Rezoning Application: PD 22-1390

Zoning Hearing Master Date: June 20, 2023

BOCC Land Use Meeting Date: August 8, 2023

Development Services Department

1.0 APPLICATION SUMMARY

Applicant: GTIS Metro DG LLC

FLU Category: RES-4

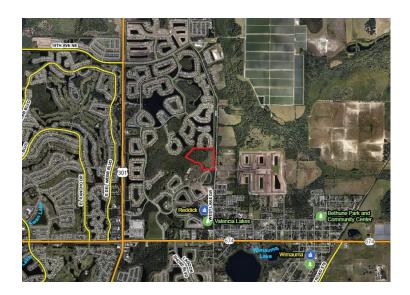

Service Area: Urban

Site Acreage: 36 +/-

Community Plan Area: Sun City Center

Overlay: None

Request: Rezoning from PD to PD

Introduction Summary:

The applicant seeks to rezone a portion of folio 78011.7398 from PD 89-0097 (as most recently modified by PRS 23-0089) to PD 22-1390 to allow for the development of 100 single-family detached units. PD 89-0097 is approved for residential and commercial uses at the northeast corner of US Hwy 301 and SR 674. This application accompanies PRS 23-0210 to recognize the removal of this land from PD 89-0097.

Additionally, this application accompanies DRI DO #23-0195 to remove the subject area from DRI #194 (DG Farms) as most recently modified by DRI DO #18-1053 (Resolution #18-131).

2.0 LAND USE MAP SET AND SUMMARY DATA

2.1 Vicinity Map

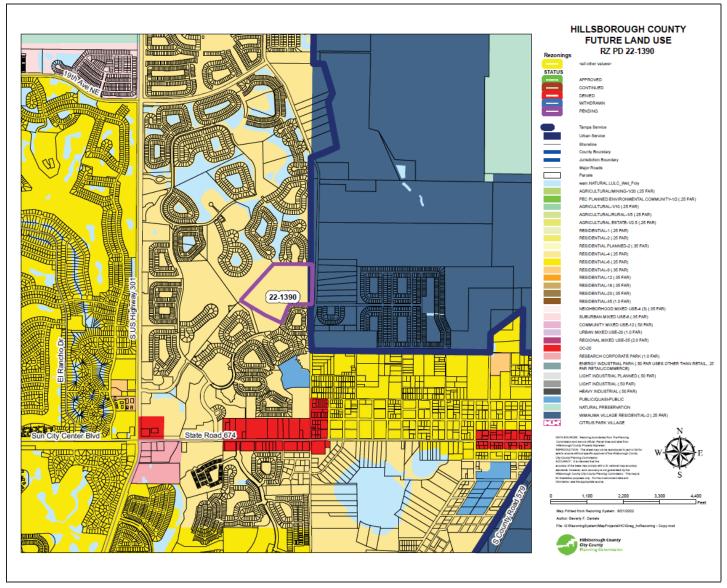

Context of Surrounding Area:

The site is located on the west side of West Lake Drive, north of SR 674, in the Sun City Center community. Interstate 75 is located approximately 3.8 miles to the west. The subject site is currently within a larger master planned community. The general area is developed primarily with single-family uses with office and commercial uses found on SR 674. Large tracts of agriculturally zoned properties are found further west/northwest from the area.

2.0 LAND USE MAP SET AND SUMMARY DATA

2.2 Future Land Use Map

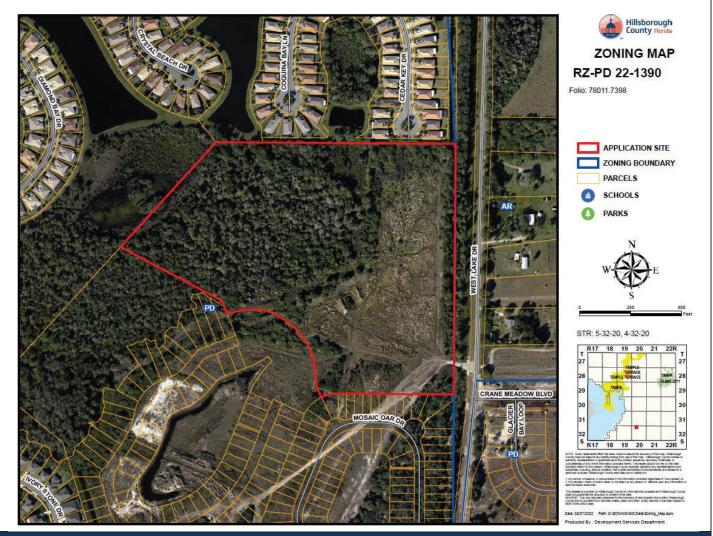

Subject Site Future Land Use Category:	RES-4
Maximum Density/F.A.R.:	4 units per acre
Typical Uses:	Residential, suburban scale neighborhood commercial, office uses, multi- purpose projects and mixed use development.

5.0 IMPLEMENTATION RECOMMENDATIONS

5.1 Compatibility

The applicant proposes a residential project within an area currently approved for residential uses. Uses found to the north, south and west are developed with residential uses with permit single family detached or attached units. The proposed development standards are comparable to the currently approved development standards and those of the areas to the north, south and west. Access is proposed within the southwest area of the project, internal to the existing PD. No access to West Lake Drive is currently approved or proposed by this project.

The western and northern areas of the proposed PD will contain no residential development due to the presence of wetlands, mapped Significant Wildlife Habitat and upland conservation areas.

Properties to the east are separated by West Lake Drive (a 2-lane roadway within a 65-77 foot wide right-of-way). Rear yards abutting this PD boundary will be a minimum of 20 feet, with the provision of a 6 ft high PVC fence. Homes located on the east side of West Lake Drive are located 100 feet or more from the West Lake Drive right-of-way.

Given the above factors, staff finds the project to be compatible with the surrounding area.

5.2 Recommendation

Approvable, subject to proposed conditions.

APPLICATION NUMBER:	PD 22-1390	
ZHM HEARING DATE:	June 20, 2323	
BOCC LUM MEETING DATE:	August 8, 2023	Case Reviewer: Michelle Heinrich, AICP

6.0 PROPOSED CONDITIONS

- 1. Maximum building coverage to be removed for both lot types.
- 2. Add a note that reads "Sidewalks to be provided per the Hillsborough County Land Development Code."

Approval - Approval of the request, subject to the conditions listed below, is based on the general site plan submitted April 25, 2023.

- 1. Development shall be limited to a maximum of 100 single-family detached and/or single-family attached residential units. Uses shall be developed where generally shown on the general site plan.
- 2. Single-Family detached residential units shall be developed in accordance with the following:

Minimum lot size:4,000 sfMinimum lot width:40 ftMinimum front yard setback:20 ftMinimum front yard functioning as a side yard:15 ft*Minimum rear yard setback:15 ftMinimum side yard setback:5 ft

Maximum building height: 35 ft/2-stories

3. Single-Family attached residential units shall be developed in accordance with the following:

Minimum lot size:1,900 sfMinimum lot width:20 ftMinimum front yard setback:20 ftMinimum front yard functioning as a side yard:15 ft*Minimum rear yard setback:15 ft

Minimum side yard setback: 7.5 ft (end units to provide minimum building

separation of 15 ft)

Maximum building height: 35 ft/2-stories

- 4. A 6 foot high PVC fence shall be provided along the eastern, southern, and southeastern PD boundaries, as depicted on the general site plan.
- 5. The proposed location of the 7.25 acres of Upland Conservation Area as shown on the plans submitted on April 24, 2023, is acceptable with the exception of the area located between proposed lots. This square footage will need to be incorporated into the main conservation area to maintain the minimum acreage requirement for conservation.

Additionally, recent aerial images indicate that a portion of the mapped Significant Wildlife Habitat area on this site has been disturbed. This area will either need to be restored, or will be subtracted from the acreage that will credit toward the required acreage to be preserved. This will be determined during the construction plan review, and may result in additional adjustments to the location of the Upland Conservation Area and the number and location of proposed lots.

^{*}This yard shall be increased to a minimum of 20 ft should this yard provide garage access to a roadway.

^{*}This yard shall be increased to a minimum of 20 ft should this yard provide garage access to a roadway.

APPLICATION NUMBER:	PD 22-1390
ZHM HEARING DATE:	June 20, 2323

BOCC LUM MEETING DATE: August 8, 2023 Case Reviewer: Michelle Heinrich, AICP

6. Wetlands or other surface waters are considered Environmentally Sensitive Areas and are subject to Conservation Area and Preservation Area setbacks. A minimum setback must be maintained around these areas which shall be designated on all future plan submittals. Only items explicitly stated in the condition of approval or items allowed per the LDC may be placed within the wetland setback. Proposed land alterations are restricted within the wetland setback areas.

