

Application: SU-SCH 24-1335
LUHO Hearing Date: May 11, 2026
Case Reviewer: Jared Follin

**Hillsborough
County Florida**

Development Services Department

This application is out of order to be heard and is being continued to the June 15, 2026, Land Use Hearing Officer meeting.

Per LDC Section 10.02.02.B.2, in no case shall the public hearing the application be continued to a hearing date that is more than six months after the originally scheduled hearing date. If a public hearing is not held on the application within the required time frame, the application shall be withdrawn from processing by the Zoning Administrator. The cancellation by the County of a public hearing date during the six-month period due to County closures during emergency events, shall cause the calculation of time for the public hearing deadline to be tolled for each application until the next public hearing date at which a public hearing takes place. The calculation of time for the six-month deadline for an application shall resume at the next public hearing that the application is scheduled. In the event the County declares a state of local emergency, a six-month extension to the public hearing deadline shall be granted.

The first scheduled hearing date for this application was December 17, 2024. Two states of local emergency were issued due to Hurricane Helene and Hurricane Milton, therefore allowing a one-year extension to the public hearing deadline. Therefore, June 15, 2026, is the final hearing date that may be scheduled for the subject special use application. If the application is not heard on June 15th, it will be withdrawn from further processing by the Zoning Administrator.
