Identification of Sensitive/Protected Information and Acknowledgement of Public Records

Pursuant to [Chapter 119 Florida Statutes](#), all information submitted to Development Services is considered public record and open to inspection by the public. Certain information may be considered sensitive or protected information which may be excluded from this provision. Sensitive/protected information may include, but is not limited to, documents such as medical records, income tax returns, death certificates, bank statements, and documents containing social security numbers.

While all efforts will be taken to ensure the security of protected information, certain specified information, such as addresses of exempt parcels, may need to be disclosed as part of the public hearing process for select applications. If your application requires a public hearing and contains sensitive/protected information, please contact [Hillsborough County Development Services](#) to determine what information will need to be disclosed as part of the public hearing process.

Additionally, parcels exempt under [Florida Statutes §119.071\(4\)](#) will need to contact [Hillsborough County Development Services](#) to obtain a release of exempt parcel information.

Are you seeking an exemption from public disclosure of selected information submitted with your application pursuant to Chapter 119 FS? Yes No

I hereby confirm that the material submitted with application VAR 24-0611

Includes sensitive and/or protected information.

Type of information included and location _____

Does not include sensitive and/or protected information.

Please note: Sensitive/protected information will not be accepted/requested unless it is required for the processing of the application.

If an exemption is being sought, the request will be reviewed to determine if the applicant can be processed with the data being held from public view. Also, by signing this form I acknowledge that any and all information in the submittal will become public information if not required by law to be protected.

*Revised documents required when adding land to the project site. Other revised documents may be requested by the planner reviewing the application.

**Required documents required when removing land from the project site. Other revised documents may be requested by the planner reviewing the application.

Variance Application - VAR 24-0611
Camp Brorein – 16901 Boy Scout Rd., Odessa

WRITTEN STATEMENT:

Camp Brorein, one of the nation's oldest and continuously operating Boy Scout camps, has been in operation since 1922 and is located within the Keystone - Odessa Community Plan area. Consisting of 80 acres of natural areas and two lakes, Camp Brorein hosts over 10,000 camper days/nights and provides life training and services to the Greater Tampa Bay Area (GTBA) and the State of Florida's Boy Scouts.

In 2022, the GTBA Council demolished the former dining hall structure to meet the physical needs and state building and life safety code requirements to allow it to continue to host youth and adults for meals in a safe manner. The GTBA Council is seeking a variance to replace the demolished dining hall and to provide a 12,000 sq. ft. building needed to continue to serve our community's youth.

During the creation of the Keystone-Odessa Community Plan and the subsequent implementing Land Development Code (LDC) Section 3.08.00, a provision was included that limited the size of nonresidential buildings to no more than 7,500 square feet of gross floor space (See below LDC Section 3.08.06.A.1.) After representatives attended a pre-application meeting and further discussions with Hillsborough County staff members, it was determined a variance would be required to increase the nonresidential building size to greater than the 7,500 square feet maximum as outlined in LDC Section 3.08.06.A.1. to accommodate the proposed dining hall.

The LDC Section 3.08.06.A.1. is specific as to what uses are excluded from the nonresidential building regulations, which exclusions are limited to agricultural structures, churches and schools. Although similar in impact and function to the aforesaid uses, the LDC definitions of agriculture, church and school do not include non-profit or civic camp uses. The LDC does not provide any other exclusions for civic or institutional type uses nor does it provide staff with the flexibility to exclude other civic or institutional uses from the nonresidential building requirements.

Additionally, a variance is requested from LDC Section 3.08.09.2. of the Keystone-Odessa Rural Development Standards, which section regulates parking for nonresidential uses. This section requires that parking for nonresidential uses shall not be located between the principal building and road right-of-way. The existing parking area for Camp Brorein is located between the dining hall and the camp's entrance along Boy Scout Road. As mentioned, this is an existing parking area and is not visible from the road right-of-way as there is an approximately 400' driveway from the camp entrance to the existing parking area.

A site plan along with elevations is included in this application for staff review.

CODE SECTION:

LDC Sec. 3.08.06.A.1.:

A. Nonresidential and Accessory Buildings

1. All nonresidential buildings, excluding agricultural structures, churches and schools shall be limited to two stories in height and shall individually have no more than 7,500 square feet of gross floor space. If more than one principal building occupies a parcel, disparate setbacks and

Variance Application - VAR 24-0611
Camp Brorein – 16901 Boy Scout Rd., Odessa

orientations shall be required. Adjacent buildings shall have a front setback differential of at least ten feet or a front orientation differential of at least 90 degrees. All principal buildings shall be connected by walkways covered with metal or shake-style shingle roofs or fabric awnings. Additionally, within the Community Activity Center Overlay District (as shown in Figure 3.35.2), the walkways may be covered with continuous arbors or trellises supporting evergreen vines, such as Confederate Jasmine, Coral Honeysuckle or Beach Elder, sufficient to create a substantial vegetative canopy within two years of planting. Said vines shall be in three-gallon containers or larger at the time of planting.

LDC Sec. 3.08.09.2.:

2. Except as provided herein, parking shall not be located between the principal buildings/use and street rights-of-way. Notwithstanding, the following shall be permitted for projects outside of the Community Activity Center Overlay District:

- a. Pumps and fueling stations for gasoline service stations, and
- b. Not more than one row of angled parking spaces adjoining the principal building.