- 7. Approval of this petition by Hillsborough County does not constitute a guarantee that Natural Resources approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impacts to trees, natural plant communities or wildlife habitat, and does not grant any implied or vested right to environmental approvals.
- 8. The construction and location of any proposed environmental impacts are not approved by this correspondence, but shall be reviewed by Natural Resources staff through the site and subdivision development plan process pursuant to the Land Development Code.
- 9. Approval of this zoning petition by Hillsborough County does not constitute a guarantee that the Environmental Protection Commission of Hillsborough County (EPC) approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impact to wetlands, and does not grant any implied or vested right to environmental approvals.
- 10. The construction and location of any proposed wetland impacts are not approved by this correspondence, but shall be reviewed by EPC staff under separate application pursuant to the EPC Wetlands rule detailed in Chapter 1-11, Rules of the EPC, (Chapter 1-11) to determine whether such impacts are necessary to accomplish reasonable use of the subject property.
- 11. Prior to the issuance of any building or land alteration permits or other development, the approved wetland / other surface water (OSW) line must be incorporated into the site plan. The wetland/ OSW line must appear on all site plans, labeled as "EPC Wetland Line", and the wetland must be labeled as "Wetland Conservation Area" pursuant to the Hillsborough County Land Development Code (LDC).
- 12. Final design of buildings, stormwater retention areas, and ingress/egresses are subject to change pending formal agency jurisdictional determinations of wetland and other surface water boundaries and approval by the appropriate regulatory agencies.
- 13. Prior to or concurrent with the initial phase of development, the developer must extend the existing northbound right turn lane on US Hwy 301 to FDOT standards, subject to FDOT approval.
- 14. Notwithstanding anything herein these conditions or on the PD site plan to the contrary, bicycle and pedestrian access may be permitted anywhere along the project boundaries.
- 15. In accordance with LDC Section 5.03.07.C, the certified PD general site plan shall expire for the internal transportation network and external access points, as well as for any conditions related to the internal transportation network and external access points, if site construction plans, or equivalent thereof, have not been approved for all or part of the subject Planned Development within 5 years of the effective date of the PD unless an extension is granted as provided in the LDC. Upon expiration, re-certification of the PD General Site Plan shall be required in accordance with provisions set forth in LDC Section 5.03.07.C.

APPLICATION NUMBER:	PD 22-1390	
ZHM HEARING DATE:	June 20, 2323	
BOCC LUM MEETING DATE:	August 8, 2023	Case Reviewer: Michelle Heinrich, AICP

16. If the notes and/or graphics on the site plan are in conflict with specific zoning conditions and/or the LDC regulations, the more restrictive regulation shall apply, unless specifically conditioned otherwise. References to development standards of the LDC in the above stated conditions shall be interpreted as the regulations in effect at the time of preliminary site plan/plat approval.

SITE, SUBDIVISION AND BUILDING CONSTRUCTION IN ACCORDANCE WITH HILLSBOROUGH COUNTY SITE DEVELOPMENT PLAN & BUILDING REVIEW AND APPROVAL.

Approval of this re-zoning petition by Hillsborough County does not constitute a guarantee that the project will receive approvals/permits necessary for site development as proposed will be issued, nor does it imply that other required permits needed for site development or building construction are being waived or otherwise approved. The project will be required to comply with the Site Development Plan Review approval process in addition to obtain all necessary building permits for on-site structures.

APPLICATION NUMBER: PD 22-1390
ZHM HEARING DATE: June 20, 2323

BOCC LUM MEETING DATE: August 8, 2023 Case Reviewer: Michelle Heinrich, AICP

7.0 ADDITIONAL INFORMATION AND/OR GRAPHICS

This PD rezoning application is a companion application to PRS 23-0210. PRS 23-0210 recognizes the removal of the subject acreage out of PD 89-0097. Staff's analysis of the request finds removal of the acreage from PD 89-0097 will not impact PD 89-0097's ability to develop the project under its current entitlements.

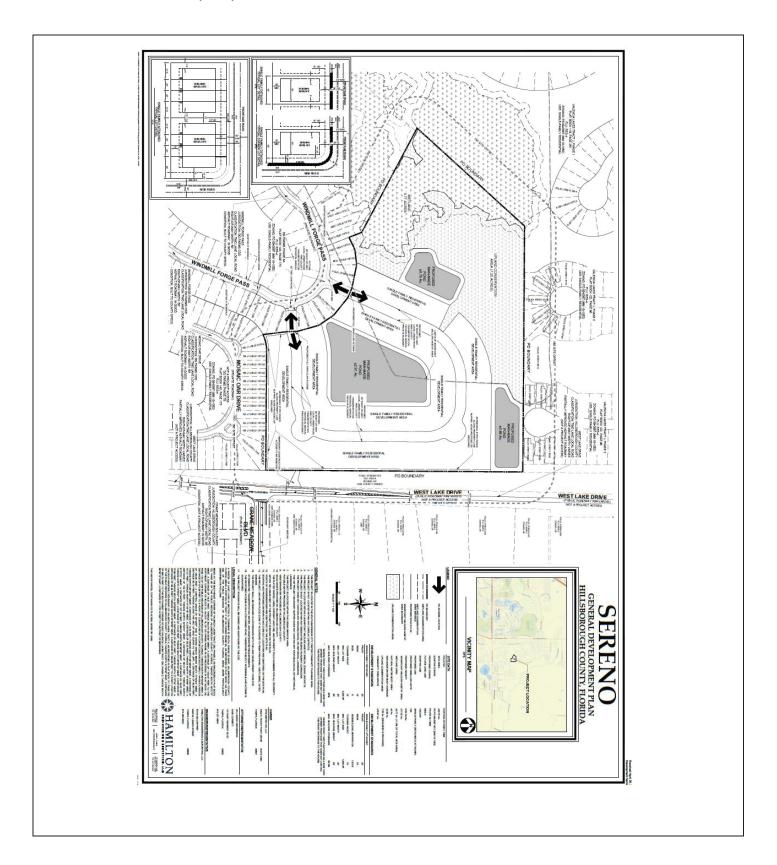

PD 89-0097 ("DG Farms") is a 1,384 acre project permitting residential, commercial, office and recreational uses. This area is also subject to DRI #194 (DG Farms). Residential uses are permitted in Parcel B, which is currently a maximum size of 1,320 acres. This PD seeks to remove 32.78 acres from PD 89-0097, specifically within Parcel B. This will reduce the overall PD acreage to 1,351.22 and Parcel B's maximum acreage to 1,287.22 acres. The maximum number of residential units permitted in the PD is 2,848 units. The maximum number of residential units permitted in the DRI is 4,228 units. No existing entitlements are proposed to be removed from PD 89-0097. The site is within the RES-4 FLU category.

The current approvals result in a density of 2.15 (2,848 units/1,320 acres). Under the maximum DRI entitlements, the density is 3.20 (4,228 units / 1,320 acres). The removal of 32.78 acres will result in a density of 2.2 (2,848 units / 1,287.22 acres). Using the maximum DRI entitlements, the density achieved is 3.28 (4,228 units / 1,287.22 acres). These density scenarios do not exceed the maximum of 4 units per acre provided by the FLU category.

Additionally, the required open space for PD 89-0087 (55 acres) will be reduced due to a portion of the required open space (1.7 acres) being within the new PD. Within the new PD, this area will remain undeveloped and preserved.

AGENCY REVIEW COMMENT SHEET

TO: Zoning Technician, Development Services Department **DATE:** 05/05/2023

REVIEWER: Alex Steady, Senior Planner

AGENCY/DEPT: Transportation **PETITION NO: PD 22-1390** PLANNING AREA/SECTOR: South Shore/ South

This agency has no comments.

This agency has no objection.

X This agency has no objection, subject to the listed or attached conditions.

This agency objects for the reasons set forth below.

CONDITIONS OF APPROVAL

- Prior to or concurrent with the initial phase of development, the developer must extend the existing northbound right turn lane on US Hwy 301 to FDOT standards, subject to FDOT approval.
- Notwithstanding anything herein these conditions or on the PD site plan to the contrary, bicycle and pedestrian access may be permitted anywhere along the project boundaries.

Other Conditions

Prior to PD site plan certification, the applicant shall revise the PD site plan to:

 Add a note that reads "Sidewalks to be provided per the Hillsborough County Land Development Code."

PROJECT SUMMARY AND ANALYSIS

The applicant is requesting to remove one parcel totaling +/- 36.27 acres from an existing Planned Development (PD 89-0097) to create a new Planned Development (PD 22-1390). The proposed Planned Development is seeking entitlements of 100 Single Family Dwelling Units. The site is generally located on the west side of West Lake Drive on the northwest corner of the intersection of West Lake Drive and Crane Meadow Blvd. The Future Land Use designation of the site is Residential – 4 (R-4).

