County Florida**

LAND USE HEARING OFFICER VARIANCE REPORT

APPLICATION NUMBER: VAR 21-0566	
LUHO HEARING DATE: May 24, 2021	CASE REVIEWER: Tania Chapela

REQUEST: The applicant is requesting a variance for a proposed detached garage on a single-family lot zoned ASC-1

VARIANCE(S):

Per LDC Section 6.11.04.C.1, accessory structures shall not be erected in any required front yard with some exceptions that are not applicable to this request. Accessory structures shall be permitted in front yards at twice the depth of the required front yard, or 50 feet, whichever is less. Per LDC Section 6.01.01, the required minimum front yard setback for property zoned ASC-1 is 50 feet. Therefore, the required setback for the proposed garage is 50 feet. The applicant requests a 5-foot reduction to the required setback to allow a front setback of 45 feet from the west property line.

FINDINGS:

- According to the applicant, the proposed garage will not exceed 15 feet height.
- Per the submitted survey, the existing single-family home on the subject property encroaches into the required 15-foot side yard on the north side of the parcel. However, the applicant has elected to not include the setback encroachment in the subject variance application.

DISCLAIMER:

The variance listed above is based on the information provided in the application by the applicant. Additional variances may be needed after the site has applied for development permits. The granting of these variances does not obviate the applicant or property owner from attaining all additional required approvals including but not limited to: subdivision or site development approvals and building permit approvals.

VARIANCE REQUEST

1. Project Narrative: In the space below describe the variance including any history and/or related facts that may be helpful in understanding the request. This explanation shall also specifically identify what is being requested (e.g. *Variance of 10 feet from the required rear yard setback of 25 feet resulting in a rear yard of 15 feet*). If additional space is needed, please attach extra pages to this application.

A variance is being requested to encroach into the front setback by 5 feet in order to construct a garage on the property. Due to the location of a floodway at the rear of the property, the garage cannot be built on the back of the property and the proposed location is the only location on which the garage can be built. However, this would require the requested encroachment.

2. A Variance is requested from the following Section(s) of the Hillsborough County Land Development Code:

Section 6.01.01

ADDITIONAL INFORMATION

1. Have you been cited by Hillsborough County Code Enforcement? No Yes _____
If yes, you must submit a copy of the Citation with this Application.
2. Do you have any other applications filed with Hillsborough County that are related to the subject property?
No Yes _____ If yes, please indicate the nature of the application and the case numbers assigned to the application(s): _____
3. Is this a request for a wetland setback variance? No Yes _____
If yes, you must complete the *Wetland Setback Memorandum* and all required information must be included with this Application Packet (Attachment A).
4. Please indicate the existing or proposed utilities for the subject property:
Public Water _____ Public Wastewater _____ Private Well Septic Tank
5. Is the variance to allow a third lot on well and/or septic or non-residential development with an intensity of three ERC's? No Yes _____ If yes, you must submit a final determination of the "Water, Wastewater, and/or Reclaimed Water – Service Application Conditional Approval – Reservation of Capacity" prior to your public hearing (form may be obtained from **19th floor County Center**).

VARIANCE CRITERIA RESPONSE

You must provide a response to each of the following questions. If additional space is needed, please attach extra pages to this application.

1. Explain how the alleged hardships or practical difficulties are unique and singular to the subject property and are not those suffered in common with other property similarly located?

The encroachment is needed due to the location of a floodway running along the rear of the Property at a slant, close enough to the front setback line causing this property to have an odd shape, which is unique to this property

2. Describe how the literal requirements of the Land Development Code (LDC) would deprive you of rights commonly enjoyed by other properties in the same district and area under the terms of the LDC.

Most other properties have the buildable space within their property to construct a garage. This property does not due to the odd shape of the property.

3. Explain how the variance, if allowed, will not substantially interfere with or injure the rights of others whose property would be affected by allowance of the variance.

The variance, if granted, will not have any affect on any other property owners, as there are no property owners living within a close proximity to the proposed garage.

4. Explain how the variance is in harmony with and serves the general intent and purpose of the LDC and the Comprehensive Plan (refer to Section 1.02.02 and 1.02.03 of the LDC for description of intent/purpose).

The small encroachment into the front setback would allow the improvement on the property to be efficient in terms of time and expense, effective in terms of preserving natural resources by avoiding impact on the floodway, and will be equitable as it does not affect the rights of other property owners.

5. Explain how the situation sought to be relieved by the variance does not result from an illegal act or result from the actions of the applicant, resulting in a self-imposed hardship.

The property owner has taken no illegal actions nor other actions that results in the hardship. The hardship is solely created by the odd shape of the property due to the front setback line and the slanted floodway along the rear of the property.

6. Explain how allowing the variance will result in substantial justice being done, considering both the public benefits intended to be secured by the LDC and the individual hardships that will be suffered by a failure to grant a variance.

Granting the variance will allow the property owner to construct a garage on the property, which many other property owners have on their property, with no impact on the surrounding properties, thus allowing justice to be done.
