Zoning Hearing Master Date:

NA

BOCC Land Use Meeting Date:

March 11, 2025

**Hillsborough
County Florida**

Development Services Department

1.0 APPLICATION SUMMARY

Applicant: BH Storage Riverview, LLC

FLU Category: CMU-12 (Community Mixed Use – 12)
UMU-20 (Urban Mixed Use – 20)

Service Area: Tampa

Site Acreage: 6.02

Community Plan Area: Greater Palm River

Overlay: None

Introduction Summary

The applicant is requesting a modification for PD 88-0884 (MM 23-0881) to reconfigure the general development plan and amend the modification area size and floor to area (FAR) calculations. The minor modification area is approved for 1 single-story mini warehouse and 1 three-story mini warehouse building on the east for a total of 90,600 square feet.

Existing Approvals	Proposed Modifications
Mini-warehouse with up to 90,600 SF of GFA with a maximum FAR of 0.32 on folio #72269.0300.	<ul style="list-style-type: none">• Increase FAR on folio # 72269.0300 from 0.32 to 0.40 (due to upland/wetland acreage changes; the building square-footage would remain at 90,600 SF).• Reduce the number of building envelopes from two to one: removal of the western building and increase the square footage of the eastern building.• Change of PD modification area from 6.35 acres to 6.02 acres.• Change PD modification area upland acreage from 3.76 acres to 4.21 acres.• Modify the site plan and conditions to allow the wetland setback for the new building envelope to be determined in accordance with LDC 4.01.07.B.5.
PD-C (C) uses on folio #72269.0000	No Change

Additional Information

PD Variations	None Requested as part of this application
Waivers to the Land Development Code	LDC 6.11.04 – Accessory Structures
	Dumpster Enclosure Setback Reduction

Planning Commission Recommendation: N/A	Development Services Recommendation: Approvable, subject to proposed conditions

5.0 IMPLEMENTATION RECOMMENDATIONS

5.1 Compatibility

The proposed modification would remove the building envelop nearest to the single-family dwellings to the west and south of the property. The changes would also reduce the wetland impact area and reduce the building coverage area with a minimal increase of impacts to the multi-family property to the south of the property. The developer is also required to install a six-foot tall hedge along the north, south, and east side of the trash and recycling enclosure to mitigate the visual impacts from the right-of-way due to the proposed eight-foot setback where 50 feet is required for accessory structures. Based on these considerations, staff finds the proposed planned development compatible with the existing uses, zoning districts, and development pattern in the area.

5.2 Recommendation

Based on the preceding considerations, Staff recommends approval, subject to conditions.

6.0 PROPOSED CONDITIONS

Prior to certification, the site plan shall be revised to delineate the existing boundary for the entirety of the PD as well as the modification area.

Approval - Approval of the request, subject to the conditions listed, is based on the revised general site plan submitted ~~December 22, 2023~~ February 24, 2025.

1. The maximum floor area ratio (FAR) for the proposed major modification PRS 25-0234 area shall be ~~0.320.40~~, the maximum FAR of the ~~entire PD property~~ identified as folio number 72269.000 shall be 0.35.
2. Development for the property identified as folio number 72269.0000 shall be limited to PD-C (C) uses with no mini-warehouses. Development for the property identified as folio number 72269.0300 shall be limited to mini warehouse with up to 90,600 SF of GFA subject to the following conditions.
 - 2.1 Such facilities shall be used only for dead storage of materials or articles and shall not be used for assembly, fabrication, processing, or repair.
 - 2.2 No services or sales shall be conducted from any storage unit. Garage sales and/or flea market type activities are prohibited.
 - 2.3 Facilities shall not be used for practice rooms, meeting rooms, or residence.
 - 2.4 No exterior storage of vehicles, material, or articles shall be permitted.
 - 2.5 Storage of explosive or highly flammable material shall be prohibited.
 - 2.6 The building shall be limited to three stories and a maximum height of 50 feet.
 - 2.7 The minimum building setbacks:
 - Front: 52 feet
 - Side (north): 20 feet
 - Side (south): 44 feet
 - Rear: 614 feet
3. Buffering and screening shall be provided as depicted on the site plan. The existing tree line and vegetation shall be used for the landscape screening requirements to the west to the extent practicable as reviewed and approved by Natural Resources Staff. Dumpster enclosures located on the parcel identified as folio #72269.0300 shall be entirely (100%) screened on the north, south, and eastern elevations from the US 301 Right-of-way with a six-foot-tall evergreen hedge. At the time of planting this hedge shall be at least six feet tall and provide and overall screening opacity of 75 percent.
4. ~~The most western located building shall be limited to one story up to a height of 15 feet.~~ The most eastern located building shall be limited to three stories up to a maximum height of 50. The 2:1 additional setback requirement for building height in excess of 20 feet shall not apply.
5. All buildings shall be set back 30 feet from the ultimate right-of-way line on the north side of the property.
6. The applicant will be required to apply for a permit for access to the State Highway System. Access on U.S. 301 (SR 43) will be limited to one driveway with right in/right out movements. The permit will be considered