Trip Generation Analysis

As required by the Development Review Procedures Manual (DRPM), the applicant submitted a trip generation and site access analysis for the proposed project. Staff has prepared a comparison of the trips potentially generated under the existing and proposed zoning designations, utilizing a generalized worstcase scenario. The information below is based on data from the Institute of Transportation Engineer's Trip Generation Manual, 11th Edition.

Approved Zoning:

Zoning, Lane Use/Size	24 Hour	Total Peak Hour Trips	
	Two-Way Volume	AM	PM
PD, 0 Dwelling Units* (ITE code 210)	0	0	0

^{*}The subject Planned Development does not propose any modification to existing approved entitlements from PD 89-0097 and as such, the proposed entitlements are new entitlements.

Proposed Zoning:

Zoning, Lane Use/Size	24 Hour	Total Peak Hour Trips	
, and the second	Two-Way Volume	AM	PM
PD, 100 Single Family Dwelling Units (ITE code 210)	1,009	74	99

Trip Generation Difference:

Zoning Long Hag/Size	24 Hour	Total Peak Hour Trips	
Zoning, Lane Use/Size	Two-Way Volume	AM	PM
Difference	+1,009	+74	+99

TRANSPORTATION INFRASTRUCTURE SERVING THE SITE

The subject property will be accessed via Windmill Forge Pass, which turns into Emerald Green Blossom Blvd. Both Windmill Forge Pass and Emerald Green Blossom Blvd meet or exceed Hillsborough County standards. The DRPM required traffic study evaluated the impacts for access improvements on US Hwy 301 and State Road 674. US HWY 301 is a 6-lane divided FDOT maintained, principal arterial roadway. The existing right-of-way on US HWY 301 is +/-182 feet. There are sidewalks and bike lanes on both sides of the roadway within vicinity of the proposed project. State Road 674 is a 4-lane divided FDOT maintained, principal arterial roadway. The existing right-of-way on State Road 674 is +/-186 feet. There are sidewalks and bike lanes on both sides of the roadway within vicinity of the proposed project.

MULTIWAY STOP STUDY

The Hillsborough County Public Works Department is currently conducting a Multiway Stop Study at the intersection of Cape Stone Ave and Emerald Blossom Blvd. This study was initiated due to citizen concern about the intersection. The study is currently underway and will look at the traffic counts and speed of cars using that intersection to analyze if any improvements are warranted. Public Works indicated that crash data did not indicate a significant number of crashes have occurred at that intersection.

SITE ACCESS

The project is proposing two access points to Windmill Forge Pass. Cross access is not required per the Hillsborough County Land Development Code.

As required by the DRPM, the applicant provided a detailed traffic analysis that evaluated site access improvement warrants per the Land Development Code. The applicant also coordinated with FDOT concerning the site access improvements triggered by the subject project. As a result of the analysis and coordination with FDOT, the applicant must extend the existing north bound right from US Hwy 301 to Cape Stone Avenue to FDOT Standards, subject to FDOT approval.

ROADWAY LEVEL OF SERVICE (LOS)

Windmill Forge Pass and Emerald Blossom Blvd are not regulated roadways and as such were not included in the Level of Service Report.

Level of Service (LOS) information for adjacent roadway sections is reported below.

Roadway	From	То	LOS Standard	Peak Hour Directional LOS
US HWY 301	SR 674	BALM RD	D	С
SR 674	US HWY 301	CR 579	D	С

1.0 APPLICATION SUMMARY

Development Services Department

Applicant: GTIS Metro DG LLC

FLU Category: RES-4 Service Area: Urban Site Acreage: 36 +/-

Community Plan Area: Sun City Center

Overlay: None

Request: Rezoning from PD to PD

Introduction Summary:

The applicant seeks to rezone a portion of folio 78011.7398 from PD 89-0097 (as most recently modified by PRS 23-0089) to PD 22-1390 to allow for the development of 100 single-family detached units. PD 89-0097 is approved for residential and commercial uses at the northeast corner of US Hwy 301 and SR 674. This application accompanies PRS 23-0210 to recognize the removal of this land from PD 89-0097.

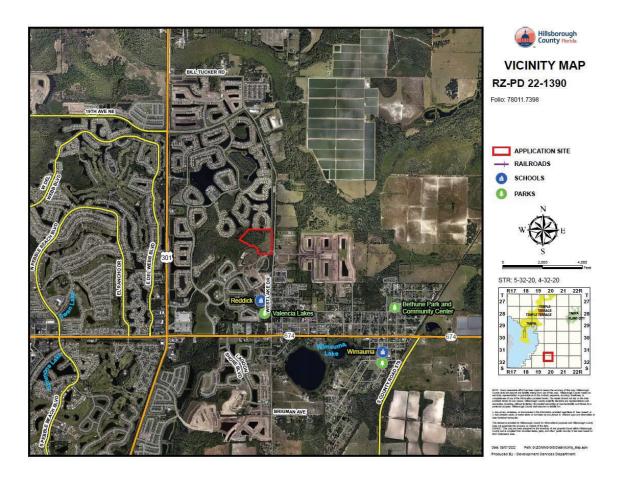

Additionally, this application accompanies DRI DO #23-0195 to remove the subject area from DRI #194 (DG Farms) as most recently modified by DRI DO #18-1053 (Resolution #18-131).

Development Services Recommendation: Approvable, subject to proposed conditions

Planning Commission Recommendation: Consistent

5.0 IMPLEMENTATION RECOMMENDATIONS

5.1 Compatibility

The applicant proposes a residential project within an area currently approved for residential uses. Uses found to the north, south and west are developed with residential uses with permit single family detached or attached units. The proposed development standards are comparable to the currently approved development standards and those of the areas to the north, south and west. Access is proposed within the southwest area of the project, internal to the existing PD. No access to West Lake Drive is currently approved or proposed by this project.

The western and northern areas of the proposed PD will contain no residential development due to the presence of wetlands, mapped Significant Wildlife Habitat and upland conservation areas.

Properties to the east are separated by West Lake Drive (a 2-lane roadway within a 65-77 foot wide right-of-way). Rear yards abutting this PD boundary will be a minimum of 20 feet, with the provision of a 6 ft high PVC fence. Homes located on the east side of West Lake Drive are located 100 feet or more from the West Lake Drive right-of-way.

Given the above factors, staff finds the project to be compatible with the surrounding area.

5.2 Recommendation

Approvable, subject to proposed conditions.

Zoning conditions, which were presented Zoning Hearing Master hearing, were reviewed and are incorporated by reference as a part of the Zoning Hearing Master recommendation.

SUMMARY OF HEARING

THIS CAUSE came on for hearing before the Hillsborough County Land Use Hearing Officer on June 20, 2023. Ms. Michelle Heinrich of the Hillsborough County Development Services Department introduced the petition.

Ms. Kami Corbett 101 East Kennedy Blvd. Suite 3700 testified on behalf of the applicant. She stated that she was representing the applicant Metro Development and that the project is the Sereno subdivision located in South County. Ms. Corbett showed graphics to discuss the location of the property which is east of US 301 and north of SR 674. Ms. Corbett showed a copy of the site plan for the development of 100 single-family dwelling units which will be

attached or detached units. She stated that there are two companion applications as a Minor Modification is needed to remove the subject parcel from the existing PD and a modification to the DRI Development Order to remove the subject parcel as well. Ms. Corbett concluded her presentation by stating that the applications will be heard at the August 8, 2023 Board of County Commissioners meeting. She added that the staff has found the rezoning consistent and compatible.

Ms. Michelle Heinrich, Development Services Department testified regarding the County's staff report. Ms. Heinrich stated that the request is to rezone the property for 100 single family units. The subject acreage will be removed from the existing PD and the DRI which is known as DG Farms. Staff found the request to be compatible with the surrounding development which is primarily residential at 2 to 4 units per acre. Ms. Heinrich stated that the western portion of the PD will remain undeveloped as it would have under the existing PD due to the presence of wetlands and significant wildlife habitat on that portion of the site. She testified that access would remain internal to the existing PD and no new perimeter access points to West Lake Drive are proposed. She stated that staff found that the removal of the property will not impact the existing PD's development entitlements or create a density that exceeds the RES-4 category.

Hearing Master Finch asked Ms. Heinrich to confirm that the entitlements that are assigned on the subject property through the DG Farms PD are not removed from DG Farms and it is only the acreage that is being removed. Ms. Heinrich replied that was correct and added that the subject property will not take any entitlements with them.

