-category A or B
- ☐ access-category C, D, E, or F
 - ☐ traffic study required
- ☐ access safety upgrade
- ☐ drainage
 - or
- ☒ drainage exception
- ☐ construction agreement
- ☐ utility
- ☐ general Use
- ☐ other _____

Thank you for allowing us the opportunity to review and discuss this project in advance. Please feel free to contact me with any questions. We look forward to working with you again.

Additional Comments/Standard Information:

(These comments may or may not apply to this project, they are standard comments)

1. Document titles need to reflect what the document is before it is uploaded into OSP, and please do not upload unnecessary documents.
2. Documents need to be signed and sealed or notarized.
3. Include these notes with the application submittal.
4. Permits that fall within the limit of a FDOT project must contact project manager, provide a work schedule, and coordinate construction activities prior to permit approval. Ask Mecale' for information if not provided in the notes.
5. Plans shall be per the current Standard Plans and FDM.
6. All the following project identification information must be on the Cover Sheet of the plans:
 - a. all associated FDOT permit #'s
 - b. state road # (& local road name) and road section ID #
 - c. mile post # and left (Lt) or right (Rt) side of the roadway (when facing north or east)
 - d. roadway classification # and posted speed limit (MPH)
7. All typical driveway details are to be placed properly:
 - a. 24" thermoplastic white stop bar equal to the lane width placed 4' behind crosswalk or a minimum of 25' in front of it
 - b. 36" stop sign mounted on a 3" round post, aligned with the stop bar
 - c. if applicable, a "right turn only" sign mounted below the stop sign (FTP-55R-06 or FTP-52-06)
 - d. double yellow 6" lane separation lines
 - e. 6' wide, high emphasis, ladder style crosswalk straddling the detectable warning mats
 - f. warning mats to be red in color unless specified otherwise
 - g. directional arrow(s) 25' behind the stop bar
 - h. all markings on concrete are to be high contrast with black border
 - i. all striping within and approaching FDOT ROW shall be thermoplastic
8. Maintain 20' x 20' pedestrian sight triangles and draw the triangles on the plans to show there are no obstructions taller than 24" within the triangles. Also, no parking spaces can be in these triangles Measure 20' up the sidewalk and 20' up the driveway from the point at which the sidewalk meets the driveway. Here is an example of what these triangles look like and how they are positioned.

9. Any relocation of utilities, utility poles, signs, or other agency owned objects must be coordinated with the Department and the **existing and proposed location** must be clearly labeled on the plans. Contact the Permits Department for more details and contact information.
10. Make note on plans that it is the responsibility of the contractor to not only restore the ROW, but they are also responsible for maintaining the ROW for the duration of the project.

Context Classification:

Here is the link to find information about context classification to see what class standards the proposed project needs to be built to. Below is the standard table for sidewalk width for each class:

<https://kai.maps.arcgis.com/apps/webappviewer/index.html?id=b5ecc163fe04491d4feb44194851ba93>

Topic #625-000-002
FDOT Design Manual

January 1, 2020

Table 222.1.1 Standard Sidewalk Widths

Context Classification	Sidewalk Width (feet)
C1 Natural	5
C2 Rural	5
C2T Rural Town	6
C3 Suburban	6
C4 Urban General	6
C5 Urban Center	10
C6 Urban Core	12
Notes: (1) For C2T, C3 and C4, sidewalk width may be increased up to 8 feet when the demand is demonstrated. (2) For C5 and C6, when standard sidewalk width cannot be attained, provide the greatest attainable width possible, but not less than 6 feet. (3) For RRR projects, unaltered sidewalk with width 4 feet or greater may be retained within any context classification. (4) See FDM 260.2.2 for sidewalk width requirements on bridges.	

Provide the following minimum unobstructed sidewalk width (excluding the width of the curb) when there is no practical alternative to placing a pole within the sidewalk:

- 36 inches for aboveground utilities. This 36 inch width may be reduced to 32 inches, not exceeding 24 inches in length, when there is no practical alternative available to avoid an obstruction.
- 48 inches for signal, light, sign poles

When used for plantings and street furniture, the area between the back of curb and the sidewalk should be 5 feet or greater in width. Consider providing treewells in areas where on-street parking is provided.

Lighting:

Lighting of sidewalks and/or shared paths must be to current standards (FDM section 231). Newly implemented FDOT Context classifications updated the required sidewalk widths (FDM section 222.2.1.1). Where sidewalk is being added and/or widened, the lighting will be analyzed to ensure sidewalks are properly lit per FDOT FDM standards. Reference the following link and table for details:

REZONING	
HEARING DATE: July 24, 2023	COMMENT DATE: July 5, 2023
PETITION NO.: 23-0552	PROPERTY ADDRESS: West State Road 60
EPC REVIEWER: Kelly M. Holland	FOLIO #: 0930930352
CONTACT INFORMATION: (813) 627-2600 X 1222	STR: 30-29S-22E
EMAIL: hollandk@epchc.org	
REQUESTED ZONING: Standard rezoning	
FINDINGS	
WETLANDS PRESENT	YES
SITE INSPECTION DATE	NA
WETLAND LINE VALIDITY	NA
WETLANDS VERIFICATION (AERIAL PHOTO, SOILS SURVEY, EPC FILES)	Small pond in the SE corner of the property
The EPC Wetlands Division has reviewed the proposed rezoning. In the site plan's current configuration, a resubmittal is not necessary. If the zoning proposal changes and/or the site plans are altered, EPC staff will need to review the zoning again. This project as submitted is conceptually justified to move forward through the zoning review process as long as the following conditions are included: • Approval of this zoning petition by Hillsborough County does not constitute a guarantee that the Environmental Protection Commission of Hillsborough County (EPC) approvals/ permits necessary for the development as proposed will be issued, does not itself serve to justify any impact to wetlands, and does not grant any implied or vested right to environmental approvals. • The construction and location of any proposed wetland impacts are not approved by this correspondence but shall be reviewed by EPC staff under separate application pursuant to the EPC Wetlands rule detailed in Chapter 1-11, Rules of the EPC, (Chapter 1-11) to determine whether such impacts are necessary to accomplish reasonable use of the subject property. • Prior to the issuance of any building or land alteration permits or other development, the approved wetland / other surface water (OSW) line must be incorporated into the site plan. The	