to be temporary. This temporary access to U.S. 301 will be permitted until such a time as a roadway that has been proposed adjacent to the applicant's site and improvements to U.S. 301 are constructed. When the local facility is in place, the applicant will be required to connect to it at an appropriate location and remove the temporary driveway.

7. If access is via right in, right out drive directly into the site, the design of the access shall conform to F.D.O.T. standards.
8. A right-in/right-out restricted access shall be permitted, subject to FDOT approval.
9. With the initial increment of development, the developer shall make the following Public Transit Facility improvements, subject to review and approval of HART and FDOT:
10. Notwithstanding anything shown in the PD site plan or in the PD conditions to the contrary, bicycle and pedestrian access may be permitted anywhere along PD boundaries.
 - a. Relocate the existing bus pad and bus bay along the project frontage to a location within 1 mile of the subject property.
 - b. The construction of the relocated bus pad and bus bay shall include a bus shelter, seating, trash receptacles and bicycle rack as required per Hillsborough County Land Development Code, Section 6.03.09.C.3.a.
11. Construction access shall be limited to those locations shown on PD site plan which are also proposed
 - a. vehicular access connections. The developer shall include a note in each site/construction plan submittal which indicates same.
12. The developer shall dedicate to the County, prior to issuance of Zoning Compliance Permits or at the
 - a. request of the County to coincide with road improvements, whichever comes first, adequate right-of-way to provide for 124 feet of right-of-way from the center line of U.S. 301, if necessary.
13. Elimination of one or both of the access points from the north, shall not require a Personal Appearance.
14. If the County right-of-way to the north of the subject property is vacated, the property that reverts to the property to the south, will be considered as part of the PD approved, and can be used under the conditions of approval for the PD.
15. Stormwater detention/retention pond design shall comply with applicable Hillsborough County Land Development Codes.
16. The developer shall provide (a) fire hydrants, and/or (b) a Fire Protection Plan as determined by the Hillsborough County Fire Department.
 - a. If (a) is required, the developer shall install at the developer's expense, prior to the issuance of Certificates of Zoning Compliance, fire hydrants and, if necessary, water lines of a size necessary to meet minimum fire flow and pressure requirements to provide adequate water resources for firefighting. The location and installation of the hydrants and water lines shall be subject to approval of the County Fire Department and the City of Tampa Water Department.
 - b. If (b) is required, the developer shall prepare a Fire Protection Plan for the site and development thereof. The Plan shall be submitted to the County Planning and Zoning Department prior to issuance of Zoning Compliance Permits along with evidence of approval, from the County Fire Department, of the Plan as submitted.

17. Prior to Detailed Site Plan certification, the boundaries of any on-site environmentally sensitive area(s) shall be delineated in the field by County Environmental Protection Commission staff. The developer shall show on the General Development Site Plan the boundaries of all environmentally sensitive area(s) and shall label the area(s) therein "Conservation Area" prior to General Development Site Plan certification. Prior to General Development Site Plan certification, the developer shall submit to the Hillsborough County Development Services Department evidence of approval from the Environmental Protection Commission of the conservation area boundaries and area(s) therein as shown on the General Development Site Plan. All on-site conservation area(s) shall be preserved unless a mitigation plan is approved by the Environmental Protection Commission and submitted to the Development Services Department.
18. Natural Resources staff identified a number of significant trees on the site including potential Grand Oaks. Every effort must be made to avoid the removal of and design the site around these trees. The site plan may be modified from the Certified Site Plan to avoid tree removal.
19. Wetlands or other surface waters are considered Environmentally Sensitive Areas and are subject to Conservation Area and Preservation Area setbacks where applicable. A minimum setback must be maintained around these areas which shall be designated on all future plan submittals that comply with the LDC, Section 4.01.07.B. ~~There is a 30' setback required from the new wetland line where wetlands are proposed to be impacted. Only items explicitly stated in the condition of approval or items allowed per the LDC may be placed within the wetland setback. Proposed land alterations are restricted within the wetland setback areas.~~
20. Any interim agricultural operations shall not result in the destruction of trees or the natural plant community vegetation on the property. Any application to conduct land alteration activities on the property must be submitted to the Natural Resources Team of the Development Services Department for review and approval. Use of the agricultural exemption provision to the Land Alteration regulations is prohibited.
21. Approval of this petition by Hillsborough County does not constitute a guarantee that Natural Resources approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impacts to trees, natural plant communities or wildlife habitat, and does not grant any implied or vested right to environmental approvals.
22. The construction and location of any proposed environmental impacts are not approved by this correspondence, but shall be reviewed by Natural Resources staff through the site and subdivision development plan process pursuant to the Land Development Code.
23. If the notes and/or graphic on the site plan are in conflict with specific zoning conditions and/or the Land Development Code (LDC) regulations, the more restrictive regulation shall apply, unless specifically conditioned otherwise. References to development standards of the LDC in the above stated conditions shall be interpreted as the regulations in effect at the time of preliminary site plan/plat approval.
24. Approval of this zoning petition by Hillsborough County does not constitute a guarantee that the Environmental Protection Commission of Hillsborough County (EPC) approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impact to wetlands, and does not grant any implied or vested right to environmental approvals.
25. The construction and location of any proposed wetland impacts are not approved by this correspondence but shall be reviewed by EPC staff under separate application pursuant to the EPC Wetlands rule detailed in Chapter 1-11, Rules of the EPC, (Chapter 1-11) to determine whether such impacts are necessary to accomplish reasonable use of the subject property.
26. Prior to the issuance of any building or land alteration permits or other development, the approved wetland/other surface water (OSW) line must be incorporated into the site plan. The wetland/OSW line must