Ms. Andrea Papandrew of the Planning Commission staff testified that the property is within the Residential-4 Future Land Use category and located in the Urban Service Area and the Greater Sun City Center Community Plan. She testified that the rezoning meets the intent of Policy 1.4 regarding compatibility and the proposed density is compatible with the existing character of development in the area. She described the surrounding land use categories and stated that the request meets Policy 1.2 regarding minimum density, Policy 13.3 and Objective 3.5 in the Environmental and Sustainability section for environmental considerations. She listed numerous Comprehensive Plan policies that the project meets and testified that the rezoning request is consistent with both the Greater Sun City Center Community Plan and the Future of Hillsborough Comprehensive Plan.

Hearing Master Finch asked audience members if there were any proponents of the application. None replied.

Hearing Master Finch asked audience members if there were any opponents of the application.

Mr. Don Hampton 16692 Carleton Pond, Wimauma testified in opposition. Mr.

Hampton stated that he did not know if there were any community meetings on the rezoning application but that the request is at his main entrance at West Lake and Crane Meadow. He stated that the traffic is horrendous and the additional homes will add to the traffic.

County staff did not have additional comments.

Ms. Corbett testified during the rebuttal period.

Mr. Henry testified on behalf of the applicant that the subject property does not have access to West Lake Boulevard or West Lake Drive. He stated that the project access will be to the existing driveways that are currently on SR 674 and US 301. Mr. Henry stated that both staff reports indicate that those roads operate at an acceptable level of service. He added that he would be happy to submit a copy of the 2022 Level of Service report which shows the roadways operate at an acceptable level of service into the record.

Hearing Master Finch asked Mr. Henry to confirm that the project is accessed through the existing Sereno subdivision. Mr. Henry replied that was correct and stated that DG Farms does not have access to West Lake nor is it intended to be provided for the subject property.

Mr. Henry testified that there is a zoning condition which was based on the transportation analysis that requires the developer to extend the northbound right turn lane at Cape Stone and US 301.

Ms. Corbett continued her rebuttal testimony by stating that the developer is required to do a transportation improvements with the proposed project.

The hearing was then closed.

EVIDENCE SUBMITTED

Ms. Corbett submitted a copy of her PowerPoint presentation into the record. Mr. Henry submitted a copy of the 2022 Level of Service report into the record.

PREFACE

All matters that precede the Summary of Hearing section of this Decision are hereby incorporated into and shall constitute a part of the ensuing Findings of Fact and Conclusions of Law.

FINDINGS OF FACT

- 1. The subject site is 32.78 acres in size and is zoned Planned Development (PD 89-0097). The property is designated Residential-4 (RES-4) by the Comprehensive Plan and located in the Urban Service Area as well as the Greater Sun City Center Community Planning Area.
- 2. The request to rezone from PD to PD is for the purpose of developing a maximum of 100 single-family attached and/or detached homes.
- 3. The subject parcel has two companion applications currently being processed to remove the acreage from the existing PD which is a part of the DG Farms Development of Regional Impact (DRI). Staff testified that while the acreage will be removed from the DG Farms PD, no entitlements are being removed.
- 4. The Planning Commission staff stated that the rezoning meets the intent of Policy 1.4 regarding compatibility and the proposed density is compatible with the existing development in the area. Staff testified that the rezoning meets Policy 1.2 regarding minimum density and Policy 13.3 and Objective 3.5 in the Environmental and Sustainability section for environmental considerations. Planning Commission staff found the rezoning request to be consistent with both the Greater Sun City Center Community Plan and the Future of Hillsborough Comprehensive Plan.
- 5. One person testified in opposition at the Zoning Hearing Master hearing. Concerns were expressed regarding the existing traffic at the intersection of West Lake Drive and Crane Meadow Boulevard and that the additional project traffic would make the condition worse.
 - The applicant's transportation engineer testified during the rebuttal period that the project will not access West Lake Drive nor Crane Meadow Boulevard. The project access will be through the existing Sereno subdivision access onto Windmill Forge Pass which turns into Emerald Green Blossom Blvd. The developer is required by the proposed zoning conditions to extend the northbound right turn lane at Cape Stone and US 301.
- The surrounding area is zoned Planned Development and developed with single-family detached homes. Property to the east is zoned AR and developed and agricultural and single-family residential land uses.
- 7. The western portion of the subject property will remain undeveloped as it currently required under the existing PD as there are existing wetlands and upland compensation area.

8. Approval of the Planned Development zoning with the conditions proposed by the Development Services Department serves to provide a compatible land use in the area.

FINDINGS OF COMPLIANCE/NON-COMPLIANCE WITH THE HILLSBOROUGH COUNTY COMPREHENSIVE PLAN

The rezoning request is in compliance with and does further the intent of the Goals, Objectives and the Policies of the Future of Hillsborough Comprehensive Plan.

CONCLUSIONS OF LAW

Based on the Findings of Fact cited above, there is substantial competent evidence to demonstrate that the requested Planned Development rezoning is in conformance with the applicable requirements of the Land Development Code and with applicable zoning and established principles of zoning law.

SUMMARY

The request is to rezone 32.78 acres from PD to PD to develop a maximum of 100 single-family attached and/or detached dwelling units. The subject parcel has two companion applications currently being processed to remove the acreage from the existing PD which is a part of the DG Farms Development of Regional Impact (DRI). Staff testified that while the acreage will be removed from the DG Farms PD, no entitlements are being removed. The western portion of the subject property will remain undeveloped as it currently required under the existing PD as there are existing wetlands and upland compensation area.

The Planning Commission staff found that the rezoning request is compatible with the surrounding area and consistent with the Comprehensive Plan.

One person testified in opposition at the Zoning Hearing Master hearing. Concerns were expressed regarding the existing traffic at the intersection of West Lake Drive and Crane Meadow Boulevard and that the additional project traffic would make the condition worse. The applicant's transportation engineer testified during the rebuttal period that the project will not access West Lake Drive nor Crane Meadow Boulevard. The project access will be through the existing Sereno subdivision access onto Windmill Forge Pass which turns into Emerald Green Blossom Blvd. The developer is required by the proposed zoning conditions to extend the northbound right turn lane at Cape Stone and US 301.

Approval of the Planned Development zoning with the conditions proposed by the Development Services Department serves to provide a compatible land use in the area.

RECOMMENDATION

Based on the foregoing, this recommendation is for **APPROVAL** of the Planned Development rezoning request as indicated by the Findings of Fact and Conclusions of Law stated above subject to the zoning conditions prepared by the Development Services Department.

Susan M. Finch, AICP

Land Use Hearing Officer

Date

Unincorporated Hillsborough County Rezoning		
Hearing Date: June 20, 2023 Report Prepared: June 8, 2023	Petition: PD 22-1390 Folio 78011.7398 West of West Lake Drive, north of Windmill Forge Pass	
Summary Data:		
Comprehensive Plan Finding	CONSISTENT	
Adopted Future Land Use	Residential-4 (4 du/ga; 0.25 FAR)	
Service Area	Urban	
Community Plan	Greater Sun City Center, Southshore Areawide Systems	
Request	Planned Development (PD 89-0097) to Planned Development to develop 100 single family detached and attached dwellings	
Parcel Size (Approx.)	32.78 +/- acres	
Street Functional Classification	Windmill Forge Pass – Private West Lake Drive – County Collector	
Locational Criteria	N/A	
Evacuation Area	None	

Plan Hillsborough planhillsborough.org planner@plancom.org 813 - 272 - 5940 601 E Kennedy Blvd 18th floor Tampa, FL, 33602

Context

- The subject site is located on approximately 32.78 ± acres west of West Lake Drive and north of Windmill Forge Pass.
- The site is in the Urban Service Area and within the limits of the Greater Sun City Center and Southshore Areawide Systems Community Plans.
- The site has a Future Land Use designation of Residential-4 (RES-4), which allows for consideration of up to 4 dwelling units per gross acre and a maximum Floor Area Ratio (FAR) of 0.25. Typical uses in the RES-4 include residential, suburban scale neighborhood commercial, office uses, and multi-purpose projects. Non-residential uses shall meet locational criteria for specific land use.
- The subject site is surrounded by Residential-4 (RES-4) to the north, west and south.
 Wimauma Village Residential-2 (WVR-2) is located to the east. Residential-6 (RES-6) is
 located further east and further west of the site. The subject site is mainly surrounded by
 private homeowner's associations and single-family residential neighborhoods.
- The subject site is zoned Planned Development (PD). It is mainly surrounded by PD zoning and Agricultural Rual (AR) zoning is located to the east across West Lake Drive.
- There are approximately 3.77 acres of wetlands on the site.
- The applicant requests to rezone from Planned Development (PD 89-0097) to Planned Development to develop 100 single family detached and attached dwellings.

Compliance with Comprehensive Plan:

The following Goals, Objectives and Policies apply to this rezoning request and are used as a basis for a consistency finding.

Future Land Use Element

Urban Service Area

Objective 1: Hillsborough County shall pro-actively direct new growth into the urban service area with the goal that at least 80% of all population growth will occur within the USA during the planning horizon of this Plan. Within the Urban Service Area, Hillsborough County will not impede agriculture. Building permit activity and other similar measures will be used to evaluate this objective.