Variance Criteria Response

1. Explain how the alleged hardships or practical difficulties are unique and singular to the subject property and are not those suffered in common with other property similarly located?

See attached criteria responses.

2. Describe how the literal requirements of the Land Development Code (LDC) would deprive you of rights commonly enjoyed by other properties in the same district and area under the terms of the LDC.

See attached criteria responses.

3. Explain how the variance, if allowed, will not substantially interfere with or injure the rights of others whose property would be affected by allowance of the variance.

See attached criteria responses.

4. Explain how the variance is in harmony with and serves the general intent and purpose of the LDC and the Comprehensive Plan (*refer to Section 1.02.02 and 1.02.03 of the LDC for description of intent/purpose*).

See attached criteria responses.

5. Explain how the situation sought to be relieved by the variance does not result from an illegal act or result from the actions of the applicant, resulting in a self-imposed hardship.

See attached criteria responses.

6. Explain how allowing the variance will result in substantial justice being done, considering both the public benefits intended to be secured by the LDC and the individual hardships that will be suffered by a failure to grant a variance.

See attached criteria responses.

CRITERIA RESPONSES:

1. Explain how the alleged hardships or practical difficulties are unique and singular to the subject property and are not those suffered in common with other property similarly located?

Camp Brorein is the sole Boy Scout Camp in Hillsborough County, covering 80 acres. The camp's buildings are shielded from public view by old-growth trees and lakes. The Keystone Odessa Community Plan emphasizes a rural, nature-centric vision for the area. It prioritizes preserving the environment, maintaining natural darkness at night, and minimizing noise from urbanization. The Boy Scouts share this vision with the community. During the creation of the Keystone Odessa Community Plan and subsequent implementing codes, Camp Brorein was not identified as a community asset that strives to maintain the rural character. Additionally, the Greater Tampa Bay Council is unaware of any other private, non-profit properties that use and operate a similar facility in Hillsborough County.

The variance request seeks permission to construct a 12,000 sq. ft. building that complies with LDC provisions, instead of being limited to 7,500 sq. ft. Besides inefficiency, restricting the building's size to 7,500 sq. ft. could create financial and potentially environmental difficulties. To address this, the Boy Scouts have explored alternatives, such as constructing two smaller buildings, but these would impose significant financial burdens and necessitate the unnecessary removal of trees, contrary to their stated goals and needs.

2. Describe how the literal requirements of the Land Development Code (LDC) would deprive you of rights commonly enjoyed by other properties in the same district and area under the terms of the LDC.

This property doesn't fit the mold of a standard agricultural, commercial, or residential property; it's classified as a civic use in accordance with other communities' Land Development Codes (LDCs). Unlike schools or churches, the LDC does not account for Camp Brorein as a distinct use. Therefore, the LDC limits the construction of a 12,000 sq. ft. dining hall, which is necessary to meet the community's requirements, to a maximum of 7,500 sq. ft. without undue burden to the Greater Tampa Bay Council.

3. Explain how the variance, if allowed, will not substantially interfere with or injure the rights of others whose property would be affected by allowance of the variance.

This property is entirely shielded from neighboring properties and public rights of way. The construction of the dining hall and its intended uses will not disrupt or interfere with adjacent properties. Furthermore, the applicant has engaged in discussions with the Keystone - Odessa Civic Association and has garnered their support for the continuation of the Boy Scout Camp operations. The association has not expressed any concerns regarding the construction of the dining hall, indicating that it is well-received and does not raise objections from the local community.

4. Explain how the variance is in harmony with and serves the general intent and purpose of the LDC and the Comprehensive Plan (refer to Section 1.02.02 and 1.02.03 of the LDC for description of intent/purpose).

The Board of County Commissioners of Hillsborough County aims to establish standards, regulations, and efficient procedures for reviewing and approving property development in unincorporated Hillsborough County. Their goal is to ensure that the development process aligns with the objectives of the Comprehensive Plan, prioritizing public health, safety, comfort, and welfare while promoting harmonious and orderly development in accordance with good planning and design practices and the minimum standards outlined in the Code. This project will be constructed in a manner that achieves the Board's purpose and intent, while maintaining the integrity of the Keystone - Odessa Community Plan.

5. Explain how the situation sought to be relieved by the variance does not result from an illegal act or result from the actions of the applicant, resulting in a self-imposed hardship.

The project is not the result of any illegal acts or resulting from any code violations. The previous dining hall was demolished and the project is to replace the former building meeting today's and projected needs as well as requirements of building and fire codes. If the variance is granted, all elements required by the LDC will be met.

6. Explain how allowing the variance will result in substantial justice being done, considering both the public benefits intended to be secured by the LDC and the individual hardships that will be suffered by a failure to grant a variance.

The rural setting, lakes, and old growth trees on the 80-acre property represent important natural assets in alignment with maintaining the area's rural character. Allowing a larger building may enable the property owner to minimize the overall environmental impact. A 12,000 sq. ft. building can be designed more efficiently, reducing the need for clearing additional land or disturbing more trees. Granting this variance provides responsible land use and conservation of the natural environment, aligning with the public benefit of preserving scenic beauty and ecological balance.