Environmental Excellence in a Changing World

Environmental Protection Commission - Roger P. Stewart Center
3629 Queen Palm Drive, Tampa, FL 33619 - (813) 627-2600 - www.epchc.org

wetland/ OSW line must appear on all site plans, labeled as "EPC Wetland Line", and the wetland must be labeled as "Wetland Conservation Area" pursuant to the Hillsborough County Land Development Code (LDC).

- Final design of buildings, stormwater retention areas, and ingress/egresses are subject to change pending formal agency jurisdictional determinations of wetland and other surface water boundaries and approval by the appropriate regulatory agencies.

INFORMATIONAL COMMENTS:

The following specific comments are made for informational purposes only and to provide guidance as to the EPC review process. However, future EPC staff review is not limited to the following, regardless of the obviousness of the concern as raised by the general site plan and EPC staff may identify other legitimate concerns at any time prior to final project approval.

- The subject property contains wetland/OSW areas, which have not been delineated. Knowledge of the actual extent of the wetland and OSW are necessary in order to verify the avoidance of wetland impacts pursuant to Chapter 1-11. Prior to the issuance of any building or land alteration permits or other development, the wetlands/OSWs must be field delineated in their entirety by EPC staff or Southwest Florida Water Management District staff (SWFWMD) and the wetland line surveyed. Once delineated, surveys must be submitted for review and formal approval by EPC staff.
- Chapter 1-11 prohibits wetland impacts unless they are necessary for reasonable use of the property. Staff of the EPC recommends that this requirement be taken into account during the earliest stages of site design so that wetland impacts are avoided or minimized to the greatest extent possible. The size, location, and configuration of the wetlands may result in requirements to reduce or reconfigure the improvements depicted on the plan. If you choose to proceed with the wetland impacts depicted on the plan, a separate wetland impact/mitigation proposal and appropriate fees must be submitted to this agency for review.
- The Hillsborough County Land Development Code (LDC) defines wetlands and other surface waters as Environmentally Sensitive Areas. Pursuant to the LDC, wetlands and other surface waters are further defined as Conservation Areas or Preservation Areas and these areas must be designated as such on all development plans and plats. A minimum setback must be maintained around the Conservation/Preservation Area and the setback line must also be shown on all future plan submittals.
- Any activity interfering with the integrity of wetland(s) or other surface water(s), such as clearing, excavating, draining or filling, without written authorization from the Executive Director of the EPC or authorized agent, pursuant to Section 1-11.07, would be a violation of Section 17 of the Environmental Protection Act of Hillsborough County, Chapter 84-446, and of Chapter 1-11.

Subject: FW: Preliminary Comments for RZ 23-0552
Date: Friday, June 30, 2023 2:40:00 PM
Attachments: [image001.png](#)

Hello Teresa,

Below you will find Planning Commission (PC) staff's preliminary comments. Please be advised that the PC staff has expressed some compatibility concerns at this time. The review of the application is continuing, and other issues may arise that were not provided within this email. Any additional issues identified will be provided to you as soon as possible.

Please feel free to contact us if you have any follow-up questions.

Best,

Carolanne Peddle

Subject: Preliminary Comments for RZ 23-0552

External email: Use caution when clicking on links, opening attachments or replying to this email.

Good afternoon Carolanne,

Please forward Planning Commission staff's comments to the applicant for RZ 23-0552

- The 5.45 acre (237, 402 sq. ft.) subject site is located on 2903 W 60 Highway.
- The applicant is requesting a rezoning from Agricultural Rural (AR) to Commercial Intensive (CI)
- The subject site is located within the Residential-1 (RES-1) Future Land Use Category, which has a maximum of 1 dwelling units per gross acre. Rural scale neighborhood commercial, office multi-purpose projects limited to 30,000 sq. ft. or 0.25 FAR,

whichever is less intensive.

- The site is located in the Rural Area and is not within a community plan.
- Non-residential uses shall meet locational criteria for specific land use.
- Please note that the site does not meet Commercial Locational Criteria (CLC) per Future Land Use Objective 22, and per Policy 22.8 the applicant must submit a CLC waiver request.
- From a preliminary perspective, Planning Commission staff does have compatibility. The proposed change may be too intense as it abuts single-family residential uses nearby.
- Planning Commission staff believes that the proposed standard rezoning would be more appropriate as a Plan Development. This will allow for Planning Commission staff to ensure that the applicant is taking appropriate measures to address and mitigate compatibility concerns.
- Please be advised that since the application has been continued for the August cycle that any additional information and revisions should be submitted by the revised plan deadline (August 1st, 2023) in order for Planning Commission staff to have adequate time for review. Items submitted after this date may not be reviewed and may result in a finding of **Inconsistent** with the Comprehensive Plan

Thanks,

Wally Gallart

< THIS PAGE WAS INTENTIONALLY LEFT BLANK >

1 Zoning Hearing Master hearing.

2 Major Mod application 23-0518, this application is out
3 of order to be heard and is being continued to the October 16th,
4 2023, Zoning Hearing Master hearing.