Policy 1.2: Minimum Density

All new residential or mixed use land use categories within the USA shall have a density of 4 du/ga or greater unless environmental features or existing development patterns do not support those densities.

Within the USA and in categories allowing 4 units per acre or greater, new development or redevelopment shall occur at a density of at least 75% of the allowable density of the land use category, unless the development meets the criteria of Policy 1.3.

PD 22-1390 2

Policy 1.4: Compatibility is defined as the characteristics of different uses or activities or design which allow them to be located near or adjacent to each other in harmony. Some elements affecting compatibility include the following: height, scale, mass and bulk of structures, pedestrian or vehicular traffic, circulation, access and parking impacts, landscaping, lighting, noise, odor and architecture. Compatibility does not mean "the same as." Rather, it refers to the sensitivity of development proposals in maintaining the character of existing development.

Land Use Categories

Objective 8: The Future Land Use Map will include Land Use Categories which outline the maximum level of intensity or density and range of permitted land uses allowed and planned for an area. A table of the land use categories and description of each category can be found in Appendix A.

Policy 8.1: The character of each land use category is defined by building type, residential density, functional use, and the physical composition of the land. The integration of these factors sets the general atmosphere and character of each land use category. Each category has a range of potentially permissible uses which are not exhaustive, but are intended to be illustrative of the character of uses permitted within the land use designation. Not all of those potential uses are routinely acceptable anywhere within that land use category.

Relationship to Land Development Regulations

Objective 9: All existing and future land development regulations shall be made consistent with the Comprehensive Plan, and all development approvals shall be consistent with those development regulations as per the timeframe provided for within Chapter 163, Florida Statutes. Whenever feasible and consistent with Comprehensive Plan policies, land development regulations shall be designed to provide flexible, alternative solutions to problems.

Policy 9.2: Developments must meet or exceed the requirements of all land development regulations as established and adopted by Hillsborough County, the state of Florida and the federal government unless such requirements have been previously waived by those governmental bodies.

Environmental Considerations

Objective 13: New development and redevelopment shall not adversely impact environmentally sensitive areas and other significant natural systems as described and required within the Conservation and Aquifer Recharge Element and the Coastal Management Element of the Comprehensive Plan.

Policy 13.3: Environmentally Sensitive Land Credit

Density and FAR calculations for properties that include wetlands will comply with the following calculations and requirements for determining density/intensity credits.

- Wetlands are considered to be the following:
 - Conservation and preservation areas as defined in the Conservation and Aquifer Recharge Element
 - Man-made water bodies as defined (including borrow pits).
- If wetlands are less than 25% of the acreage of the site, density and intensity is calculated based on:

- Entire project acreage multiplied by Maximum intensity/density for the Future Land Use Category
- If wetlands are 25% or greater of the acreage of the site, density and intensity is calculated based on:
 - Upland acreage of the site multiplied by 1.25 = Acreage available to calculate density/intensity based on
 - That acreage is then multiplied by the Maximum Intensity/Density of the Future Land Use Category

Neighborhood/Community Development

Objective 16: Neighborhood Protection – The neighborhood is the functional unit of community development. There is a need to protect existing, neighborhoods and communities and those that will emerge in the future. To preserve, protect, and enhance neighborhoods and communities, all new development must conform to the following policies.

Policy 16.1: Established and planned neighborhoods and communities shall be protected by restricting incompatible land uses through mechanisms such as:

- a) locational criteria for the placement of non-residential uses as identified in this Plan.
- b) limiting commercial development in residential land use categories to neighborhood scale;
- c) requiring buffer areas and screening devices between unlike land uses;

Policy 16.2: Gradual transitions of intensities between different land uses shall be provided for as new development is proposed and approved, through the use of professional site planning, buffering, and screening techniques and control of specific land uses.

Policy 16.3: Development and redevelopment shall be integrated with the adjacent land uses through:

- a) the creation of like uses: or
- b) creation of complementary uses; or
- c) mitigation of adverse impacts; and
- d) transportation/pedestrian connections

Policy 16.7: Residential neighborhoods shall be designed to include an efficient system of internal circulation and street stub-outs to connect adjacent neighborhoods together.

Policy 16.8: The overall density and lot sizes of new residential projects shall reflect the character of the surrounding area, recognizing the choice of lifestyles described in this Plan.

Policy 16.10: Any density increase shall be compatible with existing, proposed or planned surrounding development. Compatibility is defined as the characteristics of different uses or activities or design which allow them to be located near or adjacent to each other in harmony. Some elements affecting compatibility include the following: height, scale, mass and bulk of structures, pedestrian or vehicular traffic, circulation, access and parking impacts, landscaping,

lighting, noise, odor and architecture. Compatibility does not mean "the same as". Rather, it refers to the sensitivity of development proposals in maintaining the character of existing development.

Policy 16.11: Within residential projects, site planning techniques shall be encouraged to ensure a variety and variation of lot sizes, block faces, setbacks and housing types.

Objective 17: Neighborhood and Community Serving Uses Certain non-residential land uses, including but not limited to residential support uses and public facilities, shall be allowed within residential neighborhoods to directly serve the population. These uses shall be located and designed in a manner to be compatible to the surrounding residential development pattern.

Policy 17.7: New development and redevelopment must mitigate the adverse noise, visual, odor and vibration impacts created by that development upon all adjacent land uses.

Community Design Component (CDC)

5.0 NEIGHBORHOOD LEVEL DESIGN 5.1 COMPATIBILITY

OBJECTIVE 12-1: New developments should recognize the existing community and be designed in a way that is compatible with the established character of the surrounding neighborhood.

Policy 12-1.4: Compatibility may be achieved through the utilization of site design techniques including but not limited to transitions in uses, buffering, setbacks, open space and graduated height restrictions, to affect elements such as height, scale, mass and bulk of structures, pedestrian or vehicular traffic, circulation, access and parking impacts, landscaping, lighting, noise, odor and architecture.

Environmental and Sustainability Section (ESS)

Objective 3.5: Apply adopted criteria, standards, methodologies and procedures to manage and maintain wetlands and/or other surface waters for optimum fisheries and other environmental values in consultation with EPC.

Policy 3.5.1: Collaborate with the EPC to conserve and protect wetlands and/or other surface waters from detrimental physical and hydrological alteration. Apply a comprehensive planning-based approach to the protection of wetland ecosystems assuring no net loss of ecological values provided by the functions performed by wetlands and/or other surface waters authorized for projects in Hillsborough County.

Policy 3.5.2: Collaborate with the EPC through the land planning and development review processes to prohibit unmitigated encroachment into wetlands and/or other surface waters and maintain equivalent functions.

Policy 3.5.4: Regulate and conserve wetlands and/or other surface waters through the application of local rules and regulations including mitigation during the development review process.

Livable Communities Element: Greater Sun City Center

Goals

2. Controlled Density

Discourage amendments to the Comprehensive Plan that would allow increases to densities and intensities as currently exist in the Greater Sun City Center Area.

5. Green Spaces

Expand and encourage preservation of property through the Hillsborough County Environmental Lands Acquisition Protection and Preservation (ELAPP) acreage in the area.

Staff Analysis of Goals Objectives and Policies:

The subject site is located on approximately 32.78 ± acres west of West Lake Drive and north of Windmill Forge Pass. The site is in the Urban Service Area and within the limits of the Greater Sun City Center and Southshore Areawide Systems Community Plans. The applicant requests to rezone from Planned Development (PD 89-0097) to Planned Development to develop 100 single family detached and attached dwellings. The subject site is mainly surrounded by private homeowner's associations and single-family residential neighborhoods.

The subject site is in the Urban Service Area and per Objective 1 of the Future Land Use Element (FLUE), where 80 percent of the county's growth is to be directed. Policy 1.4 requires all new developments to be compatible with the surrounding area, noting that "Compatibility does not mean "the same as." Rather, it refers to the sensitivity of development proposals in maintaining the character of existing development." The proposed density in the RES-4 FLU designation is compatible with the existing character of development in the area. The site is surrounded by the RES-4, Wimauma Village Residential-2 (WVR-2), and Residential-6 (RES-6) designations. The area mainly contains single family residential uses. The proposal is consistent with Policy 1.2 as it meets the minimum density expected for the acreage of this site.

The proposal is consistent with Policy 1.2, and 13.3 as it relates to minimum density and environmental considerations. The allowable density has been calculated as follows: 32.78 acres x 4 du/ac = 131 dwelling units maximum. 100 dwellings are being proposed and the site is less than 25% wetlands; therefore, it is consistent with Policy 13.3. The Environmental Protection Commission Wetlands Division has reviewed the proposed site and has determined that a resubmittal is not necessary. Given that there is a separate approval process for wetland impacts with the Environmental Protection Commission and they currently do not object, Planning Commission staff finds this request consistent with Objective 13 and associated policies in the FLUE and Objective 3.5 in the Environmental and Sustainability Section (ESS) Furthermore, the applicant has indicated 7.25 acres of upland conservation area on the site plan in response to Natural Resources comments in Optix.

