LUHO Hearing Date: November 17, 2025
Case Reviewer: Jared Follin

**Hillsborough
County Florida**

Development Services Department

Applicant: Laritza Lopez **Zoning:** RSC-6
Address/Location: 4525 Tarpon Drive, Tampa; Folio: 39079.0000

Request Summary:

The applicant is requesting a variance to accessory structure standards to allow an existing accessory structure to occupy more than 20 percent of the required rear yard.

Requested Variances:

LDC Section:	LDC Requirement:	Variance:	Result:
6.11.04.C.3	Accessory structures may occupy required rear yards provided that such structures do not occupy more than 20 percent of the required rear yard and are not closer than three feet to any rear lot line.	13 percent	33 percent of required rear yard occupied by accessory structure

Findings:

A code compliance case, HC-CMP-24-0000480, was issued on November 15, 2024, for unpermitted construction of the subject accessory structure.

Application No: 25-1340

Project Description (Variance Request)

1. In the space below describe the variance including any history and/or related facts that may be helpful in understanding the request. This explanation shall also specifically identify what is being requested (e.g. Variance of 10 feet from the required rear yard setback of 25 feet resulting in a rear yard of 15 feet). If additional space is needed, please attach extra pages to this application.

Mr Peter Gray recommended to apply for the variance

Description:

Accessory Structure exceeds the allowable area encroachment into the rear yard setback. Per LDC Section 6.11.04.C.03, the accessory structure shall may be erected in required rear yard/setback as long as they do not occupy more than 20% of the required Rear Yard "AREA", including other structures in this Required Rear Yard "AREA". Note: the minimum setback would be 3'-0" to rear property line.

The applicant is advised to contact a zoning counselor at 813-272-5600 (option 3) or ZoningHelp@hcfi.gov for further assistance.

Need a total of 33% rather than 20% maximum

2. A Variance is requested from the following Section(s) of the Hillsborough County Land Development Code:

Variance request to lot development standards and accessory structure standards

Additional Information

1. Have you been cited by Hillsborough County Code Enforcement? ☐ No ☒ Yes
If yes, you must submit a copy of the Citation with this Application.
2. Do you have any other applications filed with Hillsborough County that are related to the subject property?
☐ No ☒ Yes If yes, please indicate the nature of the application and the case numbers assigned to the application (s): HC-BLD-24-0067132
3. Is this a request for a wetland setback variance? ☒ No ☐ Yes
If yes, you must complete the Wetland Setback Memorandum and all required information must be included with this Application Packet.
4. Please indicate the existing or proposed utilities for the subject property:
☒ Public Water ☒ Public Wastewater ☐ Private Well ☐ Septic Tank
5. Is the variance to allow a third lot on well or non-residential development with an intensity of three ERC's?
☒ No ☐ Yes If yes, you must submit a final determination of the "Water, Wastewater, and/or Re-claimed Water – Service Application Conditional Approval – Reservation of Capacity" prior to your public hearing

Variance Criteria Response

1. Explain how the alleged hardships or practical difficulties are unique and singular to the subject property and are not those suffered in common with other property similarly located?

While other nearby properties have larger or more regularly shaped rear yard setback areas, allowing them to comply with the 20% coverage requirement, this property configuring makes compliance significantly more difficult. In effect, the 20% limit here translates to only about 240 sq.ft. of allowable coverage—far less functional than the other lots in the district effectively enjoy.

2. Describe how the literal requirements of the Land Development Code (LDC) would deprive you of rights commonly enjoyed by other properties in the same district and area under the terms of the LDC.

A 20% coverage limitation would deprive me of rights commonly enjoyed by others in the district. This parcel compliance with the 20% standard equates to just 240 sq feet of usable rear yard coverage than the functional space available to other properties with larger setback areas. Enforcing the literal requirement would therefore prevent the property owner from enjoying a reasonable residential use that is common throughout the neighborhood.

3. Explain how the variance, if allowed, will not substantially interfere with or injure the rights of others whose property would be affected by allowance of the variance.

This variance will not compromise the spirit of the Zoning code, as sufficient open space and setback remain in place to protect neighboring properties.

4. Explain how the variance is in harmony with and serves the general intent and purpose of the LDC and the Comprehensive Plan (refer to Section 1.02.02 and 1.02.03 of the LDC for description of intent/purpose).

Granting the variance will not be injurious to the neighborhood or detrimental to the public welfare. The office structure is residential in nature, modest in scale, and compatible with surrounding uses. The spirit and intent of the Land Development Code—balancing functional property use with protection of community character—remain upheld.

5. Explain how the situation sought to be relieved by the variance does not result from an illegal act or result from the actions of the applicant, resulting in a self-imposed hardship.

The existing office structure encroachment of approximately 400 square feet into the rear yard setback is not the result of actions taken in bad faith by the applicant. Rather, the difficulty arises solely from the unique dimensional relationship between the lot configuration and the rear yard setback definition. The condition is not self-created.

6. Explain how allowing the variance will result in substantial justice being done, considering both the public benefits intended to be secured by the LDC and the individual hardships that will be suffered by a failure to grant a variance.

The public benefits remain fully secured: adequate open space is preserve, drainage is not impacted, and neighboring properties continue to enjoy privacy, access to light and freedom from encroachment.