appear on all site plans, labeled as "EPC Wetland Line", and the wetland must be labeled as "Wetland Conservation Area" pursuant to the Hillsborough County Land Development Code (LDC).

27. Final design of buildings, stormwater retention areas, and ingress/egresses are subject to change pending formal agency jurisdictional determinations of wetland and other surface water boundaries and approval by the appropriate regulatory agencies.
28. An easement shall be provided along the ditch that exists on the west property line to comply with Hillsborough County Stormwater Management Policy, as required by Stormwater Management Division.
29. The private drive is required for access to the property. The private drive will consist of 24-footwide pavement with curbs and a sidewalk. Retaining walls will be utilized as necessary to prevent further impacts to the wetlands.
30. The developer shall show on the Revised General Development Site Plan the approximate boundaries of all environmentally sensitive area(s) and shall label the area(s) therein "Conservation Area." The boundaries of any on-site environmentally sensitive area(s) shall be delineated in the field by County Environmental Protection Commission staff and shown on the detailed site plan. The developer shall submit to the County Department of Development Review evidence of approval from the Environmental Protection Commission of the conservation area boundaries prior to detailed site plan approval.
31. The developer shall submit to EPC a mitigation plan for the proposed wetland impacts.
32. All new structures and/or impervious area on site that are not exempt as defined under the LDC, Section 4.01.07.B.5 shall be set back a minimum of 30 feet from the boundaries of the on-site conservation area and any adjacent Conservation Area contiguous to any property boundary of the site, except as specifically approved by the Land Use Hearing Officer.
33. During construction, hay bales or other erosion-prevention control devices must be staked within the setback areas around each wetland to prevent soil erosion into the wetlands.
34. Portions of the project which apply for detailed site plan certification or final plat approval after the Board of County Commissioners formally adopts development standards for the I-75 Corridor Plan shall comply with such standards. In the event applicable I-75 Corridor development standards would significantly impair or alter the design or character of the project as approved in the zoning, the developer shall be entitled to a public hearing on this matter before the Board and may propose alternative mitigative strategies.

In no event shall the agreed upon standards be less than those specified in the zoning conditions above and in the general site plan dated December 22, 2023, unless such conditions are modified pursuant to the Hillsborough County Zoning Code, as amended.
35. Development must be in accordance with all applicable regulations in the Hillsborough County Zoning Code and in accordance with all other applicable ordinances.
36. Within ninety days of rezoning approval by the Hillsborough County Board of County Commissioners, the developer shall submit to the Hillsborough County Development Services Department a revised General Development Site Plan for certification reflecting all the conditions outlined above.

In accordance with LDC Section 5.03.07.C, the certified PD general site plan shall expire for the internal transportation network and external access points, as well as for any conditions related to the internal transportation network and external access points, if site construction plans, or equivalent thereof, have not been approved for all or part of the subject Planned Development within 5 years of the effective date of the PD unless an extension is granted as provided in the LDC. Upon expiration, recertification of the PD General Site Plan shall be required in accordance with provisions set forth in LDC Section 5.03.07.C.