5 Item A.10, PD Rezoning 23-0519, this application is
6 out of order to be heard and is being continued to the October
7 16th, 2023, Zoning Hearing Master hearing.

8 Item A.11, Major Mod application 23-0520, this
9 application is being continued by staff to the October 16th,
10 2023, Zoning Hearing Master hearing.

11 Item A.12, PD 23-0522, this application is being
12 continued by staff to the October 16th, 2023, Zoning Hearing
13 Master hearing.

14 Item A.13, PD application 23-0540, this application is
15 out of order to be heard and is being continued to the October
16 16th, 2023, Zoning Hearing Master hearing.

17 Item A.14, PD 23-0583, this application is out of
18 order to be heard and is being continued to the October 16th,
19 2023, Zoning Hearing Master hearing.

20 Item A.15, PD application 23-0584, this application is
21 being continued by the applicant to the October 16th, 2023,
22 Zoning Hearing Master hearing.

23 Item A.16, Standard Rezoning 23-0588, this application
24 is being continued by staff to the October 16th, 2023, Zoning
25 Hearing Master hearing.

1 rear, with a strong commercial use along 41, six-lane highway?

2 That's why we came forward with CG because we do
3 believe if you take all those elements into account, this is the
4 best use for the property. So we would ask you to consider your
5 analysis, your determination, your narrative on compatibility
6 issues, on the site being supportable by CG. We think those are
7 important comments for the Board of County Commissioners to see,
8 and we appreciate the consideration and the staff. Thank you.

9 HEARING MASTER: Thank you for that. I appreciate it.

10 And we'll close rezoning 23-0082 and go to the next
11 case.

12 MS. HEINRICH: Our next item is Item C.2, Standard
13 Rezoning 23-0552. The applicant is requesting a rezoning from
14 A-R to CI-R. Carolanne Peddle with Development Services will
15 provide staff findings after the applicant's presentation.

16 HEARING MASTER: All right. And I believe the
17 applicant is virtual; is that correct?

18 MS. STEWART: Yes, I am.

19 HEARING MASTER: All right. Good evening. If you
20 could start by giving us your name and address. And I don't
21 quite see you yet.

22 MS. STEWART: I'm up here in the --

23 HEARING MASTER: There you are. Go ahead. Thank you.

24 MS. STEWART: Hi. Sure. Good evening, Madam Hearing
25 Officer. My name is Linda Stewart. I'm a planner with Morris

1 Engineering representing the applicant and Everglades Farm
2 Equipment. My office address is 6997 Professional Parkway in
3 Sarasota, Florida. And I have been sworn.

4 We are -- I have a PowerPoint that I will share with
5 you. Can you see that okay?

6 HEARING MASTER: I can.

7 MS. STEWART: Okay. Case number RZ-STD 23-0552 is for
8 the property that's located adjacent to 2903 West 60 Highway
9 with the Folio number noted and the PIN number as well. The
10 size of the property is 5.4 acres. It's currently zoned
11 agricultural rural and a Future Land Use of R-1, residential
12 one. It is in the rural service area in the East Rural
13 Community Plan area. There are no overlays associated with this
14 parcel.

15 The zoning of the parcel, as I noted, is currently
16 agricultural, and the request is to commercial intensive. The
17 Future Land Use is R-1, which is compatible with the adjacent
18 properties to the west and the north. To the east is OC-20,
19 which is parcels already owned by the Everglades Farm Equipment.
20 And farther to the west as well as to the south is public lands
21 that are owned by Southwest Florida Water Management District.
22 And to -- also to the east is a Future Land Use of A-R.

23 The request from rezoning to C-I. It's located in the
24 East Rural Community Plan area. It's located in the rural
25 service area with no overlays, and we have no specific approval

1 requests for rezoning. We have discussed with planning staff as
2 well as the Planning Commission, and we agree to some use
3 restrictions on the property for compatibility. The use
4 restriction will be for sales, rental, and service of new or
5 used farm, garden, and turf equipment only. The hours of
6 operation will be limited Monday through Friday from 8:00 to
7 5:00, Saturday from 8:00 to noon, and closed on Sunday.

8 And any proposed buildings that are to be placed on
9 the property will be along the eastern property line with a
10 minimum of 140 feet from the existing residential properties to
11 the west of Rain Frog Lane. The property is going to have
12 access through the existing Everglades Farm Equipment property.
13 We did meet with FDOT and had discussions with them for access
14 out onto State Road 60, and we agreed that the access would be
15 utilized from the existing access to the property to the east.
16 State Road 60 is currently in design to be widened from
17 four-lane to six-lane.

18 The previous use of the property was for neighborhood
19 commercial use. It was for a berry farms and nursery. This use
20 will be an expansion of the existing adjacent Everglades Farm
21 Equipment property located at 2805 West 60 Highway in Plant
22 City. We believe that this is compatible with the land use and
23 the land development code, and staff has found this compatible
24 as well as Planning Commission. And we request your approval of
25 this application and are available for any questions that you

1 may have.