The proposed rezoning meets the intent of Objective 16 and policies 16.1, 16.2, 16.3, 16.7, 16.8, 16.10, 16.11 and 17.7. The proposal includes appropriate setbacks and buffers. In addition, the stormwater retention areas proposed within the development serves as a buffer and protects the environmentally sensitive land on site. The proposed density and lots sizes are reflective of the surrounding neighborhoods. The site plan appears to show an efficient system of internal circulation with main access Windmill Forge Pass. The site does not directly abut West Lake Drive. It is separated from West Lake by Folio 078008-0150, which is owned by Hillsborough County and is used as a public drop site for the Wimauma Solid Waste Facility to the north. Therefore, the proposed access to Windmill Forge Pass is the only possible connection to the site. The County Transportation Department has no objection to the site plan dated April 25th, 2023, subject to conditions.

Objective 12-1 and Policy 12-1.4 of the Community Design Component (CDC) discuss how new development shall be compatible with the established character of the surrounding area. The development pattern and character of this area mainly contains single family residential, and therefore the proposed residential use is compatible with the surrounding development pattern.

The proposed rezoning meets the intent of the Greater Sun City Center Area Community Plan. The proposed PD maintains the existing densities of the Greater Sun City Center Area which is consistent with Goal 2 of the Plan. Furthermore, the proposed rezoning ensures preservation of wetlands, and retains a significant amount of open space throughout the site, including Upland Conservation area of 7.25 acres, as well as provides large retention ponds around which the proposed dwelling units are situated, which is consistent with Goal 5 of the Plan. There were no applicable policies relating to this request in the Southshore Areawide Systems Plan.

Overall, staff finds that the proposed residential development is consistent with policy direction in the Urban Service Area. The proposed Planned Development would allow for development that is consistent with the Goals, Objectives, and Policies in the *Unincorporated Hillsborough County Comprehensive Plan*. The request is compatible with the existing development pattern found within the surrounding area.

Recommendation

Based upon the above considerations, Planning Commission staff finds the proposed Planned Development **CONSISTENT** with the *Unincorporated Hillsborough County Comprehensive Plan*, subject to the conditions proposed by the Development Services Department.

AGENCY REVIEW COMMENT SHEET

TO: Zoning Technician, Development Services Department **DATE:** 05/05/2023

REVIEWER: Alex Steady, Senior Planner

AGENCY/DEPT: Transportation **PETITION NO: PD 22-1390** PLANNING AREA/SECTOR: South Shore/ South

This agency has no comments.

This agency has no objection.

X This agency has no objection, subject to the listed or attached conditions.

This agency objects for the reasons set forth below.

CONDITIONS OF APPROVAL

- Prior to or concurrent with the initial phase of development, the developer must extend the existing northbound right turn lane on US Hwy 301 to FDOT standards, subject to FDOT approval.
- Notwithstanding anything herein these conditions or on the PD site plan to the contrary, bicycle and pedestrian access may be permitted anywhere along the project boundaries.

Other Conditions

Prior to PD site plan certification, the applicant shall revise the PD site plan to:

 Add a note that reads "Sidewalks to be provided per the Hillsborough County Land Development Code."

PROJECT SUMMARY AND ANALYSIS

The applicant is requesting to remove one parcel totaling +/- 36.27 acres from an existing Planned Development (PD 89-0097) to create a new Planned Development (PD 22-1390). The proposed Planned Development is seeking entitlements of 100 Single Family Dwelling Units. The site is generally located on the west side of West Lake Drive on the northwest corner of the intersection of West Lake Drive and Crane Meadow Blvd. The Future Land Use designation of the site is Residential – 4 (R-4).

Trip Generation Analysis

As required by the Development Review Procedures Manual (DRPM), the applicant submitted a trip generation and site access analysis for the proposed project. Staff has prepared a comparison of the trips potentially generated under the existing and proposed zoning designations, utilizing a generalized worstcase scenario. The information below is based on data from the Institute of Transportation Engineer's Trip Generation Manual, 11th Edition.

Approved Zoning:

Zoning, Lane Use/Size	24 Hour	Total Peak Hour Trips	
	Two-Way Volume	AM	PM
PD, 0 Dwelling Units* (ITE code 210)	0	0	0

^{*}The subject Planned Development does not propose any modification to existing approved entitlements from PD 89-0097 and as such, the proposed entitlements are new entitlements.

Proposed Zoning:

Zoning, Lane Use/Size	24 Hour	Total Peak Hour Trips	
, and the second	Two-Way Volume	AM	PM
PD, 100 Single Family Dwelling Units (ITE code 210)	1,009	74	99

Trip Generation Difference:

Zoning, Lane Use/Size	24 Hour	Total Peak Hour Trips	
	Two-Way Volume	AM	PM
Difference	+1,009	+74	+99

TRANSPORTATION INFRASTRUCTURE SERVING THE SITE

The subject property will be accessed via Windmill Forge Pass, which turns into Emerald Green Blossom Blvd. Both Windmill Forge Pass and Emerald Green Blossom Blvd meet or exceed Hillsborough County standards. The DRPM required traffic study evaluated the impacts for access improvements on US Hwy 301 and State Road 674. US HWY 301 is a 6-lane divided FDOT maintained, principal arterial roadway. The existing right-of-way on US HWY 301 is +/-182 feet. There are sidewalks and bike lanes on both sides of the roadway within vicinity of the proposed project. State Road 674 is a 4-lane divided FDOT maintained, principal arterial roadway. The existing right-of-way on State Road 674 is +/-186 feet. There are sidewalks and bike lanes on both sides of the roadway within vicinity of the proposed project.

MULTIWAY STOP STUDY

The Hillsborough County Public Works Department is currently conducting a Multiway Stop Study at the intersection of Cape Stone Ave and Emerald Blossom Blvd. This study was initiated due to citizen concern about the intersection. The study is currently underway and will look at the traffic counts and speed of cars using that intersection to analyze if any improvements are warranted. Public Works indicated that crash data did not indicate a significant number of crashes have occurred at that intersection.

SITE ACCESS

The project is proposing two access points to Windmill Forge Pass. Cross access is not required per the Hillsborough County Land Development Code.

As required by the DRPM, the applicant provided a detailed traffic analysis that evaluated site access improvement warrants per the Land Development Code. The applicant also coordinated with FDOT concerning the site access improvements triggered by the subject project. As a result of the analysis and coordination with FDOT, the applicant must extend the existing north bound right from US Hwy 301 to Cape Stone Avenue to FDOT Standards, subject to FDOT approval.

ROADWAY LEVEL OF SERVICE (LOS)

Windmill Forge Pass and Emerald Blossom Blvd are not regulated roadways and as such were not included in the Level of Service Report.

Level of Service (LOS) information for adjacent roadway sections is reported below.

AGENCY COMMENT SHEET

REZONING			
HEARING DATE: December 12, 2022	COMMENT DATE: September 30, 2022		
PETITION NO.: 22-1390	PROPERTY ADDRESS: Windmill Forge Pass, Wimauma, FL 33598		
EPC REVIEWER: Jackie Perry Cahanin	FOLIO #: 078011-7398		
CONTACT INFORMATION: (813) 627-2600 X 1241	STR: 05-32S-20E		
EMAIL: cahaninj@epchc.org			
REQUESTED ZONING: PD			

REQUESTED ZONING: PD

FINDINGS			
WETLANDS PRESENT	YES		
SITE INSPECTION DATE	NA		
WETLAND LINE VALIDITY	YES		
WETLANDS VERIFICATION (AERIAL PHOTO,	ERP expires 01/04/2023		
SOILS SURVEY, EPC FILES)			

The EPC Wetlands Division has reviewed the proposed rezoning. In the site plan's current configuration, a resubmittal is not necessary. If the zoning proposal changes and/or the site plans are altered, EPC staff will need to review the zoning again. This project as submitted is conceptually justified to move forward through the zoning review process as long as the following conditions are included:

- Approval of this zoning petition by Hillsborough County does not constitute a guarantee that the Environmental Protection Commission of Hillsborough County (EPC) approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impact to wetlands, and does not grant any implied or vested right to environmental approvals.
- The construction and location of any proposed wetland impacts are not approved by this correspondence, but shall be reviewed by EPC staff under separate application pursuant to the EPC Wetlands rule detailed in Chapter 1-11, Rules of the EPC, (Chapter 1-11) to determine whether such impacts are necessary to accomplish reasonable use of the subject property.