REVIEWER: Richard Perez, AICP

AGENCY/DEPT: Transportation

PLANNING AREA/SECTOR: PR/ Central

PETITION NO: PRS 25-0234

- ☐ This agency has no comments.
- ☐ This agency has no objection.
- ☒ This agency has no objection, subject to the listed or attached conditions.
- ☐ This agency objects for the reasons set forth below.

PROJECT SUMMARY AND ANALYSIS

The applicant is requesting a minor modification (PRS) to PD 88-0084, as most recently amended by MM 23-0881, to make changes to the internal configuration of 90,600 square feet of mini-warehouse uses on a +/- 6.35 ac. vacant parcel. The proposed changes will not change the uses, maximum square footage or site access. The future land use classification is UMU-20 and CMU-12.

Trip Generation Analysis

No new transportation analysis is required as there is no change in land use or intensity. Staff has prepared a comparison of the trips potentially generated under the existing and proposed zoning designations, utilizing a generalized worst-case scenario. Data presented below is based on the Institute of Transportation Engineer's Trip Generation Manual, 11th Edition.

Approved PD:

Zoning, Lane Use/Size	24 Hour Two-Way Volume	Total Peak Hour Trips	
		AM	PM
MM: 90,600 sf – Mini-warehouse (ITE 151)	131	8	14

Proposed PD Modification:

Zoning, Lane Use/Size	24 Hour Two-Way Volume	Total Peak Hour Trips	
		AM	PM
MM: 90,600 sf – Mini-warehouse (ITE 151)	131	8	14

Trip Generation Difference:

Zoning, Lane Use/Size	24 Hour Two-Way Volume	Total Peak Hour Trips	
		AM	PM
Difference (+/-)	0	0	0

The proposed PD modification will not result in a change in trips potentially generated.

TRANSPORTATION INFRASTRUCTURE SERVING THE SITE

The site has frontage on the west side of US Hwy 301.

US Hwy 301 is a 6-lane, divided principal arterial FDOT roadway within +/-265 feet. There are sidewalks and paved shoulders along both sides of roadway. There is an existing bus stop and bus bay along the project frontage.

SITE ACCESS

The PD is restricted to right-in/right-out access on US Hwy 301. Additionally, the site plan provides for vehicular and pedestrian cross access to the north and pedestrian cross access to the south.

No changes to access are proposed.

ROADWAY LEVEL OF SERVICE

**CURRENTLY
APPROVED**

Approval of the request, subject to the conditions listed, is based on the revised general site plan submitted December 22, 2023.

1. The maximum floor area ratio (FAR) for the proposed major modification area shall be 0.32, the maximum FAR of the entire PD shall be 0.35.
2. Development for the property identified as folio number 72269.0000 shall be limited to PD-C (C) uses with no mini-warehouses. Development for the property identified as folio number 72269.0300 shall be limited to mini warehouse with up to 90,600 SF of GFA subject to the following conditions.
 - 2.1 Such facilities shall be used only for dead storage of materials or articles and shall not be used for assembly, fabrication, processing, or repair.
 - 2.2 No services or sales shall be conducted from any storage unit. Garage sales and/or flea market type activities are prohibited.
 - 2.3 Facilities shall not be used for practice rooms, meeting rooms, or residence.
 - 2.4 No exterior storage of vehicles, material, or articles shall be permitted.
 - 2.5 Storage of explosive or highly flammable material shall be prohibited.
3. Buffering and screening shall be provided as depicted on the site plan. The existing tree line and vegetation shall be used for the landscape screening requirements to the west to the extent practicable as reviewed and approved by Natural Resources Staff.
4. The most western located building shall be limited to one story up to a height of 15 feet. The most eastern located building shall be limited to three stories up to a maximum height of 50. The 2:1 additional setback requirement for building height in excess of 20 feet shall not apply.
5. All buildings shall be set back 30 feet from the ultimate right-of-way line on the north side of the property.
6. The applicant will be required to apply for a permit for access to the State Highway System. Access on U.S. 301 (SR 43) will be limited to one driveway with right in/right out movements. The permit will be considered to be temporary. This temporary access to U.S. 301 will be permitted until such a time as a roadway that has been proposed adjacent to the applicant's site and improvements to U.S. 301 are constructed. When the local facility is in place, the applicant will be required to connect to it at an appropriate location and remove the temporary driveway.
7. If access is via right in, right out drive directly into the site, the design of the access shall conform to F.D.O.T. standards.
8. A right-in/right-out restricted access shall be permitted, subject to FDOT approval.
9. With the initial increment of development, the developer shall make the following Public Transit Facility improvements, subject to review and approval of HART and FDOT:

10. Notwithstanding anything shown in the PD site plan or in the PD conditions to the contrary, bicycle and pedestrian access may be permitted anywhere along PD boundaries.
 - a. Relocate the existing bus pad and bus bay along the project frontage to a location within 1 mile of the subject property.
 - b. The construction of the relocated bus pad and bus bay shall include a bus shelter, seating, trash receptacles and bicycle rack as required per Hillsborough County Land Development Code, Section 6.03.09.C.3.a.
11. Construction access shall be limited to those locations shown on PD site plan which are also proposed vehicular access connections. The developer shall include a note in each site/construction plan submittal which indicates same.
12. The developer shall dedicate to the County, prior to issuance of Zoning Compliance Permits or at the request of the County to coincide with road improvements, whichever comes first, adequate right-of-way to provide for 124 feet of right-of-way from the center line of U.S. 301, if necessary.
13. Elimination of one or both of the access points from the north, shall not require a Personal Appearance.
14. If the County right-of-way to the north of the subject property is vacated, the property that reverts to the property to the south, will be considered as part of the PD approved, and can be used under the conditions of approval for the PD.
15. Stormwater detention/retention pond design shall comply with applicable Hillsborough County Land Development Codes.
16. The developer shall provide (a) fire hydrants, and/or (b) a Fire Protection Plan as determined by the Hillsborough County Fire Department.
 - a. If (a) is required, the developer shall install at the developer's expense, prior to the issuance of Certificates of Zoning Compliance, fire hydrants and, if necessary, water lines of a size necessary to meet minimum fire flow and pressure requirements to provide adequate water resources for firefighting. The location and installation of the hydrants and water lines shall be subject to approval of the County Fire Department and the City of Tampa Water Department.
 - b. If (b) is required, the developer shall prepare a Fire Protection Plan for the site and development thereof. The Plan shall be submitted to the County Planning and Zoning Department prior to issuance of Zoning Compliance Permits along with evidence of approval, from the County Fire Department, of the Plan as submitted.
17. Prior to Detailed Site Plan certification, the boundaries of any on-site environmentally sensitive area(s) shall be delineated in the field by County Environmental Protection Commission staff. The developer shall show on the General Development Site Plan the boundaries of all environmentally sensitive area(s) and shall label the area(s) therein "Conservation Area" prior to General Development Site Plan certification. Prior to General Development Site Plan certification, the developer shall submit to the Hillsborough County Development Services Department evidence of approval from the Environmental Protection Commission of the conservation area boundaries and area(s) therein as shown on the General

Development Site Plan. All on-site conservation area(s) shall be preserved unless a mitigation plan is approved by the Environmental Protection Commission and submitted to the Development Services Department.

18. Natural Resources staff identified a number of significant trees on the site including potential Grand Oaks. Every effort must be made to avoid the removal of and design the site around these trees. The site plan may be modified from the Certified Site Plan to avoid tree removal.
19. Wetlands or other surface waters are considered Environmentally Sensitive Areas and are subject to Conservation Area and Preservation Area setbacks. A minimum setback must be maintained around these areas which shall be designated on all future plan submittals. There is a 30' setback required from the new wetland line where wetlands are proposed to be impacted. Only items explicitly stated in the condition of approval or items allowed per the LDC may be placed within the wetland setback. Proposed land alterations are restricted within the wetland setback areas.
20. Approval of this petition by Hillsborough County does not constitute a guarantee that Natural Resources approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impacts to trees, natural plant communities or wildlife habitat, and does not grant any implied or vested right to environmental approvals.
21. The construction and location of any proposed environmental impacts are not approved by this correspondence, but shall be reviewed by Natural Resources staff through the site and subdivision development plan process pursuant to the Land Development Code.
22. If the notes and/or graphic on the site plan are in conflict with specific zoning conditions and/or the Land Development Code (LDC) regulations, the more restrictive regulation shall apply, unless specifically conditioned otherwise. References to development standards of the LDC in the above stated conditions shall be interpreted as the regulations in effect at the time of preliminary site plan/plat approval.
23. Approval of this zoning petition by Hillsborough County does not constitute a guarantee that the Environmental Protection Commission of Hillsborough County (EPC) approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impact to wetlands, and does not grant any implied or vested right to environmental approvals.
24. The construction and location of any proposed wetland impacts are not approved by this correspondence but shall be reviewed by EPC staff under separate application pursuant to the EPC Wetlands rule detailed in Chapter 1-11, Rules of the EPC, (Chapter 1-11) to determine whether such impacts are necessary to accomplish reasonable use of the subject property.
25. Prior to the issuance of any building or land alteration permits or other development, the approved wetland/other surface water (OSW) line must be incorporated into the site plan. The wetland/OSW line must appear on all site plans, labeled as "EPC Wetland Line", and the wetland must be labeled as "Wetland Conservation Area" pursuant to the Hillsborough County Land Development Code (LDC).
26. Final design of buildings, stormwater retention areas, and ingress/egresses are subject to change pending formal agency jurisdictional determinations of wetland and other surface water boundaries and approval by the appropriate regulatory agencies.

