5.0 IMPLEMENTATION RECOMMENDATIONS

5.1 Compatibility

The proposed rezoning does not increase the density and the property will remain a residential use. The project will be required to meet all RMC-12 development standards, which includes setbacks and height. Additionally, as there are other RMC-12 zoned properties within the area – including RMC-12 found to the southeast on Orient Road and RMC-12 found to the northeast also on Orient Road.

PROJECT SUMMARY AND ANALYSIS

The applicant is requesting to rezone one parcel totaling +/- .29 acres from Residential Duplex Conventional – 12 (RDC-12) to Residential Multi-Family Conventional – 12 (RMC-12). The site is located +/- 58ft north of the intersection of Baldwin Ave. and Orient Rd. The Future Land Use designation of the site is Residential – 12 (RES-12).

Trip Generation Analysis

In accordance with the Development Review Procedures Manual (DRPM), no transportation analysis was required to process the proposed rezoning. Staff has prepared a comparison of the trips potentially generated under the existing and proposed zoning designations, utilizing a generalized worst-case scenario. Data presented below is based on the Institute of Transportation Engineer's Trip Generation Manual, 12th Edition.

Approved Uses:

Zoning, Land Use/Size	24 Hour Two-Way Volume	Total Peak Hour Trips	
		AM	PM
RDC-12, Single Family Detached (ITE 210) 3 Units	27	2	3

Proposed Uses:

Zoning, Land Use/Size	24 Hour Two-Way Volume	Total Peak Hour Trips	
		AM	PM
RMC-12, Single Family Detached (ITE 210) 3 Units	27	2	3

Trip Generation Difference:

		AM	PM
Difference	+0	+0	+0

TRANSPORTATION INFRASTRUCTURE SERVING THE SITE

The site has frontage on Orient Rd., a 2-lane, undivided, substandard, /urban county-maintained collector roadway. The roadway is characterized by +/- 11-foot-wide travel lanes, no bike lanes on either side of the roadway within the vicinity of the project, +/- 5-foot-wide sidewalks on the eastern side of the roadway, and within +/- 70ft of the right of way. Pursuant to the Hillsborough County Corridor Preservation Plan, Orient Rd. has been designated for a future four-lane enhancement.

SITE ACCESS

It is anticipated that the site will have access to Orient Rd.

Generally, for projects with a Euclidean zoning designation, a project's potential transportation impacts, site access requirements, substandard road issues, site layout and design, other issues related to project access, and compliance with other applicable Hillsborough County Comprehensive Plan, Hillsborough County Land Development Code (LDC) and Hillsborough County Transportation Technical Manual (TTM) requirements are evaluated at the time of plat/site/construction plan review. Given the limited information available as is typical of all Euclidean zoned properties and/or non-regulatory nature of any conceptual plans provided, Transportation Review Section staff did review the proposed rezoning to determine (to the best of our ability) whether the zoning is generally consistent with applicable policies of the Hillsborough County Comprehensive Plan, LDC and TTM (e.g. to ensure that the proposed rezoning would not result in a violation of the requirement whereby access to commercial properties cannot be taken through residentially or agriculturally zoned properties), and/or whether, in staff's opinion, some reasonable level of development under the proposed zoning designation could be supported based on current access management standards (e.g. to ensure that a project was not seeking an intensification of a parcel which cannot meet minimum access spacing requirements).

Staff notes that the developer/property owner will be required to comply with all Comprehensive Plan, LDC, TTM and other applicable rules and regulations at the time of plat/site/construction plan review. As such, staff have no objection to this request.

Staff notes that any plans or graphics presented as a part of a Euclidean zoning case are non-binding and will have no regulatory value at the time of plat/site/construction plan review.