- Prior to the issuance of any building or land alteration permits or other development, the
 approved wetland / other surface water (OSW) line must be incorporated into the site plan. The
 wetland / OSW line must appear on all site plans, labeled as "EPC Wetland Line", and the wetland
 must be labeled as "Wetland Conservation Area" pursuant to the Hillsborough County Land
 Development Code (LDC).
- Final design of buildings, stormwater retention areas, and ingress/egresses are subject to change
 pending formal agency jurisdictional determinations of wetland and other surface water
 boundaries and approval by the appropriate regulatory agencies.

INFORMATIONAL COMMENTS:

The following specific comments are made for informational purposes only and to provide guidance as to the EPC review process. However, future EPC staff review is not limited to the following, regardless of the obviousness of the concern as raised by the general site plan and EPC staff may identify other legitimate concerns at any time prior to final project approval.

- The Hillsborough County Land Development Code (LDC) defines wetlands and other surface
 waters as Environmentally Sensitive Areas. Pursuant to the LDC, wetlands and other surface waters
 are further defined as Conservation Areas or Preservation Areas and these areas must be designated
 as such on all development plans and plats. A minimum setback must be maintained around the
 Conservation/Preservation Area and the setback line must also be shown on all future plan
 submittals.
- Any activity interfering with the integrity of wetland(s) or other surface water(s), such as clearing, excavating, draining or filling, without written authorization from the Executive Director of the EPC or authorized agent, pursuant to Section 1-11.07, would be a violation of Section 17 of the Environmental Protection Act of Hillsborough County, Chapter 84-446, and of Chapter 1-11.

School Data	Reddick Elementary	Shields Middle	Sumner High
FISH Capacity Total school capacity as reported to the Florida Inventory of School Houses (FISH)	948	1,557	2,289
2021-22 Enrollment K-12 enrollment on 2021-22 40 th day of school. This count is used to evaluate school concurrency per Interlocal Agreements with area jurisdictions	754	1782	3470
Current Utilization Percentage of school capacity utilized based on 40 th day enrollment and FISH capacity	80%	114%	152%
Concurrency Reservations Existing concurrency reservations due to previously approved development. Source: CSA Tracking Sheet as of 10/10/2022	194	10	250
Students Generated Estimated number of new students expected in development based on adopted generation rates. Source: Duncan Associates, School Impact Fee Study for Hillsborough County, Florida, Dec. 2019	25	11	17
Proposed Utilization School capacity utilization based on 40 th day enrollment, existing concurrency reservations, and estimated student generation for application	103%	116%	163%

Notes: Reddick Elementary, Shields Middle and Sumner High School do not have adequate capacity for the residential impact of the proposed development. In these cases, the school district is required by state law to consider whether additional capacity exists in adjacent concurrency service areas (i.e., school attendance boundaries). At this time additional capacity does not exist in adjacent service areas at the elementary, middle and high school levels. A proportionate share agreement may be an available mitigation option. Please contact the School Board for further information.

This is an analysis for adequate facilities only and is NOT a determination of school concurrency. A school concurrency review will be issued PRIOR TO preliminary plat or site plan approval.

AGENCY COMMENT SHEET

TO: Zoning/Code Administration, Development Services Departr	nent
--	------

FROM: Reviewer: Carla Shelton Knight Date: April 25, 2023

Agency: Natural Resources **Petition #:** 22-1390

- () This agency has **no comment**
- () This agency has **no objections**
- (X) This agency has **no objections**, subject to listed or attached conditions
- () This agency objects, based on the listed or attached issues.
- 1. The proposed location of the 7.25 acres of Upland Conservation Area as shown on the plans submitted on April 24, 2023, is acceptable with the exception of the area located between proposed lots. This square footage will need to be incorporated into the main conservation area to maintain the minimum acreage requirement for conservation.
 - Additionally, recent aerial images indicate that a portion of the mapped Significant Wildlife Habitat area on this site has been disturbed. This area will either need to be restored, or will be subtracted from the acreage that will credit toward the required acreage to be preserved. This will be determined during the construction plan review, and may result in additional adjustments to the location of the Upland Conservation Area and the number and location of proposed lots.
- 2. Wetlands or other surface waters are considered Environmentally Sensitive Areas and are subject to Conservation Area and Preservation Area setbacks. A minimum setback must be maintained around these areas which shall be designated on all future plan submittals. Only items explicitly stated in the condition of approval or items allowed per the LDC may be placed within the wetland setback. Proposed land alterations are restricted within the wetland setback areas.
- 3. Approval of this petition by Hillsborough County does not constitute a guarantee that Natural Resources approvals/permits necessary for the development as proposed will be issued, does not itself serve to justify any impacts to trees, natural plant communities or wildlife habitat, and does not grant any implied or vested right to environmental approvals.

22-1390 April 25, 2023 Page Two:

- 4. The construction and location of any proposed environmental impacts are not approved by this correspondence, but shall be reviewed by Natural Resources staff through the site and subdivision development plan process pursuant to the Land Development Code.
- 5. If the notes and/or graphic on the site plan are in conflict with specific zoning conditions and/or the Land Development Code (LDC) regulations, the more restrictive regulation shall apply, unless specifically conditioned otherwise. References to development standards of the LDC in the above stated conditions shall be interpreted as the regulations in effect at the time of preliminary site plan/plat approval.

AGENCY REVIEW COMMENT SHEET

TIME:

Commencing at 6:32 p.m. Concluding at 10:28 p.m.

PLACE: Hillsborough County Board of

Commissioners

601 East Kennedy Boulevard

Second Floor

Tampa, Florida 33601

Reported via Zoom Videoconference by: Jennifer Cope, Court Reporter No. GG 187564

1 MS. HEINRICH: Our next application is Item D-1, 2 PD Rezoning 22-1390. The applicant is requesting 3 to rezone property to PD. I've reviewed this for 4 planning -- or Development Services and will provide staff findings after the applicant. HEARING MASTER FINCH: All right. 6 7 MS. CORBETT: Good evening. Kami Corbett with the law firm of Hill, Ward, and Henderson, 101 East 8 Kennedy Boulevard, Suite 3700, and I have been 10 sworn. I'm here representing the applicant, Metro 11 12 Development. This is the Sereno Subdivision that 13 is located in South County. This shows the location. We are east of 301 and we are north of 14 15 That's the Sereno subdivision to the south 16 that you can see in that aerial. 17 Next slide, really a basic site plan. 18 a simple request. This is really one where the 19 staff reports do speak for themselves. We are 20 asking for 100 single-family dwelling units either be detached or attached units. And we are not 21 2.2 asking for any PD variations. 23 There are two companion applications. a minor modification to the existing zoning to 24

remove this property from the existing PD.

25

1 are also modifying the DRI development order to remove 2 the property from the DRI development order. 3 However, those are not for your consideration Those are related applications that 4 this evening. are traveling and will be heard by the board of 5 county commissioners on October -- I'm sorry, 6 7 August 8th, 2023. Key findings of staff, they've found us 8

Key findings of staff, they've found us consistent and compatible. And I will let their -- them provide their testimony regarding the consistency and compatibility during their presentations.

And with that, I would respectfully request your approval unless you have any questions.

HEARING MASTER FINCH: Not yet. But, thank you. I appreciate it.

2.2

23

24

25

MS. HEINRICH: Michelle Heinrich, Development Services. As you heard, this is a rezoning request for property currently zoned PD 89-0097. As most recently modified by PRS 23-0089 to a new PD to allow for 100 single-family units which would be detached or attached.

As you heard, because this site is removing acreage within an existing PD, a companion PRS is

necessary and will be heard at the same BOCC land use meeting as this rezoning request, which is August 8th, 2023.

2.2

Additionally, the site is within DRI Number

194 known as DG Farms. And amendment to that DRI

will also be a companion application to be heard at
that BOCC land use meeting.

Staff's review finds that the proposal is in keeping with the surrounding development, which is primarily residential at two to four units per acre. The project's proposed development standards are currently found within the existing PD and therefore do not raise any compatibility concerns.

As you probably saw in the site plan that the applicant showed a moment ago, the western portion of the PD will remain undeveloped as it would have under the current PD due to the presence of wetlands and significant wildlife habitat on that portion of the site.

Access will remain internal to the existing PD and no new perimeter access points to West Lake

Drive are proposed. Additionally, our review found that the removal of this land from the PD will not impact the existing PD's development entitlements or create a density that exceeds the Res-4 Future

Land Use Category within the area.

2.2

A finding of consistency was filed by the Planning Commission and no agencies objected to the request. Therefore, we do recommend approval subject to proposed conditions of approval and I'm available if you have any questions.