27. An easement shall be provided along the ditch that exists on the west property line to comply with Hillsborough County Stormwater Management Policy, as required by Stormwater Management Division.
28. The private drive is required for access to the property. The private drive will consist of 24-footwide pavement with curbs and a sidewalk. Retaining walls will be utilized as necessary to prevent further impacts to the wetlands.
29. The developer shall show on the Revised General Development Site Plan the approximate boundaries of all environmentally sensitive area(s) and shall label the area(s) therein "Conservation Area." The boundaries of any on-site environmentally sensitive area(s) shall be delineated in the field by County Environmental Protection Commission staff and shown on the detailed site plan. The developer shall submit to the County Department of Development Review evidence of approval from the Environmental Protection Commission of the conservation area boundaries prior to detailed site plan approval.
30. The developer shall submit to EPC a mitigation plan for the proposed wetland impacts.
31. All new structures and/or impervious area on site shall be set back a minimum of 30 feet from the boundaries of the on-site conservation area and any adjacent Conservation Area contiguous to any property boundary of the site, except as specifically approved by the Land Use Hearing Officer.
32. During construction, hay bales or other erosion-prevention control devices must be staked within the setback areas around each wetland to prevent soil erosion into the wetlands.
33. Portions of the project which apply for detailed site plan certification or final plat approval after the Board of County Commissioners formally adopts development standards for the I-75 Corridor Plan shall comply with such standards. In the event applicable I-75 Corridor development standards would significantly impair or alter the design or character of the project as approved in the zoning, the developer shall be entitled to a public hearing on this matter before the Board and may propose alternative mitigative strategies.

In no event shall the agreed upon standards be less than those specified in the zoning conditions above and in the general site plan dated December 22, 2023, unless such conditions are modified pursuant to the Hillsborough County Zoning Code, as amended.

34. Development must be in accordance with all applicable regulations in the Hillsborough County Zoning Code and in accordance with all other applicable ordinances.
35. Within ninety days of rezoning approval by the Hillsborough County Board of County Commissioners, the developer shall submit to the Hillsborough County Development Services Department a revised General Development Site Plan for certification reflecting all the conditions outlined above.
36. In accordance with LDC Section 5.03.07.C, the certified PD general site plan shall expire for the internal transportation network and external access points, as well as for any conditions related to the internal transportation network and external access points, if site construction plans, or equivalent thereof, have not been approved for all or part of the subject Planned Development within 5 years of the effective date of the PD unless an extension is granted as provided in the LDC. Upon expiration,

recertification of the PD General Site Plan shall be required in accordance with provisions set forth in LDC Section 5.03.07.C.

AGENCY COMMENTS

AGENCY REVIEW COMMENT SHEET

TO: Zoning Technician, Development Services Department

DATE: 1/22/2025
Revised: 1/23/2025

REVIEWER: Richard Perez, AICP

AGENCY/DEPT: Transportation

PLANNING AREA/SECTOR: PR/ Central

PETITION NO: PRS 25-0234

- ☐ This agency has no comments.
- ☒ This agency has no objection.
- ☐ This agency has no objection, subject to the listed or attached conditions.
- ☐ This agency objects for the reasons set forth below.

PROJECT SUMMARY AND ANALYSIS

The applicant is requesting a minor modification (PRS) to PD 88-0084, as most recently amended by MM 23-0881, to make changes to the internal configuration of 90,600 square feet of mini-warehouse uses on a +/- 6.35 ac. vacant parcel. The proposed changes will not change the uses, maximum square footage or site access. The future land use classification is UMU-20 and CMU-12.

Trip Generation Analysis

No new transportation analysis is required as there is no change in land use or intensity. Staff has prepared a comparison of the trips potentially generated under the existing and proposed zoning designations, utilizing a generalized worst-case scenario. Data presented below is based on the Institute of Transportation Engineer's Trip Generation Manual, 11th Edition.

