

LAND USE HEARING OFFICER VARIANCE REPORT

APPLICATION NUMBER: VAR 21-0938	
LUHO HEARING DATE: September 20, 2021	CASE REVIEWER: Steve Beachy, AICP

REQUEST: The applicant is requesting multiple variances for an existing home, fence, accessory structures and accessory dwelling on property zoned AS-1.

VARIANCE(S):

Fence Height

Per LDC Section 6.07.02.C.2, fences in agricultural zoning districts are regulated in the same manner as fences in residential districts, except under certain circumstances that do not apply to this case. Per LDC Section 6.07.02.C.1.A, fences over four feet in height shall not be allowed within a required front yard that functions as a front yard. The applicant requests a 2-foot increase to the permitted fence height to allow an existing 6-foot-high fence in the front yard along Timber Ridge Drive.

Accessory Structures Front and Side Yards (Containers)

The applicant has two shipping containers located in the front yard and is seeking to permit them as accessory structures if granted a variance for their location in the front yard. Per LDC Sec. 6.11.04.C.1, accessory structures shall not be erected in any required front yard except as outlined under certain circumstances that do not apply to this case below. Accessory structures shall be permitted in front yards at twice the depth of the required front yard, or 50 feet, whichever is less. Additionally, such structures shall not occupy required side yards. Per LDC Section 6.01.01, a minimum front yard setback of 50 feet and minimum side yard setback of 15 feet is required in the AS-1 district. The applicant requests:

- A 43.5-foot reduction to the required 50-foot front setback to allow a setback of 6.5 feet from the east (front) lot line; and,
- A 13-foot reduction to the required 15-foot side setback to allow a setback of 2 feet from the east lot line.

Side Yard Setback (Primary Dwelling) – South Side

Per LDC Sec. 6.01.01, a minimum side yard setback of 15 feet is required in the AS-1 district. The primary dwelling on the applicant has an attached porch with a covered roof that encroaches into the required side yard on the south side of the lot.

• The applicant requests a 3-foot reduction to the required 15-foot setback to allow a setback of 12 feet from the south lot line.

Accessory Dwelling Rear Yard Setback

Per LDC Sec. 6.11.02.E, accessory dwellings shall meet principal building setbacks. Per LDC Section 6.01.01, a minimum rear yard setback of 50 feet is required in the AS-1 district. The subject lot has an accessory dwelling that encroaches into the required rear yard. The applicant requests a 12.8-foot reduction to the required rear setback to allow a setback of 37.2 feet from the west lot line.

APPLICATION: VAR 20-0938

LUHO HEARING DATE: September 20, 2021 CASE REVIEWER: Steve Beachy, AICP

FINDINGS:

• Per LDC Section 6.07.02.A.2, no fence exceeding two and one-half feet shall be constructed within the visibility triangle at roadway intersections as described in LDC Section 6.04.03.F and includes the intersections of streets and driveways. The applicant has been informed that the fence height, design and location must comply with these visibility requirements.

- Per LDC Section 6.01.01, a minimum lot size of 1 acre and lot width of 150 feet is required in the AS-1 district. The subject parcel is approximately .54 acres in size 105 feet wide and therefore is non-conforming. However, the subject parcel has been determined to be a Legal Nonconforming Lot per Nonconforming Lot Determination NCL 21-1100 in the case file for this application.
- The subject parcel is the subject of a Code Enforcement Case # CE2007026 which sites multiple violations and is included in the case file for this this application.
- The applicant is aware that if granted the variance for the accessory structure in the front yard, they would be required to seek a building permit and comply with all requirements as determined by the building department for converting shipping containers into an accessory structure(s). If building permits are not obtained for the containers, they constitute open storage per the Land Development Code and must be removed from the property. Alternatively, the containers must be enclosed in an accessory structure which has a roof and at least three sides. However, the present location of the containers would require approval of setback variance for the accessory structure in a separate application from the subject request in the future.
- Per LDC Section 6.11.02.B, a residential lot with an accessory dwelling shall have a principal detached single-family dwelling that is owner occupied. The applicant has advised staff that he resides in the principal dwelling on the property and has submitted a driver's license into the case record which reflects the subject property's address.

DISCLAIMER:

The variance listed above is based on the information provided in the application by the applicant. Additional variances may be needed after the site has applied for development permits. The granting of these variances does not obviate the applicant or property owner from attaining all additional required approvals including but not limited to: subdivision or site development approvals and building permit approvals.

VARIANCE(S) REQUESTED

(11648 Timber Ridge Drive)

- 1. Request a variance to fence requirements: increase fence height 2 feet above the maximum of 4 feet to a height of 6 feet in the front yard (Fences over four feet in height shall not be allowed within the required front yards (Sec.6.07.02.C.1.a.)
- 2. Request a variance to allow accessory structures in the front yard: (Sec.6.11.04) states, "accessory structures shall not be erected in any required front yard"
- 3. Request a side yard setback variance for attached porch structure in south side yard: 12' setback instead of 15', encroaching 3' into the required setback (Sec.6.01.01) AS-1 District Schedule of Area, Height, Bulk and Placement Regulations
- 4. Request a rear yard setback variance for accessory dwelling located west of the main dwelling: 37.2 feet instead of 50', encroaching 12.8' into the required setback (Sec.6.01.01) AS-1 District Schedule of Area, Height, Bulk and Placement Regulations

RE: VAR 21-0938; Specific Setback Variances for Accessory Structures in the Front Yard

Dear Stephen,

Per our communications, I am transmitting additional specificity to the second type of variance requested in the subject application regarding setbacks for accessory structures in the front yard. Please see the attached request.

Please call should you need to discuss or need additional information.

Thank you.

John