2 HEARING MASTER: Yes. Just to confirm for my
3 understanding, so as I read the backup for this, this is a --
4 next door is an existing John Deere dealership; is that correct?

5 MS. STEWART: Yes, it is.

6 HEARING MASTER: And this property was -- is being
7 used for the storage of equipment, and that's what necessitates
8 the rezoning to make that a permitted use on this property; is
9 that right?

10 MS. STEWART: Yes, absolutely.

11 HEARING MASTER: Okay. So was that just a -- are you
12 under code enforcement violation? How did this come to your
13 attention?

14 MS. STEWART: No, it is not my understanding that they
15 are under a code enforcement violation.

16 MS. PEDDLE: They area.

17 HEARING MASTER: All right. We'll get to you. Just a
18 second.

19 All right. Okay. That was my only question. Thank
20 you for that. I appreciate it.

21 We'll go to Development Services.

22 MS. STEWART: Thank you.

23 HEARING MASTER: Good evening.

24 MS. PEDDLE: Good evening. Carolanne Peddle,
25 Development Services. This is Standard Rezoning 23-0552. The

1 applicant requests to rezone the property from AR to CI with
2 restrictions. The property has a Future Land Use designation of
3 R-1, which permits residential densities up to one dwelling unit
4 per acre and nonresidential intensities up to a maximum FAR of
5 0.25.

6 The surrounding subject parcels -- or, excuse me.
7 Surrounding the subject parcels, the Future Land Use categories
8 are R-1, QP, OC-20, and AR. The properties in the immediate
9 vicinity are developed for residential and auto sales. The
10 adjacent parcel to the west abutting State Road 60 is owned by
11 the applicant in zone CI with the use of auto sales. Based on
12 the considerations and proposed restrictions regarding hours of
13 operation, setbacks, and uses, staff finds the proposed rezoning
14 district to CI with restrictions approvable.

15 HEARING MASTER: Thank you so much. I appreciate it.
16 Planning Commission.

17 MS. MASSEY: Jillian Massey, Planning Commission
18 staff. The subject property is in the residential one Future
19 Land Use category. It's in the rural area, and it is not
20 located within the limits of a community plan. Policy 4.1
21 characterizes the rural area as low density, large lot
22 residential. The subject site is in the rural area, and the
23 proposed rezoning of the parcel from AR to CIR is similar in
24 character to the surrounding area as there is an existing CI
25 zoning to the east of the subject site. The intention of the

1 rezoning is to rezone the subject site for commercial uses that
2 are similar to those that are already in use adjacent to the
3 site.

4 Future Land Use element Objective 16 emphasizes the
5 need for new developments to preserve, protect, and enhance
6 existing neighborhoods and communities. Objective 17 of the
7 Future Land Use element allows for certain nonresidential uses
8 to be located and designed in a manner that is compatible to the
9 surrounding residential development pattern. The proposed
10 rezoning reflects a development pattern that is consistent with
11 the surrounding area. Although the subject site does not meet
12 commercial-locational criteria, Policy 22.7 states that
13 neighborhood commercial activities that serve the daily needs of
14 residents in areas designated for residential development must
15 be compatible with the surrounding existing development. The
16 proposed rezoning is consistent with this policy direction.

17 Agricultural related commercial uses within the rural
18 area are not subject to locational criteria for neighborhoods
19 serving commercial uses; therefore, a waiver request is not
20 required.

21 Planning Commission staff's main concern with the
22 proposed rezoning was compatibility as it may be too intense to
23 be adjacent to existing single-family residential uses. The
24 sales, rental, and service of new or used farm, garden, and turf
25 equipment was added as a condition of approval, and Planning

1 Commission staff believes that the -- or, rather, it was added
2 as a restriction. My apologies. And the Planning Commission
3 staff believes that the applicant has sufficiently addressed the
4 compatibility concerns. And, based on these considerations,
5 Planning Commission staff finds that the proposed rezoning is
6 consistent with the Unincorporated Hillsborough County
7 Comprehensive Plan.

8 HEARING MASTER: Thank you so much. I appreciate it.

9 Is there anyone that would like to speak in support?
10 Anyone in favor? Anyone in support, either in the room or
11 online? All right. Seeing no one.

12 Now, anyone who would like to speak in opposition,
13 raise your hand. Let me get a count. So I have two in the
14 room. Is there anyone online that would like to --

15 THE CLERK: We have four people online.

16 HEARING MASTER: Four people online, so six. We'll
17 do -- we'll do three minutes apiece, Michael. Let's start with
18 the people in the room, unless you had an order in which you
19 wanted to give presentations.

20 THE CLERK: Can we do the young lady online because
21 she has a class to get to?

22 HEARING MASTER: Yes, absolutely.

23 THE CLERK: Mollie Usher.

24 HEARING MASTER: All right. Mollie Usher, it's your
25 turn. Good evening.

1 MS. USHER: Good evening. My name is Mollie Usher,
2 and my permanent residence is 5513 Rain Frog Lane, Plant City,
3 Florida, which is adjacent to the property this meeting is
4 about. I am currently a first-year student at the University Of
5 Florida studying microbiology and cell science on the premedical
6 track. Just recently I conducted a intrinsic sampling research
7 study on gopher tortoise population densities in central
8 Florida, which gained recognition by the Florida State Science
9 and Engineering Fair and provided me with a college and
10 major-specific full ride scholarship as well as recognition by
11 many researchers and environmentalists at the University of
12 Florida that are interested in further investigation. One of
13 the locations I analyzed was Medard Park, which is connected to
14 the parcel in question.