Approved PD:

Zoning, Lane Use/Size	24 Hour Two-Way Volume	Total Peak Hour Trips	
		AM	PM
MM: 90,600 sf – Mini-warehouse (ITE 151)	131	8	14

Proposed PD Modification:

Zoning, Lane Use/Size	24 Hour Two-Way Volume	Total Peak Hour Trips	
		AM	PM
MM: 90,600 sf – Mini-warehouse (ITE 151)	131	8	14

Trip Generation Difference:

Zoning, Lane Use/Size	24 Hour Two-Way Volume	Total Peak Hour Trips	
		AM	PM
Difference (+/-)	0	0	0

The proposed PD modification will not result in a change in trips potentially generated.

TRANSPORTATION INFRASTRUCTURE SERVING THE SITE

The site has frontage on the west side of US Hwy 301.

US Hwy 301 is a 6-lane, divided principal arterial FDOT roadway within +/-265 feet. There are sidewalks and paved shoulders along both sides of roadway. There is an existing bus stop and bus bay along the project frontage.

SITE ACCESS

The PD is restricted to right-in/right-out access on US Hwy 301. Additionally, the site plan provides for vehicular and pedestrian cross access to the north and pedestrian cross access to the south.

No changes to access are proposed.

ROADWAY LEVEL OF SERVICE

Level of Service (LOS) information is reported below.

AGENCY COMMENT SHEET

REZONING	
HEARING DATE: March 11, 2025 PETITION NO.: 25-0234 EPC REVIEWER: Kelly M. Holland CONTACT INFORMATION: (813) 627-2600 x 1222 EMAIL: hollandk@epchc.org	COMMENT DATE: February 21, 2025 PROPERTY ADDRESS: US Highway 301, Riverview FOLIO #: 0722690300 STR: 31-29S-20E
REQUESTED ZONING: Minor Modification to an existing Planned Development	
FINDINGS	
WETLANDS PRESENT	YES
SITE INSPECTION DATE	NA
WETLAND LINE VALIDITY	VALID
WETLANDS VERIFICATION (AERIAL PHOTO, SOILS SURVEY, EPC FILES)	Central portion of the project area
<p>Please allow these comments to supersede and cancel the comments issued to Hillsborough County on Month, Day Year in their entirety.</p> <p>The EPC Wetlands Division has reviewed the proposed rezoning. In the site plan's current configuration, a resubmittal is not necessary. If the zoning proposal changes and/or the site plans are altered, EPC staff will need to review the zoning again. This project as submitted is conceptually justified to move forward through the zoning review process as long as the following conditions are included:</p> <ul style="list-style-type: none">• Approval of this zoning petition by Hillsborough County does not constitute a guarantee that the Environmental Protection Commission of Hillsborough County (EPC) approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impact to wetlands, and does not grant any implied or vested right to environmental approvals.• The construction and location of any proposed wetland impacts are not approved by this correspondence but shall be reviewed by EPC staff under separate application pursuant to the EPC Wetlands rule detailed in Chapter 1-11, Rules of the EPC, (Chapter 1-11) to determine whether such impacts are necessary to accomplish reasonable use of the subject property.	

Environmental Excellence in a Changing World

Environmental Protection Commission - Roger P. Stewart Center
3629 Queen Palm Drive, Tampa, FL 33619 - (813) 627-2600 - www.epchc.org

- Prior to the issuance of any building or land alteration permits or other development, the approved wetland / other surface water (OSW) line must be incorporated into the site plan. The wetland/ OSW line must appear on all site plans, labeled as "EPC Wetland Line", and the wetland must be labeled as "Wetland Conservation Area" pursuant to the Hillsborough County Land Development Code (LDC).
- Final design of buildings, stormwater retention areas, and ingress/egresses are subject to change pending formal agency jurisdictional determinations of wetland and other surface water boundaries and approval by the appropriate regulatory agencies.

INFORMATIONAL COMMENTS:

The following specific comments are made for informational purposes only and to provide guidance as to the EPC review process. However, future EPC staff review is not limited to the following, regardless of the obviousness of the concern as raised by the general site plan and EPC staff may identify other legitimate concerns at any time prior to final project approval.

- The Hillsborough County Land Development Code (LDC) defines wetlands and other surface waters as Environmentally Sensitive Areas. Pursuant to the LDC, wetlands and other surface waters are further defined as Conservation Areas or Preservation Areas and these areas must be designated as such on all development plans and plats. A minimum setback must be maintained around the Conservation/Preservation Area and the setback line must also be shown on all future plan submittals.
- Any activity interfering with the integrity of wetland(s) or other surface water(s), such as clearing, excavating, draining or filling, without written authorization from the Executive Director of the EPC or authorized agent, pursuant to Section 1-11.07, would be a violation of Section 17 of the Environmental Protection Act of Hillsborough County, Chapter 84-446, and of Chapter 1-11.

