Development Review Procedure Manual (DRPM) text amendment
Approve revisions to DRPM Sections 3 and 6.2.1 to 1) remove from the application submittal instructions
outdated forms and references to those outdated forms; 2) update the application submittal requirements for
Planned Developments to reflect changes in transportation review requirements, changes in electronic
document submittal requirements and to include information required during the application review process that
is presently not reflected in the current submittal requirements, and; 3) update the post application sufficiency
review process to establish a more formalized review process for determining application sufficiency.