15 Upon completion of my research, it is evident that the
16 population of these native keystone species is abundant in
17 comparison to other central Florida parks and locations.
18 Through subjecting my results to both a T test and confidence
19 interval, it was identified the difference in the population is
20 statistically significant. With this being said, keystone
21 species are like the foundation to a house. Without them, our
22 ecosystems would crumble. The gopher tortoise shares it burrows
23 with over 350 other species, and, without them, there would be a
24 trophic cascade that would not only affect our native ecosystems
25 but the current state of our economy as well.

1 Now, this applies simply because this land is
2 currently zoned for agricultural use, however, the property
3 began to be used as commercial use. And I want to make it
4 clear, it was mainly used as commercial property while the
5 owners were aware it is zoned agricultural. There has been
6 documented proof of tractors and numerous other equipment being
7 parked on top of these gopher tortoise burrows. Now, these are
8 federally protected species in which it is illegal to touch a
9 gopher tortoise without a permit. Now, think about the fact
10 these tractors are being parked on their burrows.

11 Lastly, I would like to add there has already been a
12 previous hearing about the rezoning of this property, and I
13 believe it is disrespectful and a total waste of time and
14 resources to reopen an already recently addressed case. As a
15 young person in this community trying to make the world better,
16 I would hope you would do the same. Thank you very much for
17 your time, and I hope you have a blessed rest of your day.

18 HEARING MASTER: Thank you very much for your
19 testimony. I appreciate it.

20 All right. If you want to come forward.

21 Was that the only person that you wanted to go?

22 THE CLERK: Yes. She has to get to class.

23 HEARING MASTER: No problem.

24 Give us your name and address, please.

25 MR. HOKE: Hi. My name is Jonathan Hoke. I live at

1 5513 Rain Frog Lane. I'm the CEO of Fixer Upper LLC and Vice
2 President of Rain Frog Ranch. I stand before you here today as
3 a homeowner in the community that is adjacent to the property in
4 question. I am here in awe that three years to the day, I am
5 here again. Last time I was here to voice my strong opposition,
6 all agencies also opposed. And, if you want, you can see the
7 report.

8 HEARING MASTER: You can submit whatever documents you
9 like into the record when you're finished.

10 MR. HOKE: All right. So basically that report says
11 all agencies, three years ago when we did this with another
12 applicant, opposed this. So what has changed, you ask. Our
13 landscape has changed. Our peace of mind has changed.
14 Everglades Equipment bought the property just after the prior
15 owner failed at getting the zoning changed. However, this time,
16 the new owner, Everglades Equipment, just decided to operate
17 without proper zoning and illegally expanded, which has
18 encroached upon our land, decreased our peace, brought forth a
19 range of disturbances, and has the potential to cause
20 long-lasting harm to our community.

21 Everglades Equipment, with its existing property, was
22 grandfathered in to our community, and we respected their
23 presence as a responsible neighbor for many years. However,
24 their recent acquisition of adjacent agricultural and rural
25 lands and subsequent expansion has raised significant concerns.

1 The most concerning fact to me is that Everglades Equipment's
2 utter and blatant disdain of the laws that this community relies
3 on to ensure the safety and peace of mind of generations to
4 come.

5 Immediately after purchasing the parcel in question,
6 it was business as usual for John Deere. They moved their
7 12-foot, 7000 volt fence to the edge of the new property, graded
8 it, and started running a commercially intensive business on AR
9 zoned land. Environmental impact, abiding by the law, asking
10 the neighbors how they felt about it, nothing.

11 What's most troubling for me is the precedent this
12 sets. Our community has always valued responsible development
13 and adherence to zoning regulations. Everglades Equipment's
14 illegal expansion calls into question the commitments we have
15 made for our land use to preserve our community. One of the
16 most pressing issues we face is the construction of a towering
17 fence with 7000 volts of electricity running top to bottom,
18 further than I can reach. I have a 4-year-old daughter that can
19 actually reach 26 inches from the fence. Okay?

20 This fencing not only mars the natural beauty of our
21 community but it also possesses a significant safety risk. We
22 find it unacceptable having such an unsightly structure so close
23 to our homes and properties. Moreover, the noise generated by
24 Everglades Equipment's expanded operations is now uncomfortably
25 close. Constant beeping burglar alarms going off all weekend

1 and ground rumbling deliveries, not to mention the eyesore of
2 old machinery and tires. And I have pictures of all this.

3 What was once a peaceful and tranquil neighborhood in
4 which we watched deer grow up on this parcel has now been
5 disrupted by a constant rumble and commotion infringing upon our
6 peace and quiet and impacting our wellbeing.

7 Another serious concern is the safety of our roads due
8 to Everglades Equipment's activities. Deliveries often
9 haphazardly parked on the side of State Road 60 create dangerous
10 traffic situations for our community. I've had to fix the
11 mailboxes twice this year already. Employees drive the wrong
12 way on 60 to use the --

13 HEARING MASTER: If you could just wrap it up.

14 MR. HOKE: Okay. It is clear that Everglades
15 Equipment's expansion has crossed the line between responsible
16 growth and aggressive encroachment on our community's character
17 and safety. I respectfully request that you take action to
18 mitigate these issues and ensure Everglades Equipment complies
19 with our current zoning regulations and protect our community
20 from further encroachment. Our homes, our safety, and our
21 quality of life depend on it. Your decision and the precedent
22 set by this Board and you will have a long-lasting impact on our
23 community for generations. Thank you.