West	Residential-12 + Research Corporate Park	RDC-12 + RMC-12 + RSC-6	Single Family + Vacant Land + Two Family

Staff Analysis of Goals, Objectives and Policies:

The 0.29 ± acre subject site is west of Orient Road and north of Baldwin Avenue. The subject site is in the Urban Service Area (USA) and is within the limits of the East Lake-Orient Park Community Plan. The applicant is requesting a rezoning from Residential Duplex Conventional (RDC-12) to Residential Multi-family Conventional (RMC-12) to allow a 3-unit triplex or 4-unit quadplex.

The subject site is located within the Urban Service Area, where Objective 1.1 of the Future Land Use Section (FLUS) directs 80 percent of the County’s anticipated growth. Consistent with this objective, FLUS Policy 3.1.3 requires that new development be compatible with surrounding uses, recognizing that “compatibility does not mean ‘the same as,’ but rather refers to the sensitivity of development proposals in preserving the character of existing development.” The subject property is currently developed with single-family residential uses. Surrounding land uses consist primarily of single-family residential development and vacant land on all sides. Two family residential uses are located to the east across Orient Road and to the west across North 72nd Street. Collectively, these existing land use patterns establish a predominantly residential context that supports the proposed development. The proposal is compatible with the surrounding area and consistent with FLUS Objective 1.1 and FLUS Policy 3.1.3.

FLUS Objective 2.2 and Policy 2.2.1 establish the Future Land Use Map (FLUM) as well as the allowable range of uses for each Future Land Use category. The character of each land use category is defined by building type, residential density, functional use, and the physical composition of the land. The integration of these factors sets the general atmosphere and character of each land use category. Each category has a range of potentially permissible uses, which are not exhaustive, but are intended to be illustrative of the character of uses permitted within the land use designation. The Residential-12 (RES-12) Future Land Use

category allows for the consideration of agricultural, residential, neighborhood commercial, office uses, multi-purpose projects and mixed-use development. The RES-12 Land Use category allows for a maximum of 12 dwelling units per gross acre (du/ga). With 0.29 acres, the subject site can be considered for a maximum of 3 dwelling units (0.29 acres x 12 du/acre = 3.48 or 3 dwelling units). The desired possible 4-unit quadplex would not be permitted. The proposed rezoning is consistent with the uses allowed under the existing Residential-12 Future Land Use category, and the request is therefore consistent with FLUS Goal 2 and Objective 2.1.

The Comprehensive Plan requires that all development meet or exceed the land development regulations in Hillsborough County (FLUS Objective 4.1, FLUS Policy 4.1.1 and FLUS Policy 4.1.2). However, at the time of uploading this report, Transportation comments were not yet available in Optix and thus were not taken into consideration for analysis of this request.

The proposal satisfies the intent of FLUS Objective 4.4 and FLUS Policy 4.4.1, which require new development to be compatible with the surrounding neighborhood. In this case, single-family, two-family and vacant land are prominently present in the immediate vicinity. FLUS Policy 4.4.1 specifies that any increase in density or intensity must be compatible with existing, proposed, or planned development, and that development or redevelopment should be integrated with adjacent uses through the establishment of like or complementary uses, mitigation of adverse impacts, provision of transportation and pedestrian connections, and a gradual transition of intensity. The proposed rezoning aligns with these principles, complements the surrounding development pattern, and is consistent with FLUS Objective 4.4 and FLUS Policy 4.4.1.

FLUS Objective 3.2 and Policy 3.2.4 require that all adopted community plans within the County be consistent with the Comprehensive Plan. The subject property is located within the boundaries of the East Lake-Orient Park Community Plan. A primary objective of this Plan is to expand and diversify housing opportunities in order to support sustainable, livable neighborhoods. The proposed rezoning from RDC-12 to RMC-12 to permit residential units is consistent with the intent of FLUS Objective 3.2 and Policy 3.2.4, as well as the goals and policies of the East Lake-Orient Park Community Plan within the Livable Communities Element. The request advances the Plan's objective of fostering compatible residential development and enhancing housing availability within the community.

Overall, staff finds that the proposed rezoning is compatible with the existing development pattern found within the surrounding area and supports the vision of the East Lake-Orient Park Community Plan. The proposed rezoning would allow for development that is consistent with the Goals, Objectives, and Policies of the *Unincorporated Hillsborough County Comprehensive Plan*.