HEARING MASTER FINCH: I just wanted to put on the record the issue of the removal of the property from the DF Farms DRI in that letter -- there's a letter I saw in the file from Mr. Cohn regarding that and just to confirm that those entitlements that are assigned on the subject property through the DG Farms are not removed from DG Farms, it's just the acreage that's removed; is that correct?

MS. HEINRICH: Correct. Yes. They are not leaving -- or not taking anything with them. They are leaving everything as is.

HEARING MASTER FINCH: Understood. All right.

Thank you. I appreciate it. We'll go to the

Planning Commission.

MS. PAPANDREW: Andrea Papandrew, Planning
Commission staff. This site is in the Residential4 Future Land Use Category and is within the
Greater Sun City Center Community Plan and
Southshore Areawide Systems Plan.

The subject site is mainly surrounded by private home owner associations and single-family residential neighborhoods. The site is in the urban service area. And per Objective 1 of the future land use element, 80 percent of the county's growth is to be directed.

2.2

Policy 1.4 requires all new development to be compatible with the surrounding area. The proposed density and the Residential-4 designation is compatible with existing character development in the area.

The site is surrounded by the Residential-4
Wimauma Village Residential-2 and Residential-6
designations. The proposal is consistent with
Policy 1.2 on minimum density and Objective 13 and
Policy 13.3 in the future land use element and
Objective 3.5 in the environmental and
sustainability section for environmental
considerations.

The site is less than 25 percent wetlands and the proposed as indicated is 7.25 acres of upland conservation area.

The proposed meets the intent of Objective 16 and its policies. The proposal includes appropriate setbacks and buffers. Storm water

retention areas proposed serves as a buffer and protects the environmentally sensitive land on site.

2.2

And the proposed density and lot sizes are reflective of the surrounding neighborhoods. The site is separate from West Lake by a parcel to the east which is used as a public drop site for the Wimauma Solid Waste Facility to the north.

The development pattern and character to the area is mainly single-family residential and does meet Objective 12-1 and Policy 12-1.4 of the Community Design Component and the Future Land Use Element.

The proposed maintains the existing densities of the greater Sun City Center Area Community Plan which is consistent with Goal 2 of the community plan. It's also consistent with Goal 5 and ensures preservation of wetlands and maintains a significant amount of open space throughout the site, including upland conservation area and large retention ponds. And there are no applicable policies for the Southshore Areawide Systems Plan.

Planning commission staff finds the proposed planned development consistent with the Unincorporated Hillsborough County Comprehensive

1 Plan subject to conditions proposed by the Development 2 Services Department. 3 HEARING MASTER FINCH: Thank you so much. I 4 appreciate it. Is there anyone in the room or online that 5 would like to speak in support? Anyone in favor? 6 Seeing no one, anyone in opposition to this 7 request? 8 No one. Oh, yes, sir. 10 While he's coming up, is there anyone else that would like to speak in opposition, either in 11 the room or online? 12 13 All right. Seeing no one, good evening, sir, 14 if you could, give us your name and address. 15 MR. HAMPTON: My name is Don Hampton. I live at 16692 Carleton Pond, Wimauma. I noticed that 16 17 this came up today. I don't know if they had any 18 community meetings. They don't have to have 19 community meetings for this, but where I live at 20 now, that's my main entrance, West Lake and Crane 21 Meadow. 2.2 The traffic is horrendous now and now you're 23 going to add all these additional homes and there's no -- I didn't see any plans as far as to expand it 24 25 to a four-lane highway. So I just I would be

1 opposed to it because traffic is bad now and this is 2 going to add even additional more to it. 3 HEARING MASTER FINCH: All right. Thank you, 4 sir, for your testimony. If you could, please sign in. 5 All right. Seeing no one else in opposition, 6 7 we'll go back to Development Services. MS. HEINRICH: Nothing further. 8 HEARING MASTER FINCH: All right. 9 10 Corbett, do you want to address the transportation question? 11 12 MS. CORBETT: Yes. 13 HEARING MASTER FINCH: Good evening. 14 MR. HENRY: Steve Henry, Links & Associates, 15 5023 West Soil, Tampa, 33607. So we did do a 16 detailed traffic analysis for the project. One, as 17 indicated, we do not have access to West Lake Boulevard or West Lake Drive. Our access will be 18 19 to the existing driveways that are currently on 674 20 and also on 301. 21 And if you look at the staff report, both 2.2 indicate that those roads operate at acceptable 23 levels of service. I'm also happy to enter into the record the 2002 level of service report which 24 25 also shows that those roadways operate at

1 acceptable levels of service. 2 HEARING MASTER FINCH: So just to clarify for 3 the gentleman, so the project is accessed through 4 the existing Sereno subdivision? MR. HENRY: Correct. DG Farms does not have 5 access to West Lake and we don't intend to provide 6 7 access to West Lake for this particular project. HEARING MASTER FINCH: Understood. 8 so much. I appreciate it. 9 10 Ms. Corbett, anything else? MR. HENRY: Another issue, just so you're 11 12 aware, that we are -- and there's a condition there 13 that we have to -- based on the detail analysis, 14 have to extend the northbound right turn lane at 15 Cape Stone and 301. So that is a condition of 16 approval and we are in agreement with that. 17 HEARING MASTER FINCH: I see that. Okay. 18 Thank you so much. 19 Thank you. MR. HENRY: 20 MS. CORBETT: Kami Corbett. For the record, 21 yes, I did want him to that -- enter into the 2.2 record that we are doing a transportation 23 improvement with this project. And with that, we would respectfully request your approval. 24 25 HEARING MASTER FINCH: All right. Thank you

1 so much. With that we'll close Rezoning 22-1390 and 2 go to the next case. 3 MS. HEINRICH: Our next item is Item D-2, 4 Major Mod Application 22-1639. The applicant is requesting a major modification to PD 91-0174. Sam 5 Ball with Development Services will provide staff 6 findings after the applicant's presentation. 7 HEARING MASTER FINCH: All right. I 8 understand the applicant is virtual; is that 10 correct? Jaime Maier representing the 11 MS. MAIER: No. 12 applicant with the law firm Hill, Ward --13 HEARING MASTER FINCH: There you are. 14 I'm sorry. 15 MS. MAIER: No problem. Jamie Maier of the 16 law firm Hill, Ward, Henderson representing the 17 applicant, 101 East Kennedy Boulevard, Suite 3700. 18 And I have been sworn. 19 This is a request for a major modification to 20 an existing plan development. It is in the Little 21 Manatee South Area just off of US-301. And it is 2.2 the subject of an approved RV park and campground. 23 There are accessory uses such as kayaks, riding arena, and other support uses that are for 24 25 the use of campers only. This is the Masonic Park

Mr. Cohn,

Your email has been received by staff in the Development Services Department. For your letter to be part of the record, it needs to be submitted at least two business days prior to the hearing or at the Zoning Hearing Master hearing (by yourself or by proxy). Given that it was received on May 12^{th} , it will not be entered into the file as a Party of Record. Therefore, you will need to enter it into the record in person or by proxy at Monday (5/15) evening's hearing.

Thank you,

Michelle Heinrich, AICP

Re: DG Farms DRI #194; Rezoning 22-1390; DRI DO 23-0195

Dear Ms. Beck,

I represent John Falkner, Owner and Developer of DG Farms DRI #194 (DG Farms). We learned this week that GTIS Metro DG, LLC (Metro) has applied to remove 32.78 acres from DG Farms pursuant to DRI DO #23-0195, and to re-zone the acreage pursuant to Zoning Application 22-1390. With regard to the re-zoning issue, Falkner will review the rezoning application and he preserves all objections. However, with regard to the DG Farms Development of Regional Impact itself, Metro is not the Owner or Developer of DG Farms; and Metro has no right to seek to remove the acreage from DG Farms.

The acreage in question is located entirely within the boundary of DG Farms and is a part of the property described as the "DG South" property in the Notice of Obligations dated May 28, 2010 recorded at O.R. Book 19901, Page 1914 (copy attached). All of Metro's development rights in DG Farms are derived from Hillsborough County Associates III, LLLP (referred to herein as "GL Homes"). GL Homes acquired its rights in DG Farms from Falkner and are subject to the Notice of Obligations dated May 3, 2004, recorded at O.R. Book 13790, Page 0031 (copy attached).

Only Falkner, as the Developer, has the right to apply to remove acreage from DG Farms. Metro's request to remove the acreage from DG Farms should not be considered by the County unless and until Falkner and Metro reach an agreement that would enable them to move forward jointly.

It is our understanding that this matter is scheduled for a zoning hearing on May 15, 2023, and for a BOCC Land Use Meeting on July 18, 2023. Falkner requests that this correspondence be included in the record for both hearings. We give this notice to prevent any governmental action that would be unauthorized under applicable law or void/voidable regarding the Development Order for DG Farms.

Thank you.

Sincerely,
/s Roy W. Cohn

Roy W. Cohn