24 HEARING MASTER: Thank you for your testimony. If you
25 could please sign in. And when you do, you can submit your

1 written statements and photographs into the record.

2 Next, please. Good evening.

3 MS. G. Genrich: Hello. My name is Gretchen Genrich
4 Hoke. I reside at 5513 Rain Frog Lane. Ladies and gentlemen, I
5 am the founder of Rain Frog Ranch, a 501(c)(3) nonprofit for
6 equine therapy and a certified wildlife habitat. I stand before
7 you today because of a complaint that I made, not because of a
8 rezoning request filed by Everglades Equipment Group. I am here
9 to discuss a crucial issue that affects not only our beautiful
10 state of Florida but also the future of our environmental
11 wellbeing and a remarkable, but critically endangered species,
12 the Florida panther.

13 Okay. So my family has lived here for over five
14 decades, and I have personally seen the panther on the land in
15 question. And to see what has been allowed to the sensitive
16 agricultural land that surrounds this conservation area is
17 wrong. Ladies and gentlemen, we are under attack. I'm telling
18 you. Now, Everglades Equipment Group, a company that bought
19 agricultural land and operated it as a commercial property on
20 its accord after Hillsborough County had previously agreed it
21 should remain agricultural land has significant consequences, as
22 it disrupts the delicate balance of the ecosystem affecting the
23 surrounding plants and animals.

24 We must protect the sensitive ecosystems which are
25 crucial to the survival of our diverse wildlife. As you should

1 know, agricultural land does play a crucial role in preserving
2 our environment. It provides habitat for wildlife, including
3 the Florida panther. And recent studies conducted by the
4 University of Central Florida have confirmed the -- the presence
5 of the Florida panthers in this vicinity of Medard Park, to
6 which the parcel in question is adjacent, and the stormwater
7 runoff from this parcel flows directly into the conservation
8 area. These findings underscore the critical importance of
9 preserving this land for the continued survival of this
10 critically endangered species and many others.

11 In conclusion, I urge you all to support policies and
12 initiatives that prioritize the preservation of Plant City's
13 base agricultural heartland and the protection of our critically
14 endangered Florida panther. Hold Everglades Equipment for
15 accountable for their disrespect and bullying behavior. Let us
16 be stewards of our land, ensuring a bright and sustainable
17 future for our beloved city and its remarkable wildlife.

18 Thank you for your attention, and let us stand
19 together to safeguard Plant City's agricultural legacy, the
20 future of the Florida panther, and our precious state of
21 Florida.

22 HEARING MASTER: Thank you for coming down. Please
23 sign in.

24 All right. So we have three citizens left online to
25 testify. I don't know if anyone had a preference to go first.

1 I have Mollie Genrich, Charles Genrich, and Margaret Thompson, I
2 believe.

3 MS M. GENRICH: I can go now.

4 HEARING MASTER: All right. Give us your name and
5 address, please. Thank you.

6 MS. M. GENRICH: My name is Mollie Genrich. I live at
7 5521 Rain Frog Lane. I come before you as a native resident who
8 has proudly called this area home for over five decades. I'm
9 here to express my heartfelt opposition to the proposed rezoning
10 of our cherished agricultural land.

11 I don't understand this because, almost three years
12 ago to the day, we're attending a land use hearing that denied
13 the request to rezone to CG; yet, Everglades Equipment decided
14 to go ahead. In that time -- in the time that they have
15 acquired this land, our landscape, peace, and tranquility have
16 diminished. For generations, our community has thrived on the
17 rural character and natural beauty that define this area. We
18 have taken pride in our open spaces, our agricultural heritage,
19 and the tranquility that surrounds us.

20 This land, where we have put down roots and built our
21 lives, is more than just a piece of real estate. It is our
22 connection to our past, our present, and our future. My
23 opposition to this resulting is not based on fear of change but
24 on the genuine concern for the wellbeing of our community and
25 preservation of what makes it special. Here are some compelling

1 reasons why I think it is imperative that we deny this rezoning
2 proposal and restore this precious land from its current state
3 as a new and used car and tractor lot.

4 Preservation of rural character: Our community's
5 rural character is a source of pride for all of us. Rezoning
6 for intensive commercial use has dramatically altered the
7 landscape and destroyed the very essence of what makes our area
8 unique. There's noise and light pollution. The tranquillity we
9 have enjoyed for decades has been disrupted by noise and light
10 pollution, adversely affecting our quality of life.

11 Property values: For all of us, our homes are not
12 just places to live but also investments for our future. A
13 rezoning of this nature will have a negative impact on property
14 values, affecting our financial wellbeing.

15 Transparency and community input: The way this has
16 been done is not fair or transparent, and the voices of our
17 community members have not been heard or respected.

18 In conclusion, I implore you esteemed members of the
19 Planning Board to consider the profound and lasting impact this
20 rezoning decision has -- has on our community. I urge you to
21 take into account the concerns of those who have dedicated their
22 lives to this area and to work with us to find a more balanced
23 and sustainable approach that preserves our agricultural
24 heritage, our environment, and the quality of life we hold dear.
25 Thank you.