AGENCY COMMENT SHEET

TO: **Zoning/Code Administration, Development Services Department**

FROM: **Reviewer:** Carla Shelton Knight **Date:** January 23, 2025

Agency: Natural Resources **Petition #:** 25-0234

- ☐ This agency has **no comment**
- ☐ This agency has **no objections**
- ☒ This agency has **no objections, subject to listed or attached conditions**
- ☐ This agency **objects, based on the listed or attached issues.**

1. Natural Resources staff identified a number of significant trees on the site including potential Grand Oaks. Every effort must be made to avoid the removal of and design the site around these trees. The site plan may be modified from the Certified Site Plan to avoid tree removal. **This statement should be identified as a condition of the rezoning.**
2. Wetlands or other surface waters are considered Environmentally Sensitive Areas and are subject to Conservation Area and Preservation Area setbacks. A minimum setback must be maintained around these areas which shall be designated on all future plan submittals. Only items explicitly stated in the condition of approval or items allowed per the LDC may be placed within the wetland setback. Proposed land alterations are restricted within the wetland setback areas.
3. Any interim agricultural operations shall not result in the destruction of trees or the natural plant community vegetation on the property. Any application to conduct land alteration activities on the property must be submitted to the Natural Resources Team of the Development Services Department for review and approval. Use of the agricultural exemption provision to the Land Alteration regulations is prohibited.
4. Approval of this petition by Hillsborough County does not constitute a guarantee that Natural Resources approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impacts to trees, natural plant communities or wildlife habitat, and does not grant any implied or vested right to environmental approvals.

5. The construction and location of any proposed environmental impacts are not approved by this correspondence, but shall be reviewed by Natural Resources staff through the site and subdivision development plan process pursuant to the Land Development Code.
6. If the notes and/or graphic on the site plan are in conflict with specific zoning conditions and/or the Land Development Code (LDC) regulations, the more restrictive regulation shall apply, unless specifically conditioned otherwise. References to development standards of the LDC in the above stated conditions shall be interpreted as the regulations in effect at the time of preliminary site plan/plat approval.

REZONING REVIEW COMMENT SHEET: WATER & WASTEWATER

PETITION NO.: PRS 25-0234

REVIEWED BY: Clay Walker, E.I.

DATE: 12/30/2024

FOLIO NO.: 72269.0300

WATER

- ☒ The property lies within the City of Tampa Water Service Area. The applicant should contact the provider to determine the availability of water service.
- ☐ A ___ inch water main exists ☐ (adjacent to the site), ☐ (approximately ___ feet from the site) _____. This will be the likely point-of-connection, however there could be additional and/or different points-of-connection determined at the time of the application for service. This is not a reservation of capacity.
- ☐ Water distribution system improvements will need to be completed prior to connection to the County's water system. The improvements include _____ and will need to be completed by the _____ prior to issuance of any building permits that will create additional demand on the system.

WASTEWATER

- ☒ The property lies within the City of Tampa Wastewater Service Area. The applicant should contact the provider to determine the availability of wastewater service.
- ☐ A ___ inch wastewater force main exists ☐ (adjacent to the site), ☐ (approximately ___ feet from the site) _____. This will be the likely point-of-connection, however there could be additional and/or different points-of-connection determined at the time of the application for service. This is not a reservation of capacity.
- ☐ Wastewater collection system improvements will need to be completed prior to connection to the County's wastewater system. The improvements include _____ and will need to be completed by the _____ prior to issuance of any building permits that will create additional demand on the system.

COMMENTS: _____.

Agency Review Comment Sheet

NOTE: Wellhead Resource Protection Areas (WRPA), Potable Water Wellfield Protection Areas (PWWPA), and Surface Water Resource Protection Areas (SWRPA) reviews are based on the most current available data on the Hillsborough County maps, as set forth in Part 3.05.00 of the Land Development Code.

APPLICANT: Nationwide Realty Solutions, LLC

LOCATION: 7222 E Dr. Martin Luther King Jr. Blvd. Tampa, FL 33619

FOLIO NO.: 41145.0000

AGENCY REVIEW COMMENTS:

At this time, according to the Hillsborough County BOCC approved maps adopted in the Comprehensive Plan, the site does not appear to be located within a Wellhead Resource Protection Area (WRPA), Potable Water Wellfield Protection Area (PWWPA) and/or Surface Water Resource Protection Area (SWRPA), as defined in Part 3.05.00 of the Hillsborough County Land Development Code (LDC).

At this time, Hillsborough County EVSD has no recommended conditions and no request for additional information associated with wellhead protection.