Recommendation

Based upon the above considerations and the following Goals, Objectives and Policies, Planning Commission staff finds the proposed rezoning **CONSISTENT** with the *Unincorporated Hillsborough County Comprehensive Plan*, subject to the restrictions proposed by the Development Services Department.

FUTURE LAND USE SECTION

Urban Service Area

Objective 1.1: Hillsborough County shall pro-actively direct new growth into the urban service area with the goal that at least 80% of all population growth will occur within the USA during the planning horizon of this Plan. Within the Urban Service Area, Hillsborough County will not impede agriculture. Building permit activity and other similar measures will be used to evaluate this objective.

Compatibility

Policy 3.1.3: Compatibility is defined as the characteristics of different uses or activities or design which allow them to be located near or adjacent to each other in harmony. Some elements affecting compatibility include the following: height, scale, mass and bulk of structures, pedestrian or vehicular traffic, circulation, access and parking impacts, landscaping, lighting, noise, odor and architecture. Compatibility does not mean “the same as.” Rather, it refers to the sensitivity of development proposals in maintaining the character of existing development.

Land Use Categories

Objective 2.2: The Future Land Use Map (FLUM) shall identify Land Use Categories summarized in the table below, that establish permitted land uses and maximum densities and intensities.

Policy 2.2.1: The character of each land use category is defined by building type, residential density, functional use, and the physical composition of the land. The integration of these factors sets the general atmosphere and character of each land use category. Each category has a range of potentially permissible uses which are not exhaustive, but are intended to be illustrative of the character of uses permitted within the land use designation. Not all of those potential uses are routinely acceptable anywhere within that land use category.

Community Planning

Objective 3.2: Hillsborough County is comprised of many diverse communities and neighborhoods. The comprehensive plan is effective in providing an overall growth management strategy for development within the entire County. Strategies shall be developed that ensure the long-range viability of its communities through a community and special area studies planning effort.

Relationship to Land Development Regulations

Policy 3.2.4: The County shall assist the Hillsborough County City-County Planning Commission in developing community plans for each planning area that are consistent with and further the Goals, Objectives and Policies of the Comprehensive Plan. The community plans will be adopted as part of the Comprehensive Plan in the Livable Communities Element. These community specific policies will apply in guiding the development of the community. Additional policies regarding community planning and the adopted community plans can be found in the Livable Communities Element

Relationship to Land Development Regulations

Objective 4.1: All existing and future land development regulations shall be made consistent with the Comprehensive Plan, and all development approvals shall be consistent with those development regulations as per the timeframe provided for within Chapter 163, Florida Statutes. Whenever feasible and

consistent with Comprehensive Plan policies, land development regulations shall be designed to provide flexible, alternative solutions to problems.

Policy 4.1.1: *Each land use plan category shall have a set of zoning districts that may be permitted within that land use plan category, and development shall not be approved for zoning that is inconsistent with the plan.*

Policy 4.1.2: *Developments must meet or exceed the requirements of all land development regulations as established and adopted by Hillsborough County, the state of Florida and the federal government unless such requirements have been previously waived by those governmental bodies.*

Neighborhood/Community Development

Objective 4.4: Neighborhood Protection – *The neighborhood is the functional unit of community development. There is a need to protect existing, neighborhoods and communities and those that will emerge in the future. To preserve, protect, and enhance neighborhoods and communities, all new development must conform to the following policies.*

Policy 4.4.1: *Development and redevelopment shall be integrated with the adjacent land uses through:*

- a) the creation of like uses; or*
- b) creation of complementary uses; or*
- c) mitigation of adverse impacts; and*
- d) transportation/pedestrian connections*

LIVABLE COMMUNITIES ELEMENT: EAST LAKE-ORIENT PARK COMMUNITY PLAN

Housing – *Create housing opportunities.*

- *New residential developments that provide home ownership are preferred.*