1 HEARING MASTER: Thank you for your testimony.

2 Next, please. Either Mr. Genrich or Ms. Thompson.

3 Ms. Thompson, are you available?

4 THE CLERK: Ms. Thompson, can you hear us? You are
5 muted.

6 MS. THOMPSON: Sorry about that. I thought Mr.
7 Genrich was gonna go.

8 Good evening. My name is Margaret Thompson. I'm at
9 5507 Rain Frog Lane. My husband and I have lived here for 24
10 years raising our family, and we moved here because we love the
11 country. We oppose the rezoning of the Everglades property
12 because, well, we don't like how this affects the environment,
13 the habitat. We don't like the bright lights, the late-night
14 deliveries. These huge trucks and machinery, they -- they
15 rattle our windows. Alarms go off at all hours.

16 And that 7000 volt fence you've already heard about,
17 there's only six inches between that hot electric -- those hot
18 electric wires in the fence. And we actually have five
19 grandchildren ranging in ages of two to ten years of age. I
20 suppose if one of them wandered down the road and put their
21 little hands through the fence, it would be irreversible
22 consequences.

23 So if you grant this rezoning, you're saying to anyone
24 that anyone could just buy property to expand their business,
25 whether it encroaches on protective land meant for the panther

1 or for the tortoise, various wildlife, agricultural use, and
2 ignore the laws. I don't know; just because they have a lot of
3 money and they can get away with it. In other words, the laws
4 are for thee and not for me. Or perhaps they weighed and
5 measured the law and decided it was better to ask forgiveness
6 rather than permission.

7 We're pro business, small business, entrepreneurism,
8 but this once former small business has become a leviathan. Did
9 you know that Everglades boasts a whopping 18 locations on their
10 website? They have governmental contracts with Hillsborough
11 County Sheriff's Association, the state of Florida, and
12 Sourcewell. Is this considered a possible conflict of interest?
13 Cui bono.

14 I honestly don't understand why we're doing this
15 today, because, as you're already heard, we've already gone
16 through this process. We have laws on the books that forbid
17 this. Not one person or agency considered the zoning change
18 advantageous to our community three years ago; yet, this goes
19 above and beyond the previous -- what the previous owner wanted.
20 Cui bono.

21 It's a classic case of David versus Goliath. And
22 who's -- who's considered here, beforehand, the impact on our
23 environment, neighbors, rule of law? No one. They just did it.
24 So this is forced upon us again. It's a slap in the face three
25 years to the day.

1 HEARING MASTER: Ma'am, if you could wrap it up.
2 That's past your time. If you could just wrap up.

3 MS. THOMPSON: Oh, sorry.

4 HEARING MASTER: That's okay.

5 MS. THOMPSON: Well, the growth and expansion of the
6 Everglades corporation by way of rezoning after the fact should
7 never be at the expense of the peace and happiness of the
8 environment, the habitat, or neighbor. Thank you very much.

9 HEARING MASTER: Thank you for your testimony. I
10 appreciate it.

11 All right. Last person is Mr. Genrich.

12 MR. GENRICH: Can you hear me?

13 HEARING MASTER: I can.

14 MR. GENRICH: Oh, good.

15 Good evening, everyone. I think you've heard
16 everything that I was gonna talk about. I do know that
17 Everglades Equipment moved onto agricultural designated
18 property.

19 THE CLERK: Sir, can you identify yourself for the
20 record and state your address?

21 MR. GENRICH: Oh. I can do that. My name is Charles
22 Genrich, 5521 Rain Frog Lane, Plant City, Florida. And I'm
23 trying to look into this thing, but it's just not doing right
24 for me.

25 But everything everyone else has said, I just don't

1 understand how Everglades could move into agricultural
2 designated land, but I know how they did it. They did it
3 illegally with no concern for our neighborhood. The property
4 they went to -- is wanting to change is currently AR. And,
5 according to Hillsborough County's table of land uses for zoning
6 districts, they are -- storage of equipment is prohibited.

7 So, yeah, we -- we have been putting up with the
8 noise, the -- the lights, the alarms, the delivery trucks, the
9 congestion at the end of our road, and all of that. I just
10 think this property is AR, it should remain AR, and should be
11 used in accordance with AR. And that's it.

12 HEARING MASTER: Thank you, sir. I appreciate your
13 testimony.

14 All right. That closes opposition portion of the
15 hearing. We'll go back to Development Services.

16 Ms. Heinrich, any comments?

17 MS. HEINRICH: The only thing I would add for you to
18 take into consideration, I looked and there was a previous
19 rezoning for this property. It was under 20-0868, and it was
20 withdrawn by the applicant.

21 HEARING MASTER: And that was for CG?

22 MS. HEINRICH: Correct.

23 HEARING MASTER: Yeah.

24 MS. HEINRICH: With no restrictions.

25 HEARING MASTER: All right. So it never went to the

1 Board; they withdrew it?

2 MS. HEINRICH: It did not.

3 HEARING MASTER: I see. Okay. Thank you.

4 And I forgot to ask Ms. Peddle while she was
5 testifying. There was a revised staff report for this case, and
6 if you could just point me to the revisions.

7 MS. HEINRICH: For this revised staff report, I
8 believe the community plan area was corrected to NA. It is not
9 in a community plan area.

10 HEARING MASTER: I see. Okay.

11 MS. HEINRICH: I think that's it.

12 MS. PEDDLE: That's it.

13 HEARING MASTER: All right. Thank you so much.

14 MS. HEINRICH: Yeah, Carolanne is saying yes.

15 HEARING MASTER: Okay. All right. Thank you very
16 much. All right. Perfect. Thank you very much.

17 All right. We'll go back to the applicant, who has
18 five minutes for rebuttal.

19 Ms. Stewart.

20 MS. STEWART: Yes. Again, this -- this is Linda
21 Stewart, for the record. We have not had a protected species
22 survey done on the property. That is normally done during the
23 development permitting time. And when a protected species
24 survey is completed, it will indicate whether or not there are
25 any turtles -- gopher tortoises on the property or if any

1 panthers happen to come across, if it's a known panther habitat
2 pathway. If there are any protected species, that would be
3 taken care of through the Florida Fish and Wildlife Commission
4 with appropriate permits that would be obtained at the time.

5 This property was a previous farm and nursery. It was
6 Berry Blue Farm [sic] that was located on the property. This
7 hasn't always been a vacant piece of property. The County has
8 asked for a 20-foot wide Type B buffer to be placed along Rain
9 Frog Lane, and that is located within the staff report. And the
10 applicant has no objection to this buffer being placed along
11 Rain Frog Lane.

12 Retention areas are part of the development process,
13 and they will be engineering and designing a retention area for
14 all onsite stormwater retention. They're required to maintain
15 and construct this, and they have to contain the first 20
16 percent of runoff on the site before anything is allowed to be
17 discharged. And that is permitted through the Southwest Florida
18 Water Management District, and that will be also taken care of
19 during design. Permitting, review, and engineering plans, and
20 calculations will be submitted to the County for review.

21 I understand that there are some concerns, and I will
22 speak with the applicant about deliveries and alarms. I am not
23 aware of any of these issues. I have not had any correspondence
24 from anybody prior to this hearing. And, with that, I hope I
25 have answered all of your questions.

1 Oh, and we were not -- one last thing. We were not
2 the previous applicant that came in -- that withdrawn. As you
3 stated, they were not asking for any restrictions. We have
4 restricted ourselves to one specific use. We've limited the
5 hours of operation, and we've limited any buildings to be
6 constructed to be, at a minimum, 140 feet from Rain Frog Lane.
7 And with that, thank you.

8 HEARING MASTER: All right. Thank you for that
9 clarification. I appreciate it.

10 With that, we'll close rezoning 23-0552 and go to the
11 next case.

12 MS. HEINRICH: Our next application is Agenda Item
13 C.3, Standard Rezoning 23-0571. This is a request to rezone
14 from BPO and RSC-6 to RSC-9. Isis Brown will present staff
15 findings after the applicant's presentation. And you should
16 have a revised staff report which corrected the community plan
17 area and also reference to an access condition, a restriction.

18 HEARING MASTER: Thank you for that. I appreciate it.

19 All right. Is the applicant here? Good evening.

20 MS. LONDONO: Good evening. Ruth Londono, 1502 West
21 Busch Boulevard, Tampa, Florida 33612. Okay. Let me -- okay.
22 The property -- we are rezoning today two properties. One is
23 that on the southeast corner of North Himes Avenue and River
24 Cove Drive. One of the properties is already zoned BPO, and the
25 second property is zoned RSC-6. We are requesting to rezone

TRANSCRIPT OF TESTIMONY AND PROCEEDINGS

Land Use Hearing Master

2023

Concluding at 9:30 p.m.

Samantha Kozlowski, Digital Reporter

1 is being continued by the applicant to the September 18, 2023
2 ZHM hearing.

3 Item A.19, Standard Rezoning 23-0552. This
4 application is out of order to be heard and is being continued
5 to the August 21, 2023 ZHM hearing.

6 Item A.20, Standard Rezoning 23-0571. This
7 application is being continued by the applicant to the
8 September 18, 2023 ZHM hearing.

9 Item A.21, Standard Rezoning 23-0573. This
10 application is out of order to be heard and is being continued
11 to the August 21, 2023 ZHM hearing.

12 And that concludes the continues.

13 HEARING MASTER: All right. Thank you very much.

14 All right. So the meeting procedures tonight, first
15 of all -- again, if you have any items that our noisemakers,
16 please turn those off or silence those at this time.

17 The agenda tonight consists of items that require a
18 public hearing by a hearing master before going to the Board of
19 County Commissioners for a final decision. I will conduct a
20 hearing on each item today and will submit a written
21 recommendation. My written recommendation will be filed with
22 the clerk of the Board within 15 working days after the
23 conclusion of today's public hearings.

24 The Board of County Commissioners will consider the
25 record of today's public hearing and my recommendation and will

SEPTEMBER 18, 2023 - ZONING HEARING MASTER

The Zoning Hearing Master (ZHM), Hillsborough County, Florida, met in Regular Meeting, scheduled for Monday, September 18, 2023, at 6:00 p.m., in the Boardroom, Frederick B. Karl County Center, Tampa, Florida, and held virtually.

 Susan Finch, ZHM, called the meeting to order at 6:00 p.m., led in the pledge of allegiance to the flag, and introduced Development Services (DS).

A. WITHDRAWALS AND CONTINUANCES

 Michelle Heinrich, DS, introduced staff, and reviewed changes/withdrawals/continuances.

 Susan Finch, ZHM, overview of ZHM process.

 Mary Dorman, Senior Assistant County Attorney, overview of oral argument/ZHM process.

 Susan Finch, ZHM, Oath.

B. REMANDS

B.1. RZ 23-0203

 Michelle Heinrich, DS, called RZ 23-0203.

 Testimony provided.

 Susan Finch, ZHM, closed RZ 23-0203.

C. REZONING STANDARD (RZ-STD):

C.1. RZ 23-0082

 Michelle Heinrich, DS, called RZ 23-0082.

 Testimony provided.
